For more details see the [Color Swatches Pro](#) extension page.

# Color Swatches Pro

Color Swatches Pro extension is an effective tool to present configurable products in a vivid, engaging style. The plugin makes your products' pages easy-to-use and truly shoppers-friendly.

## General Settings

You can find the extension settings in **admin panel** → **System** → **Configuration** → **Color Swatches Pro**.

**General Settings**

Hide Configuration Drop-Downs	<input type="text" value="Yes"/>	[STORE VIEW]
Show All Attribute Options	<input type="text" value="No"/>	[STORE VIEW]
Reload Product Information	<input type="text" value="None"/> Name SKU Description Image Short Description Attributes block Availability	[STORE VIEW]

▲ In case some product info isn't updated on the frontend. Please do configure the Dom selectors at the bottom of this page

**Hide Configuration Dropdowns** - Set to *Yes* to use only swatches for selection of configurable product options.

**Show All Attribute Options** - Display all options at once. If set to *No*, only the options that are specified in the settings will be displayed.

**Reload Product Information** - Choose configurable product info elements that should be replaced by simple product info. The elements will be updated without full page reload, on the fly while customers select options. Multiselect is available.

Show "Reset Configuration" option	<input type="text" value="Yes"/>	[STORE VIEW]
Reload Images When The First Attribute Selected	<input type="text" value="Yes"/> <small>▲ If set to 'Yes', product images will get reloaded after the first attribute is selected (first values of the other attributes will be used).</small>	[STORE VIEW]
Automatically Select Attributes That Have One Single Value	<input type="text" value="Yes"/> <small>▲ On the product view page, automatically select configurable attributes that have only 1 value available in the drop-down.</small>	[STORE VIEW]
Display Out Of Stock Options as Crossed Out	<input type="text" value="Yes"/>	[STORE VIEW]
Enable Slider for Swatches	<input type="text" value="Yes"/> <small>▲ On the product view page</small>	[STORE VIEW]

**Show 'Reset Configuration' option** - Display *Reset Configuration* button in the options' section of a product page.

[reset1.mp4](#)

**Reload Images when the First Attribute Selected** - If the option is enabled, product images will be reloaded once the first attribute is selected (first values of other attributes will be chosen).

**Automatically Select Attributes That Have One Single Value** - If a product has only one configurable attribute in the drop-down, it will be automatically selected.

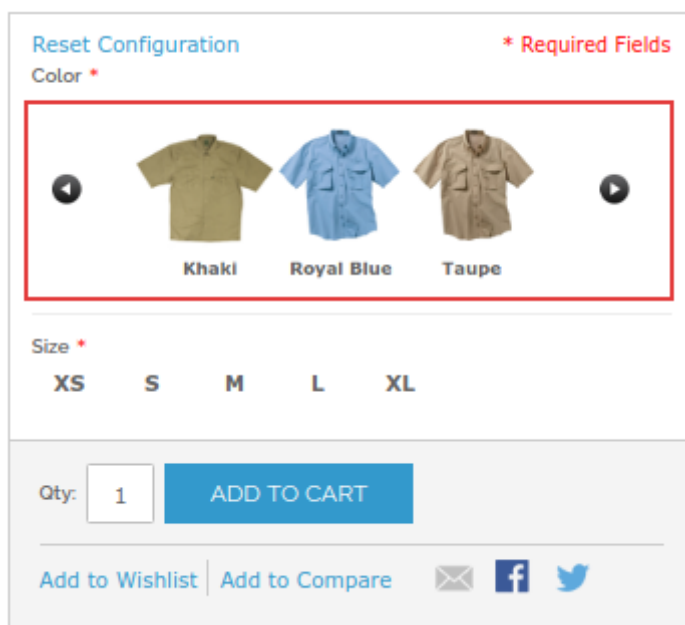

**Display Out of Stock Options as Crossed Out** - Set the option to *Yes* to display out of stock product options as crossed-out.

