LOGOUT
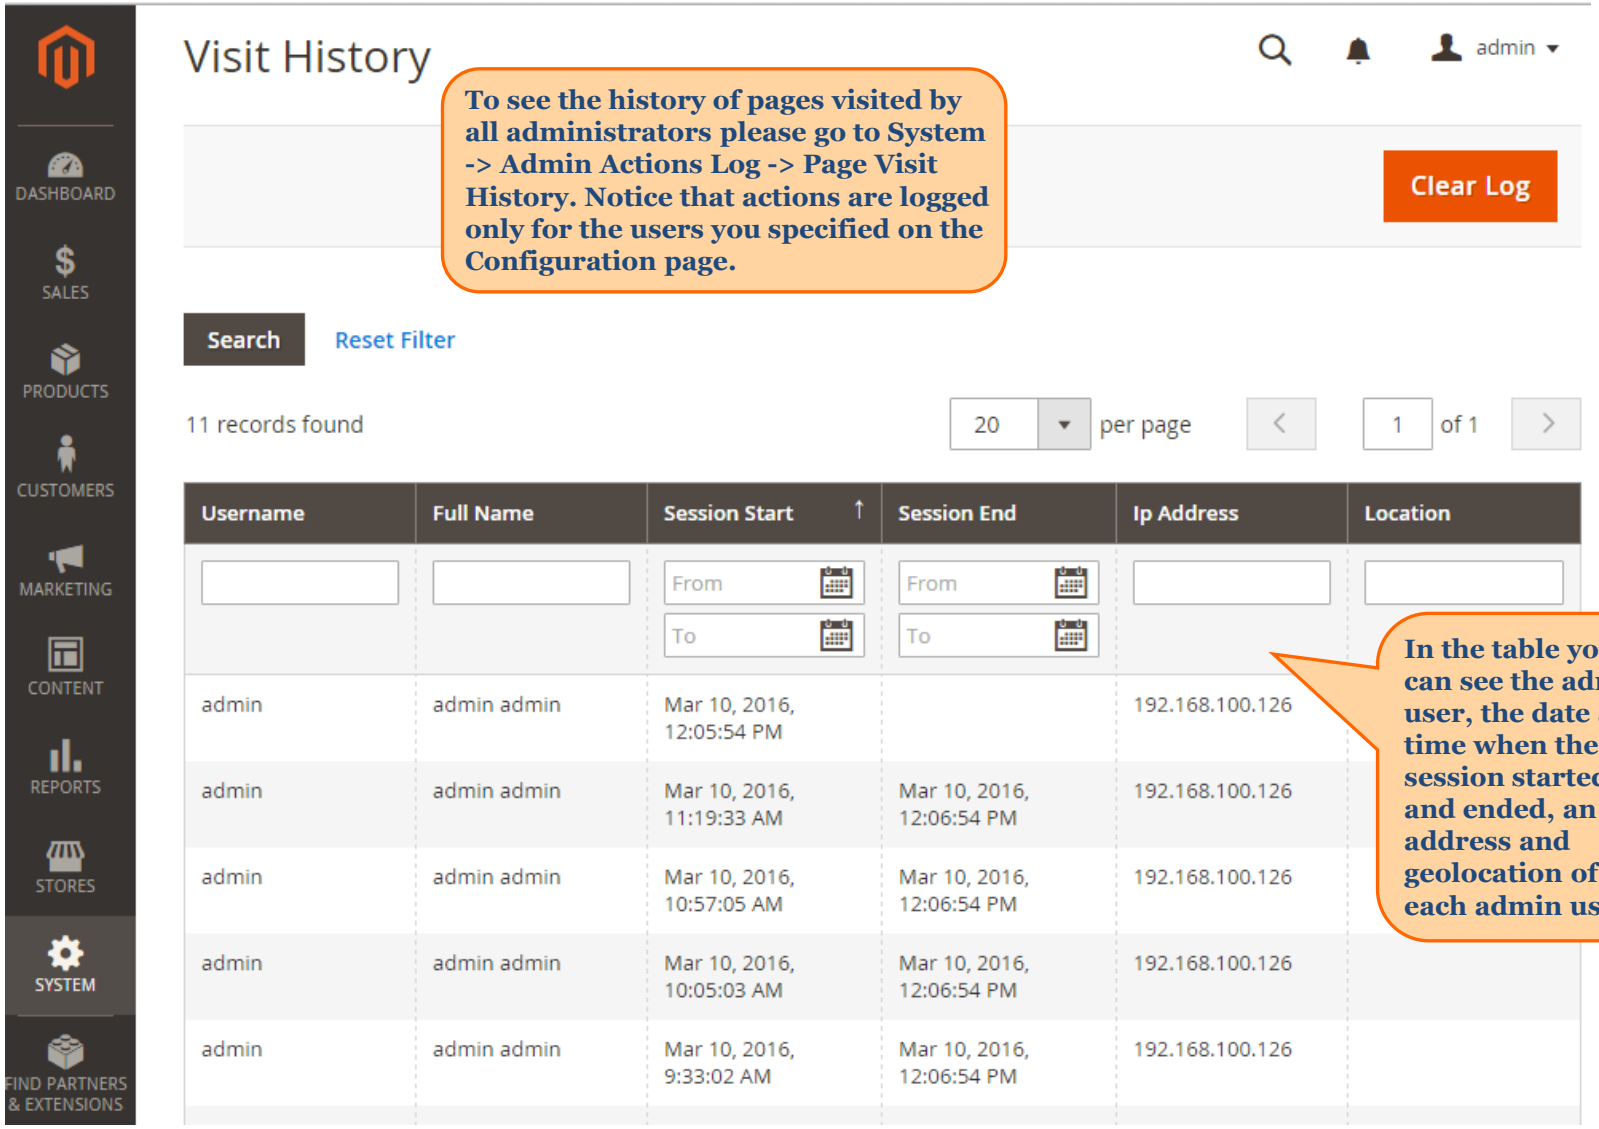
