Previous-Next Navigation

Magento Extension
User Guide

Official extension page: Previous-Next Navigation
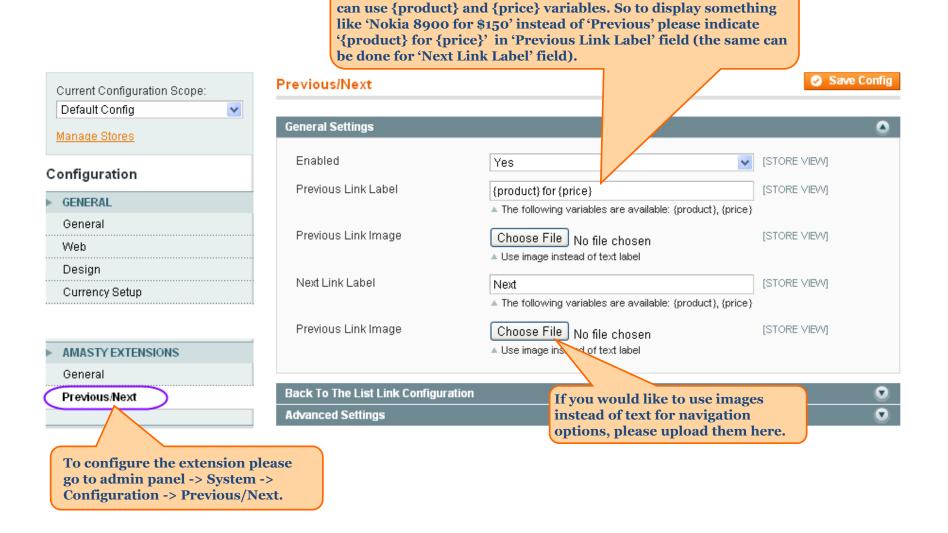

Table of contents:

You can have any text for 'Previous' and 'Next' options, also you can use {product} and {price} variables. So to display something like 'Nokia 8900 for $150' instead of 'Previous' please indicate '{product} for {price}' in 'Previous Link Label' field (the same can be done for 'Next Link Label' field).

Advanced Settings ⬤

If you would like to use images instead of text for navigation options, please upload them here.

To configure the extension please go to admin panel -> System -> Configuration -> Previous/Next.

Customers can get to a product page from category page, from search results page, from a product block (e.g. related products) or via direct link.

Current Configuration Scope:
Default Config
Manage Stores

Configuration

▶ **GENERAL**

When customers get to a product page from category page, from a product block or via direct link, they will have an option to go to the category page. You can edit label or upload image for the option. If you use {category} variable for the label, the name of the category will be displayed.

Advanced Settings

Show Thumbnail On Mouse Over   No   [STORE VIEW]
⚠ Show product thumbnail image when mouse goes over next or previous links

Show Previous/Next By Category For Direct Links   Yes   [STORE VIEW]
⚠ Show navigation controls when product page is opened by direct link

If you turn this setting to 'No', navigation options will not be displayed for cases when a customer gets to a product page via direct link.

Thumbnail image is displayed when mouse is over the navigation option label.

Furnitu[re] [Electro]nics   Apparel

Home / E[lectronics] / [Cell] Phones / **BlackBerry 8100 Pearl**

Nokia 2610 Phone for $149.99   Back to the Cell Phones category   Sony Ericsson W810i for $399.99

Here's an example of the extension in action. We used {product} and {price} variables, so we can see the product name and price as the navigation option label.

Category name is displayed with the help of {category} variable.

Quick Overview

The BlackBerry 8100 Pearl is a departure from the form factor of previous BlackBerry devices. This BlackBerry handset is far more phone-like, and RIM's engineers have managed to fit a QWERTY keyboard onto the handset's slim frame.