[A sample of out-of-stock swatches](#)

**Enable Slider for Swatches** - Enable/disable swatches slider on product view pages.

A sample of swatches' slider

## Configurable Product Matrix

Apart from the functionality of the Color Swatches Pro extension, you can also enhance your shoppers' experience, additionally installing the [Configurable Product Matrix](#) module.

[Configurable Product Matrix](#) is a handy tool displaying all the available variants of a configurable product with size, price, discount, and available quantity, etc.

Color - Charcoal \*

Size	Old Price	Price	Qty		Available Qty	
XS	<del>\$173.20</del>	\$160.00	-	10	+	34
M	<del>\$173.20</del>	\$160.00	-	8	+	100
L	<del>\$173.20</del>	\$160.00	-	9	+	65

## Swatches

### How to upload images for attributes?

To upload images to the necessary attribute please go to **Catalog** → **Attributes** → **Manage Attributes**, filter out the Color attribute and click on it.

Page 1 of 1 pages | View 20 per page

Attribute Code	Attribute Label	Required	System	Visible	Scope
color	Color	No	No	Yes	Global

After you install the extension, a new tab called *Attribute Images* will appear for attributes.

Tick the checkbox **Use Images for selection of configurable product options** before clicking *Save Attribute* button to enable image-based selection of options for configurable product attributes.

Please click *Save and Continue Edit* button to save color swatches dimensions. At the next step you need to upload attribute images.

Height, (px) <input type="text" value="140"/>	Height, (px) <input type="text" value="70"/>
<b>Title</b>	
Display Attribute Titles Under Swatch Images <input type="text" value="Yes"/>	

At **Attribute Images** tab you can specify color swatches size on product and category pages.

To upload images to the necessary attribute, go to **Catalog → Attributes → Manage Attributes**, filter out the Color attribute and click on it.