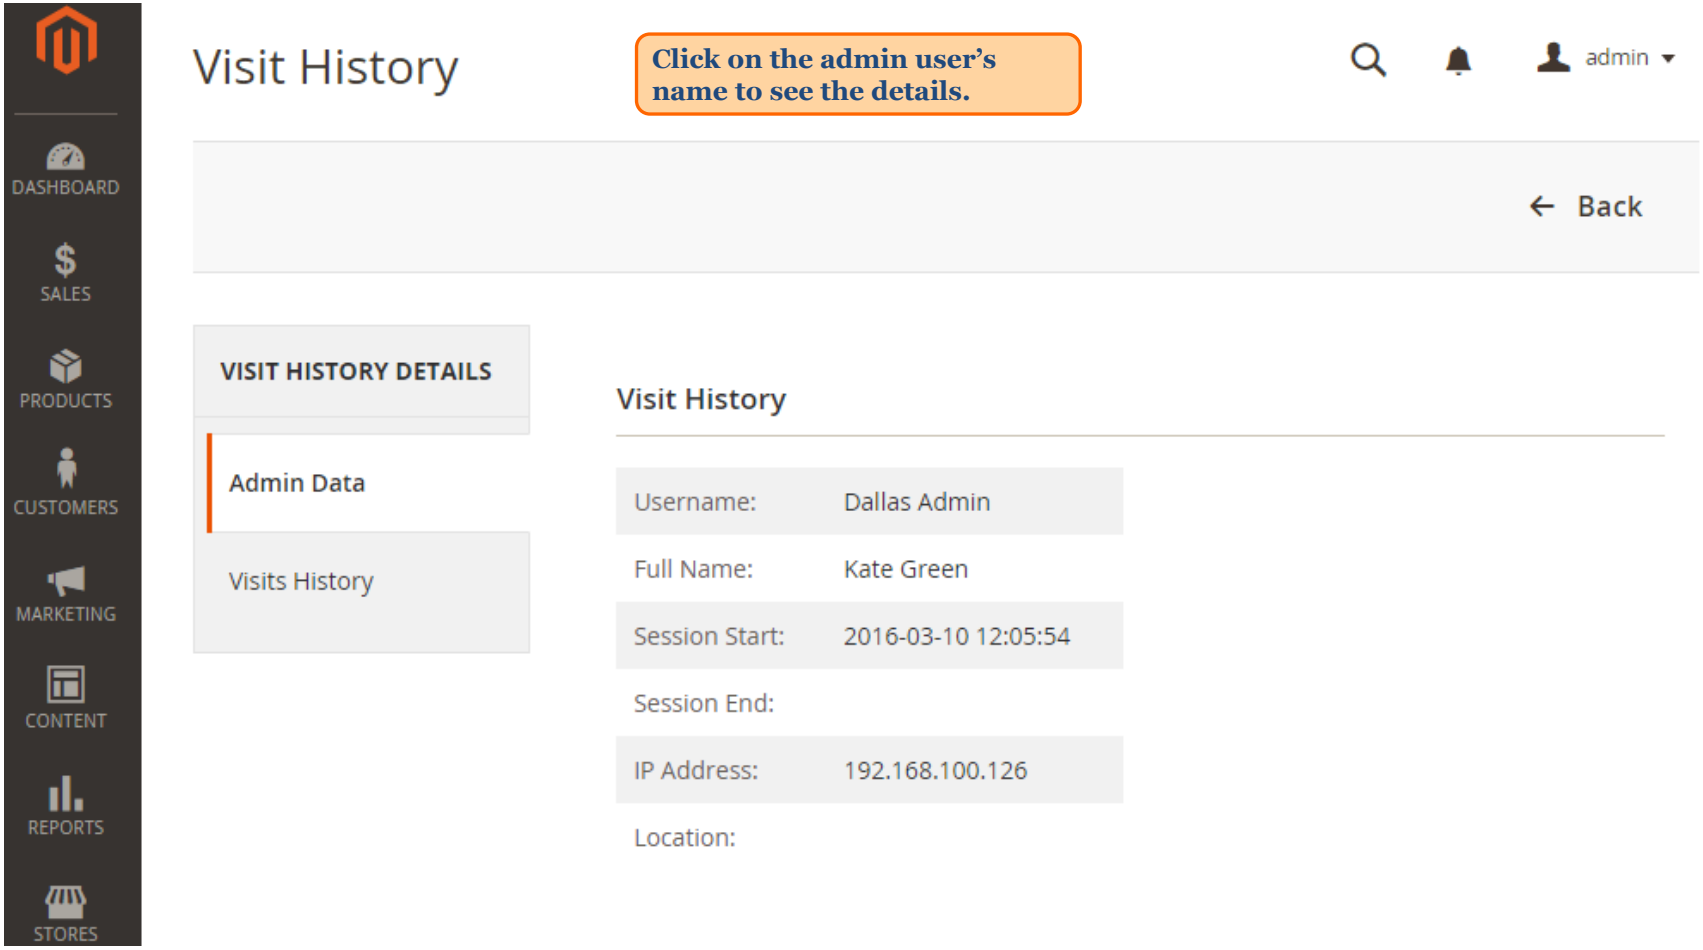
'Logout' information is displayed when the admin user successfully logged out from the store admin panel.



