

Amasty Extensions Updates – December 2017

[Alexandra Zhos](#) Dec 27, 2017

We are happy to introduce you all the updates that we've made in December. This month, we have updated quite a lot of Amasty extensions. Some of them, for example, [Color Swatches Pro for Magento 2](#), have received several new exciting features!

Read on to see the details.

Magento 1

[Google Invisible reCaptcha 1.1.1](#)

- Now it's possible to add Captcha to several forms (2+) on one page.
- The ability to select a position for the Captcha badge was made.
- Three forms were added to the default configuration: a newsletter subscription form, a product reviews form and a customer registration form.

- The issue with a unique tag of the attribute ID on the page was fixed.

Product Parts Finder 2.4.0

- New: the XLS/XLSX import was introduced.
- The caching of the finder block was disabled.
- Code style refactoring was made.
- Minor fixes and improvements were made.

Search Pro 1.5.2

- Now it's possible to resize the image thumbnail in the quick search results pop up.
- Compatibility with Hide Price and Call For Price extensions was made.
- The issue with product images in the popup was fixed.

Landing Pages 1.11.0

- NEW: the symbol '/' was allowed in the URL structure.

| | |
|------------------------|----------------------------------|
| | with Landing Pages add-on |
| example.com/nike | example.com/nike |
| example.com/nike-men | → example.com/nike/men |
| example.com/nike-women | → example.com/nike/women |
| example.com/nike-kids | → example.com/nike/kids |

- Compatibility with the SeoShortUr was introduced.