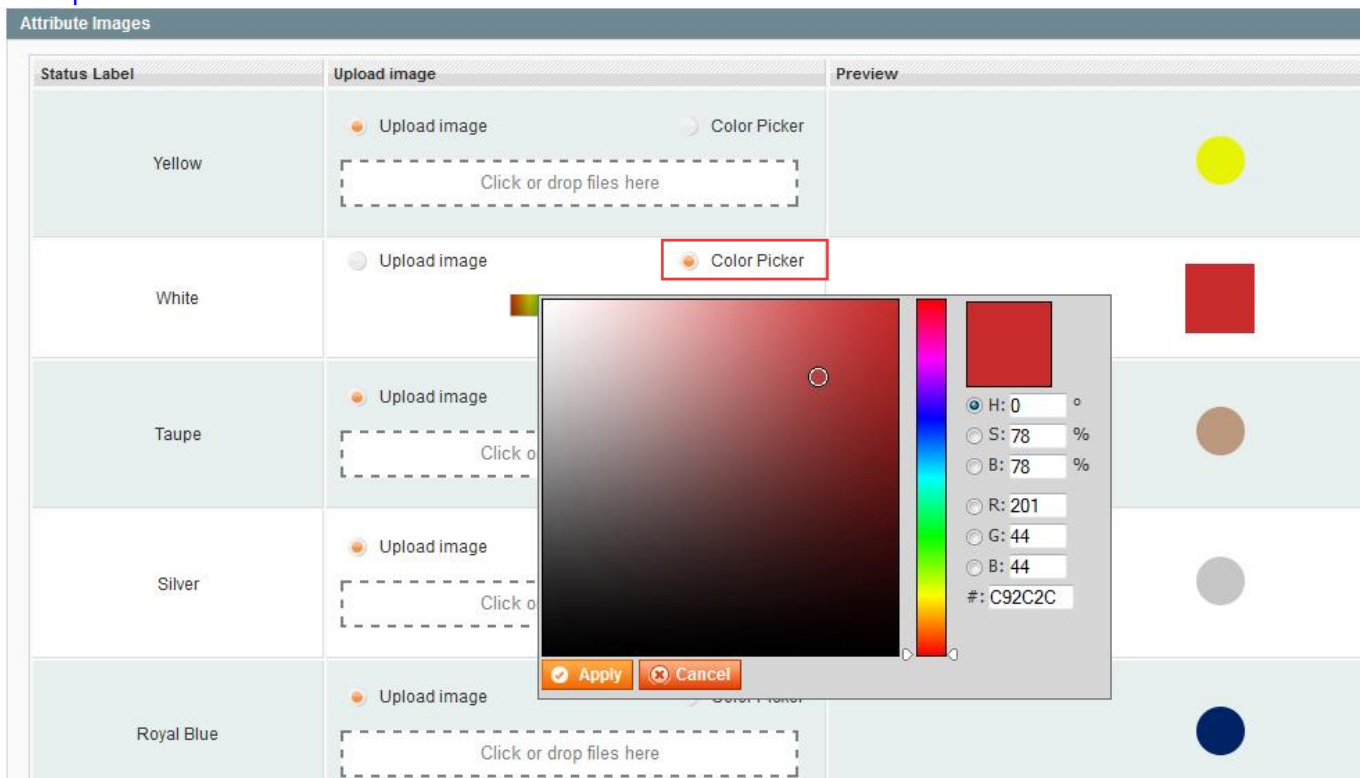

**Upload Image** - To set attribute image you can either upload it or simply drag and drop it to the place.

**Attribute Images**

Status Label	Upload image	Preview	Delete
XL	<input checked="" type="radio"/> Upload image <input type="radio"/> Color Picker <div style="border: 1px dashed gray; padding: 5px; text-align: center;">Click or drop files here</div>		
S	<input checked="" type="radio"/> Upload image <input type="radio"/> Color Picker <div style="border: 1px dashed gray; padding: 5px; text-align: center;">Click or drop files here</div>		
M	<input checked="" type="radio"/> Upload image <input type="radio"/> Color Picker <div style="border: 1px dashed gray; padding: 5px; text-align: center;">Click or drop files here</div>	[none]	
L	<input checked="" type="radio"/> Upload image <input type="radio"/> Color Picker <div style="border: 1px dashed gray; padding: 5px; text-align: center;">Click or drop files here</div>	[none]	

In case you need a solid color for any product attribute you can use our Color Picker option with a

color palette.

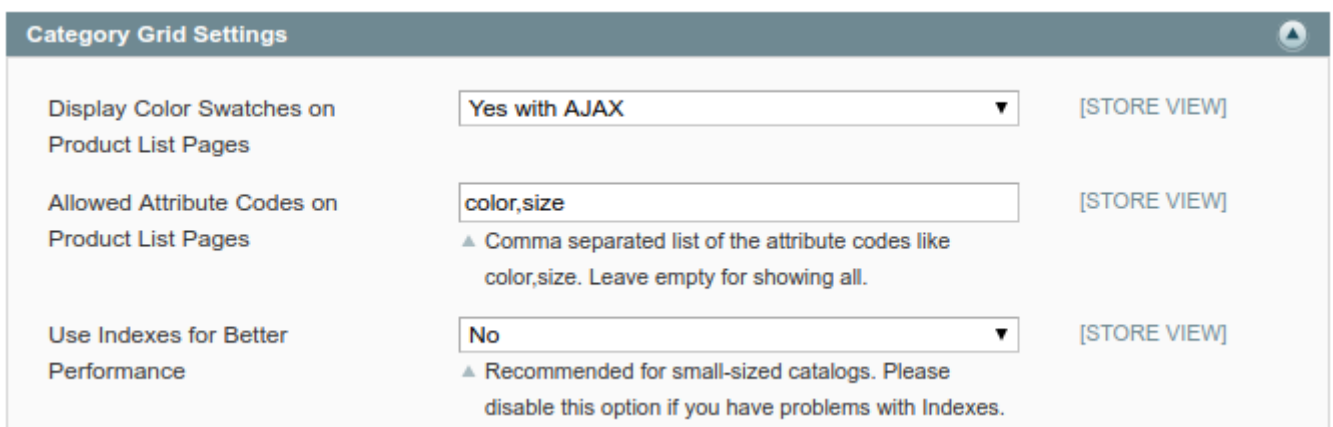

### Display Swatches on a Category page

Go to **admin panel** → **System** → **Configuration** → **Color Swatches Pro**.

