

Amasty extensions updates – April 2015

[Ksenia Dobрева](#) Apr 29, 2015

Marching to April updates! Here's what we've done to make our Magento extensions better.

[Shipping Rules 1.1.0](#)

- Option to add surcharge / discount per Unit weight

Use this option to surcharge or discount shipping price based on the product weight. For example, if the product weight is 5 kg and surcharge rate per a unit of weight is 2 USD, than final shipping price will increase on 10 USD.

- Fixed coupon validation when it contains both uppercase and lowercase letters
- Option to show shipping discount provided by rules right in the shipping calculation block and at the checkout.

[Abandoned Cart Emails 1.11.4](#)

- Coupon is applied automatically, client does not need to enter it manually

- Option to send alerts to registered clients only
- Magento 1.4 compatibility
- Using base currency in email
- Optimization for generation coupons by cron

Shipping Restrictions 1.1.2

- Option to apply restrictions when customer provides a coupon code
- Ability to include product names used in rule as variables {all-products} and {last-product}. Works for conditions type “ALL is true”
- Option to disable some shipping methods for back-orders or restrict special shipping methods if all products are in stock

Product Feed 3.2.2

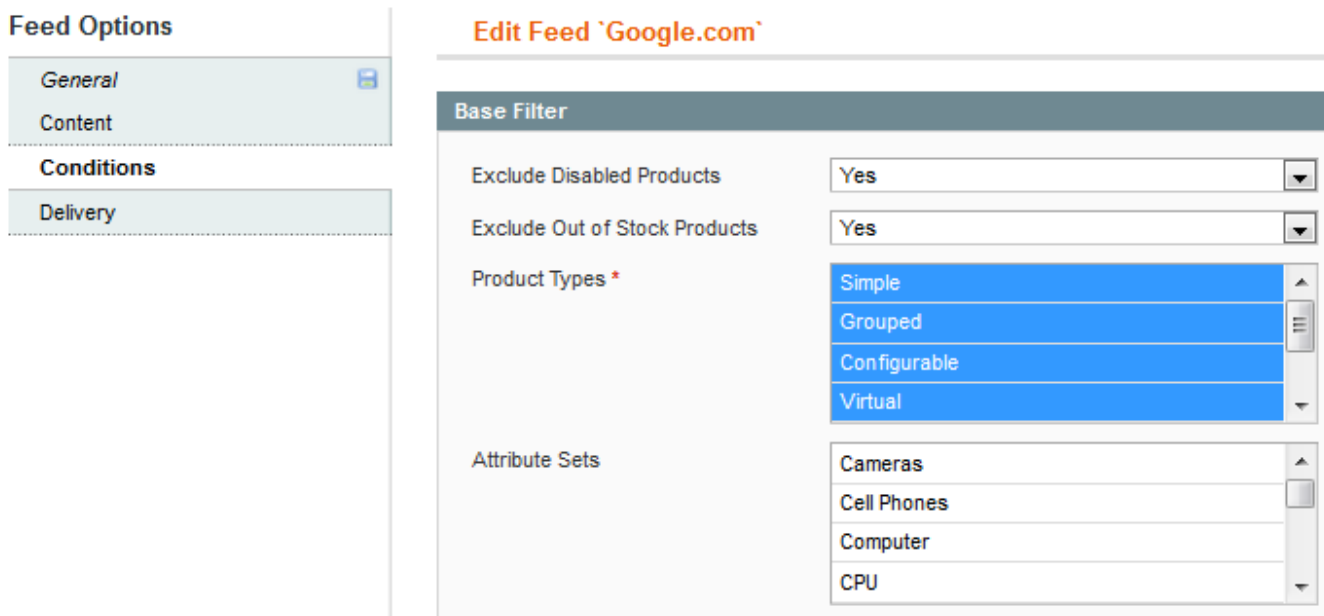

- Feed can be uploaded via Secure FTP. Useful for Amazon Ads, for example.
- Option to set feed generation time, for example to generate feeds at night

Edit Feed 'Google.com'

- New condition by stock availability

- Inner code refactoring for categories filtration logic

Product Attachments 1.5.0

- Minor fixes
- File size is now displayed on frontend for each downloadable file

PRODUCT TAGS

Add Your Tags:

ADD TAGS

Use spaces to separate tags. Use single quotes (') for phrases.

