

# Magento 2 Admin Actions Log – new Amasty extension

[Ksenia Dobрева](#) Jun 13, 2016

Please meet the new Magento 2 extension from Amasty – [Admin Actions Log](#).

**Track all backend actions performed by store administrators. View detailed log history and monitor login attempts on a handy grid. Track admin actions in a real-time mode to easily improve admin users' performance.**

# NEW MAGENTO 2 EXTENSIONS

## ADMIN ACTIONS LOG

Useful for: **CATALOG MANAGEMENT**

### Features:

- Log actions of all or specific admin users
- Keep log details for a predefined time period
- Track all backend login attempts
- Track admin performance in online mode
- View page visits history

*Use this extension to gain full control over all admin users and their actions and to save your store from admin accounts hijacking or track brute forcing passwords for existing store managers.*

## MAGENTO 2 ADMIN ACTIONS LOG FEATURES:

- **Track actions of all admin users**, real-time mode is included;
- **See changes history**, automatically clean up logs and restore recent changes if needed;
- **See actions log on a handy grid** with Preview and Details options;
- **Track login attempts** and get suspicious login attempts notifications to prevent fraud;
- Show **history of changes** on backend pages and restore recent changes if needed;
- Show order comments in log details and monitor user role changes as well.

Actions Log

← Back Restore Changes

You can restore any recent changes if necessary.