**Display Color Swatches on Product List Pages** - Set this option to Yes to show color swatches and enable customers to select them on category pages and search results. Choose AJAX mode to speed up category pages download.

**Use Indexes for Better Performance** - To improve category pages performance, set re-indexation feature to Yes.

**Product Thumbnail Width (Height)** - Specify the product thumbnail size in pixels.

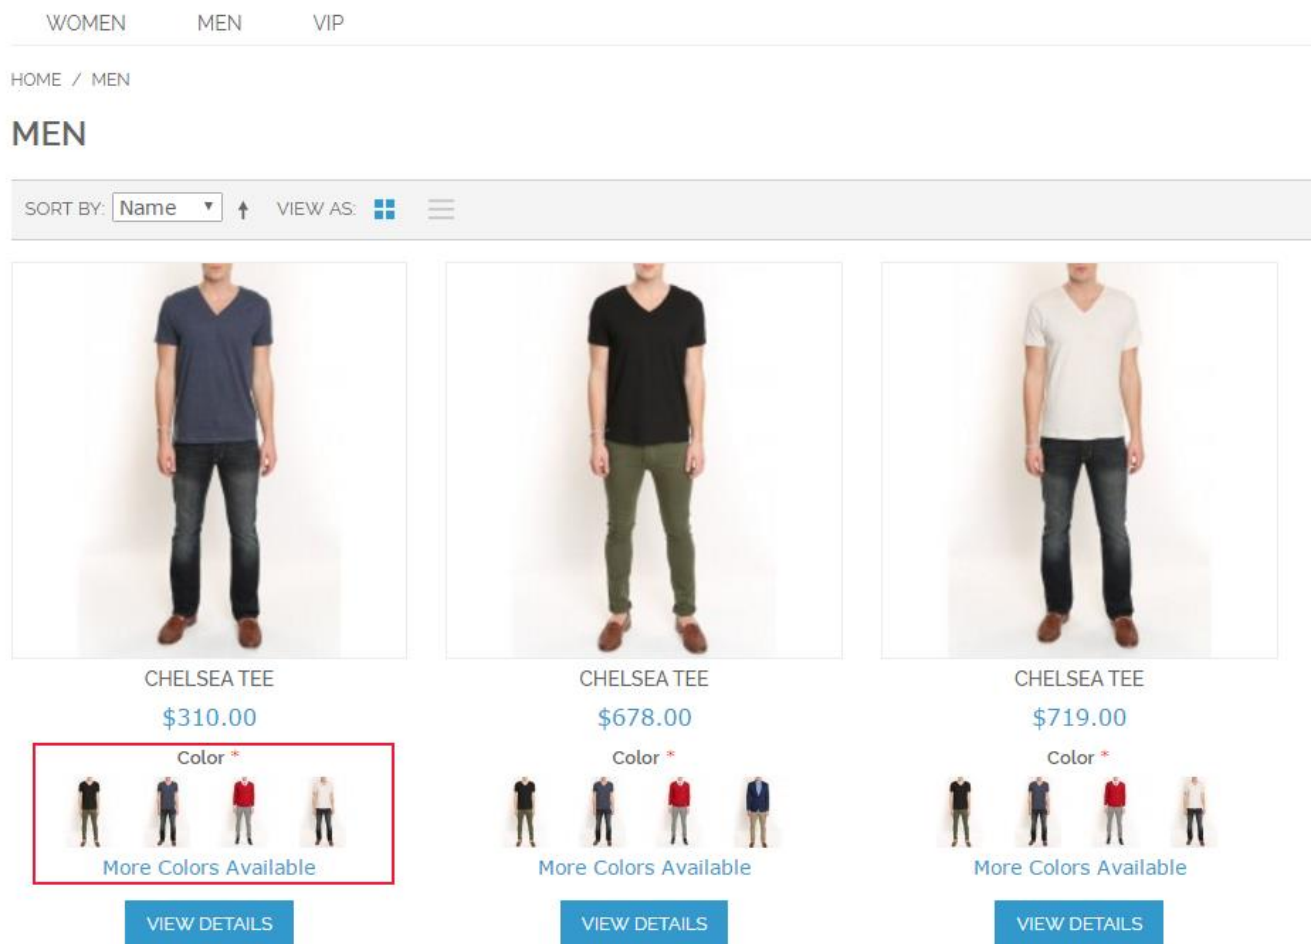

Product Thumbnail Width (px)	<input type="text" value="210"/>	[STORE VIEW]
Product Thumbnail Height (px)	<input type="text" value="210"/>	[STORE VIEW]
Show limited amount of swatches	<input type="text" value="Yes"/>	[STORE VIEW]
Visible swatches amount	<input type="text" value="4"/>	[STORE VIEW]

▲ Specify how many swatches will be visible on a category page. If swatches amount is more than 'Visible swatches amount' a link 'More Colors Available' will be shown.

**Show limited amount of swatches** - Set the option to Yes to limit the number of swatches visible on category pages.

**Visible swatches amount** - Specify the number of swatches/images visible on a category page.

### Limit an amount of swatches

### Images of associated products for swatches

Go to **admin panel** → **Catalog** → **Products** → **Associated Product**

The extension allows you to use images of associated products for swatches of one attribute. E.g. you

can use the images for attribute color.

- For this aim, go to *Edit a configurable product* and open *Associated Products* tab.
- Tick *Use image from product* next to the attribute for which you would like to use the images of simple products as swatches.
- This option will be enabled only in case you've ticked the checkbox *Use images for selection of configurable product options*.

### Image Size Settings

Go to **admin panel** → **System** → **Configuration** → **Color Swatches Pro**.

Set up the dimensions for preview image.

