

# Amasty Extensions Updates: April 2014

[Vera Rabkina](#) Apr 25, 2014

April was a great month for Amasty Magento updates. We have not merely **updated every fourth extension we have**, but also equipped some of them with great new functionality, which sometimes is equal to issuing a new extension. Take for example [Improved Layered Navigation](#) update: now you can arrange brands in alphabetical order for Magento advanced search and enjoy canonical tags optimization. Read on to learn more about other major updates of Amasty Magento extensions.

New version of [One Step Checkout](#) Magento extension offers you a new modern visual style as well as responsive design for mobile devices, which lays a good ground for improving your M-commerce. Besides, now it works much faster, which also adds some additional points to your usability.

[Special Promotion](#), [Special Promotions Pro](#) and [Loyalty Program](#) Magento extensions now can boast of some new features, which will definitely be of much help for experienced merchants. Now you can set a fixed price for a product set as well as provide a discount in case specified products are bought together. With our updates promotion of your bundles has become even easier! Can't wait to learn about other Amasty Magento updates? Check them in the infographics below!

Amasty Extensions Updates: April 2014

## Improved Layered Navigation

### Version 2.4.2

- Added option to include brand images to alphabetical brands list
- Prev/Next and Canonical tags optimization
- Removed compatibility with Magento CE 1.3 to clean up the code
- Templates are moved to `app\design\frontend\base\default\template\amasty\amshopby\`, note a new folder "amasty"
- Fixed wrong products count in category display type "Advanced"
- Fixed Stock filter compatibility with other modules that adds stock information in the products collection
- Fixed Landing Pages + AJAX Scroll

## Product Attachments

### Version 1.3.0

- Auto detect mime types. Optional. It means some files like PDF customer can open right in the browser window instead of downloading on the hard disc.
- Files validation now allows uploading attachments with complex types, like "tar.gz"
- Mass action to copy attachments to many products at once
- Mass action to remove files right from the product grid

## One Step Checkout

### Version 2.0.8

- Major update: code refactored, speed and compatibility improved
- New visual style
- Responsive design for mobile devices
- Better compatibility with Magento 1.5.x
- If customer registration is required, the module reloads the page to show error messages.
- Step icons updates

## Advanced Permissions

### Version 1.0.2

- In the dropdowns only available stores are shown
- If an admin user creates a new sub

## Abandoned Cart Email

### Version 1.4.0

- Better multi-store support
- New options to display prices in email (incl. or excl. tax)

category, it receives the same view permissions as the parent category.

- Better support for sales orders permissions (with setting if to limit access to orders)

### Loyalty Program

#### Version 1.5.0

- New action: fixed price for product set. For example "buy mobile phone, memory card and the case for \$99 in total"
- New action: percent discount for product set. For example "when buying shoes and jacket together, each item gets 10% off"

### Customer Product Images

#### Version 1.1.5

- Possibility to specify which block to insert images to

### Special Promotions Pro / Special Promotions

#### Version 1.5.1

- New action: Each Group of N with Percent Discount
- New action: fixed price for product set. For example "buy mobile phone, memory card and the case for \$99 in total"
- New action: percent discount for product set. For example "when buying shoes and jacket together, each item gets 10% off"

### Custom Stock Status

#### Version 3.6.8

- Better compatibility with Pre Order extension
- Possibility to use HTML tags in custom status text

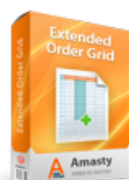

### Extended Product Grid

#### Version 4.7.1

- Correct handling of percent-based special price for bundle/grouped products