[/dropshadowbox]

- Uploaded files with links are now displayed on the product grid in the backend

Google Sitemap 1.0.6

- Compatibility with Unique Product URL module
- Install script modifications
- Now, if we include landing pages, we use URL suffix from the catalog settings

Product Parts Finder 2.1.5

- Manage universal products display in search results

Due to this option you can display more relevant search results first and then place universal products. Therefore you'll increase customers' satisfaction by providing them with the items they really need.

- Option to apply only current finder at the page with 2 or more different finders (like by part number or YMM)

In case you have more than one finder on a page, now you can easily clear all already specified conditions for other (previous) finders on this page in order not to narrow down search parameters. It means that only one finder will be applied at a time.

- No EE full page cache for the pages with finder results

Landing Pages 1.7.1

- New flexible conditions – ability to select several attributes and combine them similar to shopping cart rules
- New conditions for SKU attribute

Store Locator 1.3.0

- Possibility to apply specific products or categories to specific stores

Dashboard Sales Catalog Mobile Customers Promotions Newsletter CMS Reports System Get help for this page

RETRO CHIC EYEGLASSES

IN STOCK

\$295.00

Available in Stores

Madison Island Retro chic lenses are stylish on both men and women.

Qty:

[ADD TO CART](#)[Add to Wishlist](#) | [Add to Compare](#)

[Shipping Table Rates 2.1.7](#)

- Option to show max rate, min rate or sum up rates (default algorithm) for products with different shipping types.

Now you can not only sum up shipping rates of products with different shipping types, but also choose whether to use minimal or maximal rate. For example, if a customer adds to cart two or more products with different shipping table rates you can show him/her minimal or maximal rate for all the products.