**Image Size Settings (System)**

Size of The Thumbnail Image (px)  [STORE VIEW]

▲ 75 pixels by default. Do not modify this value until you really need to.

### Price Settings

Go to **admin panel** → **System** → **Configuration** → **Color Swatches Pro**.

**Use Price of Simple Products** - If you choose *Yes* for *All Products* the prices for configurable products will be automatically taken from simple products. Choose *No* to set each price for configurable product manually.

Choose *For Specified Products* to set manually the products where the prices for configurable products will be automatically taken from simple products. In this case you should tick on the checkbox *Use price of simple products* on the product settings page.

Use price of simple products  ▼  
▲ If set to "Yes", full price of associated products of configurables is used for calculations and front end display instead of price difference.

**Price Settings**

Use Price of Simple Products	<input type="text" value="Yes for All Products"/> <span>▼</span>	[STORE VIEW]
	▲ Individual products can be specified on a product edit page.	
Display Price	<input type="text" value="Default Configurable Price"/> <span>▼</span>	[STORE VIEW]
Display Price of Simple Products in Drop-Downs	<input type="text" value="Don't Show Price"/> <span>▼</span>	[STORE VIEW]
Display Price of Simple Products in Swatch Title	<input type="text" value="Yes"/> <span>▼</span>	[STORE VIEW]

**Display Price** - If you show simple options of configurable products in drop-downs, you can enable prices display for them. Choose whether to show actual prices for each configuration or the price difference.

A sample of price displayed

\$65.00    \$65.00    \$65.00    \$65.00

- 1 +        

**Display Price of Simple Products in Drop-Downs** - Display prices in dropdowns in *Actual Price* mode, or with *Price Difference*. Select *Don't Show Price* to disable.