To see the history of pages visited by all administrators please go to System -> Admin Actions Log -> Page Visit History. Notice that actions are logged only for the users you specified on the Configuration page.

In the table you can see the admin user, the date and time when the session started and ended, an IP-address and geolocation of each admin user.



Visit History
Click on the admin user's name to see the details.

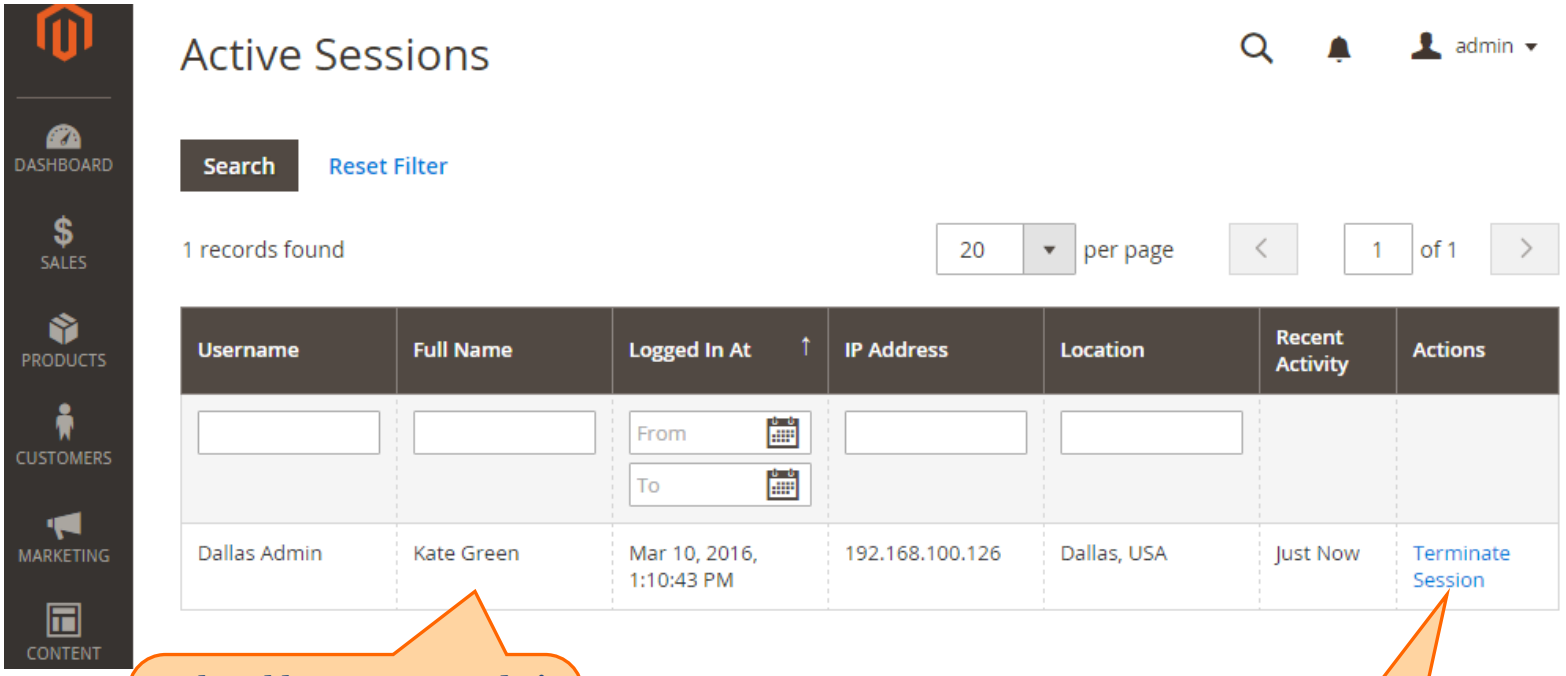
Username: Dallas Admin
Full Name: Kate Green
Session Start: 2016-03-10 12:05:54
Session End:
IP Address: 192.168.100.126
Location:

Please click Visits History Tab to view the details of the session. You can see Page Name, URL address and the exact duration of staying on this page.