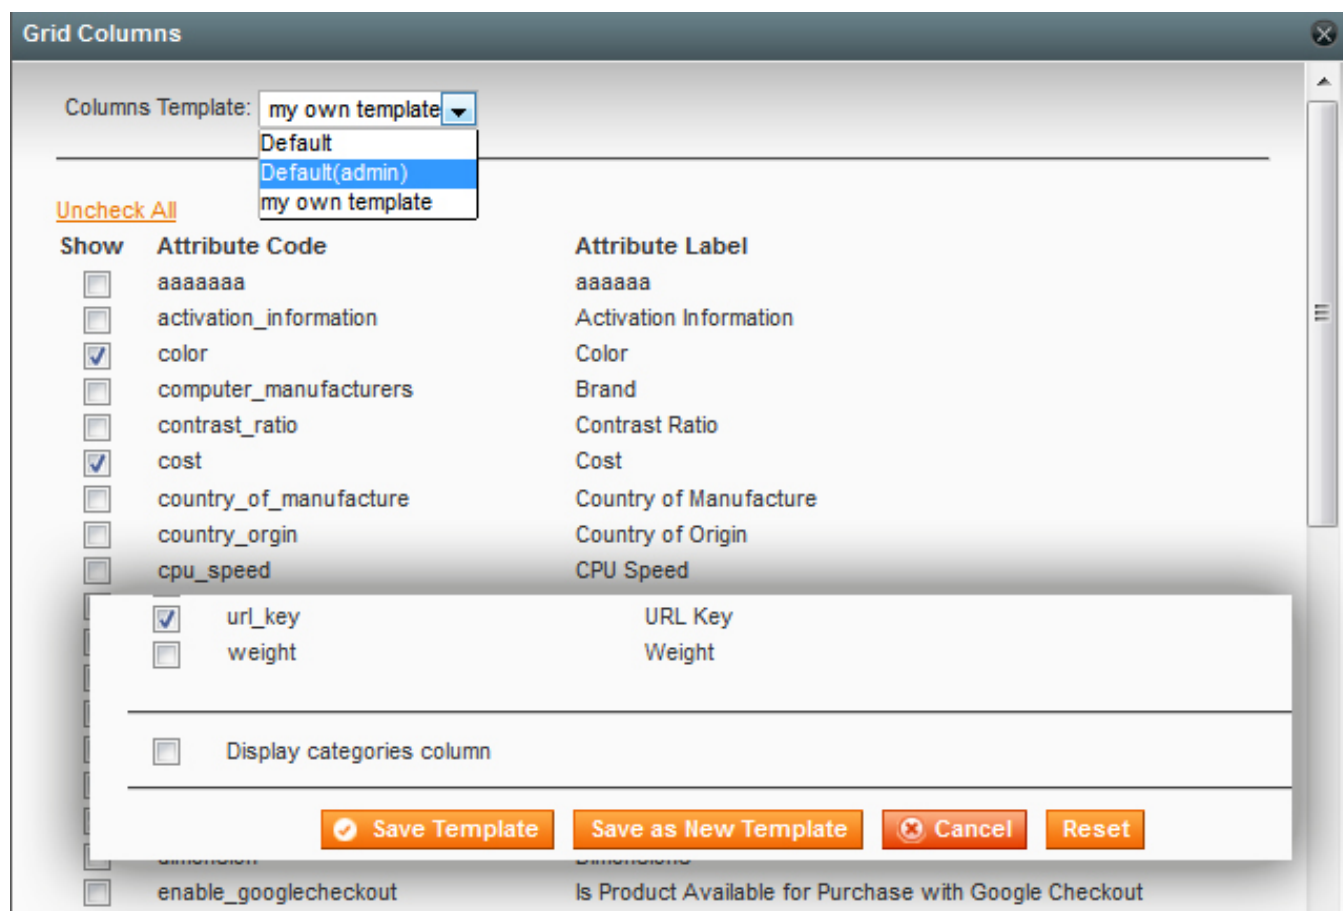

- Ability to add HTML notes and comments for each rate

Edit Method 'Worldwide Shipping'

Extended Product Grid 4.10.0

- Added JS validation based on attribute class

- Possibility to create column templates for fast switch between column sets

Payment Restrictions 1.0.8

- Option to restrict payments by day of week or/and time of the day. For example, restrict night orders.

Order Attributes 3.1.9

- New element type implemented: radio buttons

Customer Attributes 5.4.1

- Customer attributes for guests can now be used in e-mail templates

Handy Sales Tabs 1.1.0

- Rewrites are replaced by events;
- ACL fix

Unique Product URL 1.1.0

- Breadcrumbs configuration for redirected URL

Mass Product Actions 1.5.0

- New action – replace text in attributes

It is rather hard sometimes to replace some text in a large amount of products or to changed the word in all places of the long description. With ‘Replace Text’ action you can easily change text in different product attributes such as name, product description etc.

Manage Products [Add Product](#)

<input type="checkbox"/>	164	Gaming Computer	\$4,99				Main Website	Edit
<input type="checkbox"/>	163	Computer			Search	Enabled	Main Website	Edit

Insert current attribute text and the text that should be replaced. You should enter the text in the following format: old attribute text->new attribute text

[HTML Sitemap 1.0.6](#)

- Now, if we include landing pages, we use URL suffix setting from the catalog

Minor improvements

[Geoip Redirect 1.0.2](#)

- User agent (browser) detection improved

[Errors Log 2.0.6](#)

- Skip lines with empty error descriptions

[Custom Stock Status 3.7.6](#)

- Better compatibility with RWD theme

Color Swatches Pro 3.11.1

- Minor improvements for color picker and layout

Quick View 1.0.2

- Minor compatibility improvement

Auto Add Promo Items 2.0.7

- Add compatibility with `Gift Card by Amasty` module

Full Page Cache 1.4.3

- Improvements for navigation on category pages
- Minor improvements

Product Labels 3.0.10

- Better compatibility with Custom Stock Status extension

Generate And Import Coupons 1.1.0

- Compatibility with Magento 1.9.1
- Compatibility with Multiple Coupons module – option to pass several coupon codes in URL

Admin Actions Log 1.4.1

- Minor fixes and improvements
- Check the updated [magento admin user](#) extension.

Promo Banners 1.1.3

- Fixed from/to date selection for some Magento versions
- Better support for AJAX-reloaded content

How to get the updates?

You can easily download the updated extensions [in your account](#).

If you have any questions regarding module updates, please submit a [ticket here](#), and we'll quickly help you out.