- Show prices of simple configurations associated with configurable products (a sample of *Actual Price* enabled).

Choose an Option... ▼  
Choose an Option...  
S \$70.00  
M  
L \$80.00  
XL \$50.00

- Show prices of simple options associated with configurable products (a sample of *Price Difference*).

**Display Price of Simple Products in Swatch title** - Set the option to Yes if you don't use drop-downs to show simple options. In case the option is enabled the prices of simple options will be displayed in a swatch title.

- A sample of prices displayed as swatch titles.

### Price of simple products

To enable usage of simple product prices for a configurable product, please go to **Catalog→Manage Products** and open the configurable product for which you would like to enable this feature.

**Use price of simple products** - Switch it to Yes to use prices of simple products instead of setting the prices for configurable product manually.

**Zolof The Rock And Roll Destroyer** Save and Continue Edit

Use Quantity Ranges Based Stock Status	No
Use price of simple products	Yes

▲ If set to "Yes", full price of associated products of configurables is used for calculations and front end display instead of price difference.

## Zoomer

**Enable Zoom Feature** - If *Enable "Zoom" Feature* is set to *Yes*, zoom effect will be activated for product images on front end.

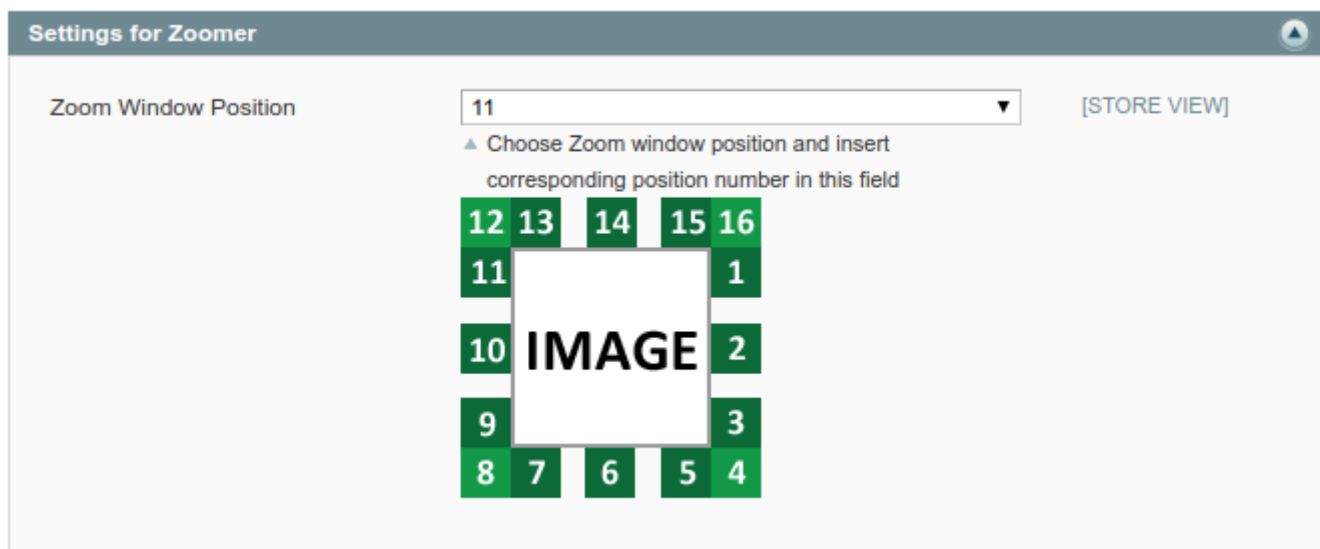

**Type of Zoom** - There are three types of zoom available: *Outside* , *Inside* and *Lens*. Choose *Outside* zoom to show zoomed product image in a separate window. *Inside* Zoom will display zoomed elements of product images right in the main product image window.