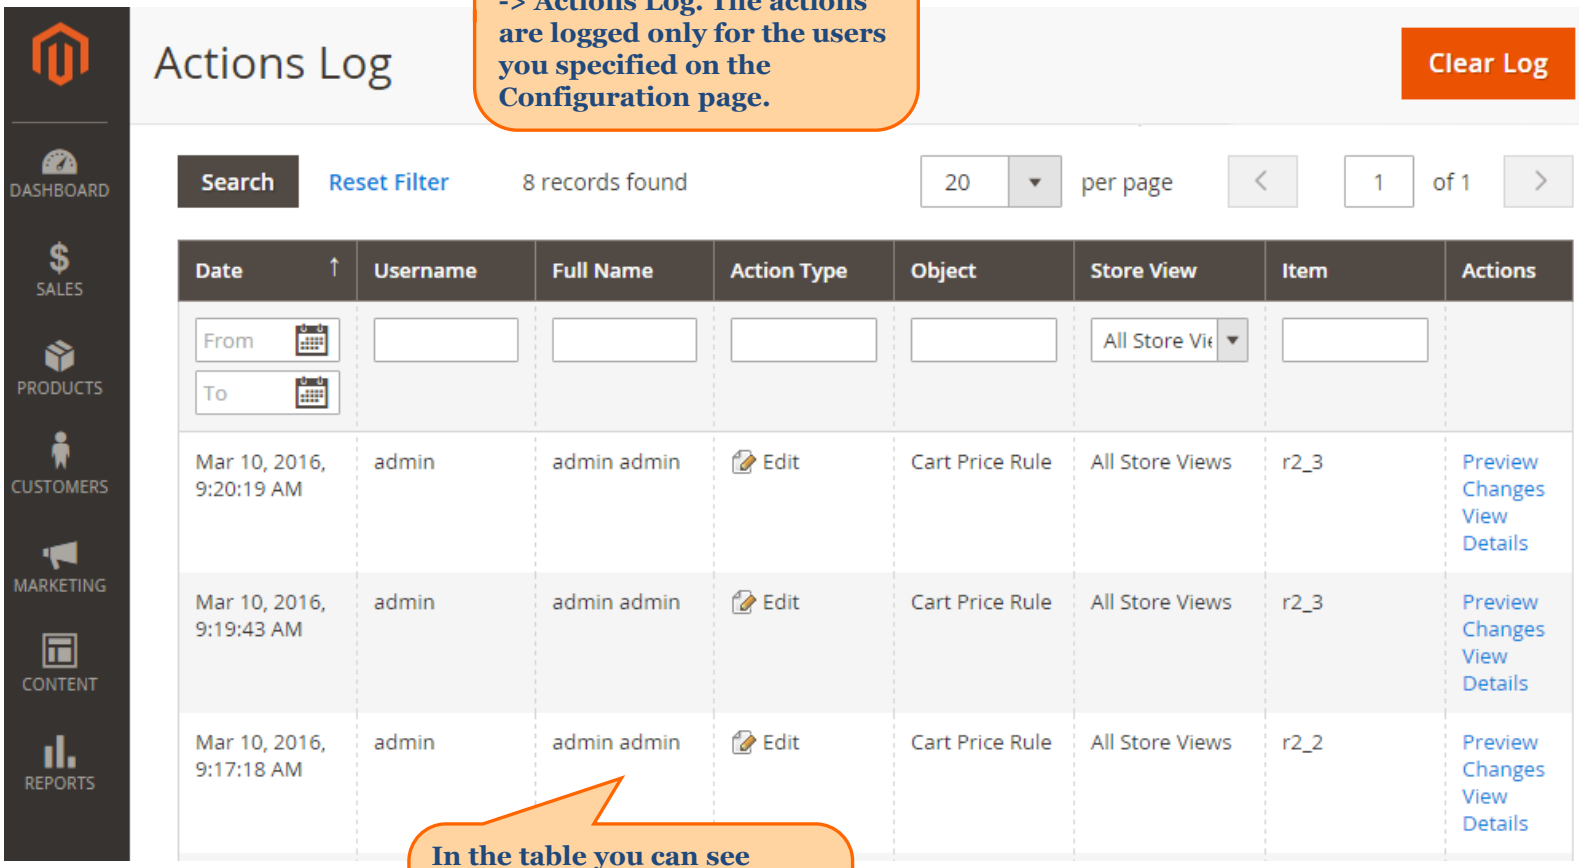
To view administrator sessions that are active right now please go to System -> Admin Actions Log -> Active Sessions.



In the table you can see admin users' data, the date and time when the session started as well as an IP-address and geolocation of each admin user.

Terminate any session if necessary.

To see the action log of all administrators please go to System -> Admin Actions Log -> Actions Log. The actions are logged only for the users you specified on the Configuration page.



In the table you can see admin users' data, the action type, the object and an item or a customer account, which has been modified, created or deleted.