**Zoomer for Main Image**

Enable "Zoom" Feature	Yes	[STORE VIEW]
Type of Zoom	Outside	[STORE VIEW]
Action for Main Image Change	On Mouse Hover	[STORE VIEW]

## Settings for Zoomer

Choose **Zoom window position** and insert corresponding position number in the field.

Set various visual effects for the outside **zoom window** display.

Horizontal Offset, px	<input type="text" value="10"/>	[STORE VIEW]
Vertical Offset, px	<input type="text" value="10"/>	[STORE VIEW]
Zoom Window Width, px	<input type="text" value="200"/>	[STORE VIEW]
Zoom Window Height, px	<input type="text" value="200"/>	[STORE VIEW]
Preloading Images	<input type="text" value="Yes"/>	[STORE VIEW]
Use FadeIn Effect	<input type="text" value="Yes"/>	[STORE VIEW]
Use Easing Effect	<input type="text" value="Yes"/>	[STORE VIEW]
Use Scroll Zoom Effect	<input type="text" value="Yes"/>	[STORE VIEW]
Use Tint Effect	<input type="text" value="No"/>	[STORE VIEW]
Tint Color	<input type="text" value="#F90"/>	[STORE VIEW]

## Settings for image label

**Display Image Label** - Set the option to *Yes* to display a text label for zoomed images.

**Position** - Choose either top or bottom position for a text label.

**Background Color** - Configure display settings like opacity, text and background color.

**Settings for Image Label**

Displaying in **Inside** and **Outside** Types of Zoom

Display Image Label	Yes	[STORE VIEW]
Position	Top	[STORE VIEW]
Opacity	1	[STORE VIEW]
Text Color	FFFFFF	[STORE VIEW]
Background Color	777777	[STORE VIEW]

Show text labels together with zoomed images.

## Lightbox

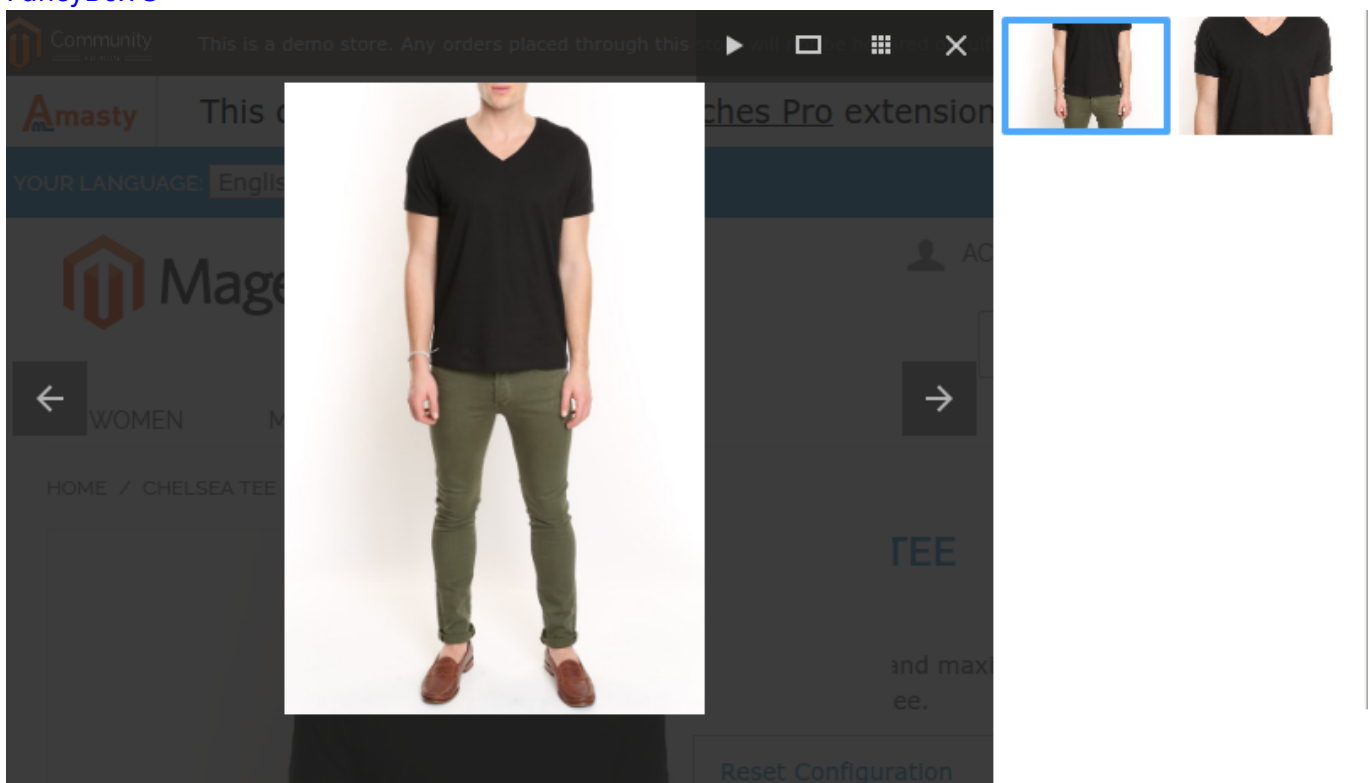

**Enable Lightbox Feature** - Set this feature to Yes to enable lightbox effect when customers open full-size images.

**Circular Lightbox** - With circular lightbox, customers can view product images in non-stop circle.

**Enable Thumbnail Helper** - If set this option to Yes thumbnail helper will appear in a lightbox. The helper shows thumbnails of all available product images.

Lightbox		
Enable "Lightbox" Feature	Yes	[STORE VIEW]
Enable Thumbnail Lightbox	Yes	[STORE VIEW]
Circular Lightbox	Yes	[STORE VIEW]
Title Position	Float	[STORE VIEW]
Animation Effect	Effect of disappearance	[STORE VIEW]
Enable Thumbnail Helper	Yes	[STORE VIEW]
Fancybox Library Version	Fancybox 3 (default) Fancybox 3 (default) Fancybox 2 Fancybox version from the custom theme	[STORE VIEW]

### Fancybox 3

To disable the effect of Lightbox & Zoom, set:

- Enable "Zoom" Feature to NO
- Action for Main Image Change to Disable
- Enable "Lightbox" Feature to NO
- Enable "Carousel" Feature to NO

This will reset settings to default theme with Zoom .

## Carousel

**Enable Carousel Feature** - Set *Enable "Carousel" Feature* to Yes to show product thumbnails in an

attractive carousel.

[A sample of an enabled carousel](#)

MORE VIEWS

**Count of Visible Items in Carousel** - Choose how many items should be visible in the carousel at the same time.

Carousel Feature for Thumbnails		
Enable "Carousel" feature	Yes	[STORE VIEW]
Count of Visible Items in Carousel	Two	[STORE VIEW]
Circular Carousel	Yes	[STORE VIEW]
Use Swipe Carousel	Yes	[STORE VIEW]
Use Pagination	Yes	[STORE VIEW]
Use Automatic Scrolling	Yes	[STORE VIEW]

**Circular Carousel** - This feature activates circular carousel. It means customers will be able to endlessly list product thumbnails in the carousel.

**Use Pagination** - This option allows you to display pagination right under the thumbnail carousel.

## CSS selectors for reloadable information

If you experience any difficulties defining CSS selectors, have a look on our article on [how to find css selectors](#).

In case everything works correctly, you don't need to change these settings.

**DOM Selectors for Reloadable Information**

**DOM Selectors for attributes.** To configure the selectors please check the [FAQ](#)

Name	<input type="text" value=".product-name h1, div.product-name .h1"/>	[STORE VIEW]
Description	<input type="text" value=".box-description div, #product_tabs_description_tab"/>	[STORE VIEW]
