

# Amasty Extensions Updates – January 2018

[Alina Bragina](#) Jan 31, 2018

The main winter holidays finished and we have promptly set to work. This January, we have updated quite a lot of Amasty extensions and added several new features. For example, now you can upload different tooltips per store with [Improved Layered Navigation for Magento 2](#). Show a product price and hide the ‘Add to Cart’ button with the [Magento 2 Hide Price](#) extension. We made [Custom Order Number](#) compatible with [Multi Warehouse Inventory](#) and added a new cross-linking functionality to [Magento 2 SEO Toolkit](#).

Read on to see the host of other things.

## Magento 2

### [Magento 2 Improved Layered Navigation 2.5.0](#)

- **NEW:** now it’s possible to upload different tooltips per store. Also, we

added price filter compatibility with the 3rd-party elastic search module.

- A list of minor improvements and fixes were made including CSS 2 LESS refactoring.

### **Magento 2 Hide Price 1.0.6**

- **NEW:** now it's possible to show the price and hide the 'Add to cart' button.
- Compatibility with the Amasty Quick View extension was added.
- The fancy box library was upgraded.

### **Magento 2 Free Gift 1.3.0**

- **NEW:** now gift products can be added to the cart not only for free but also with a discount ( fixed or percent) or for a fixed price.
- Also, we changed the price display inside the popup: now it's possible to see the old and the discounted prices together.
- A number of minor fixes were made.

### **Magento 2 Extended Order Grid 1.2.3**

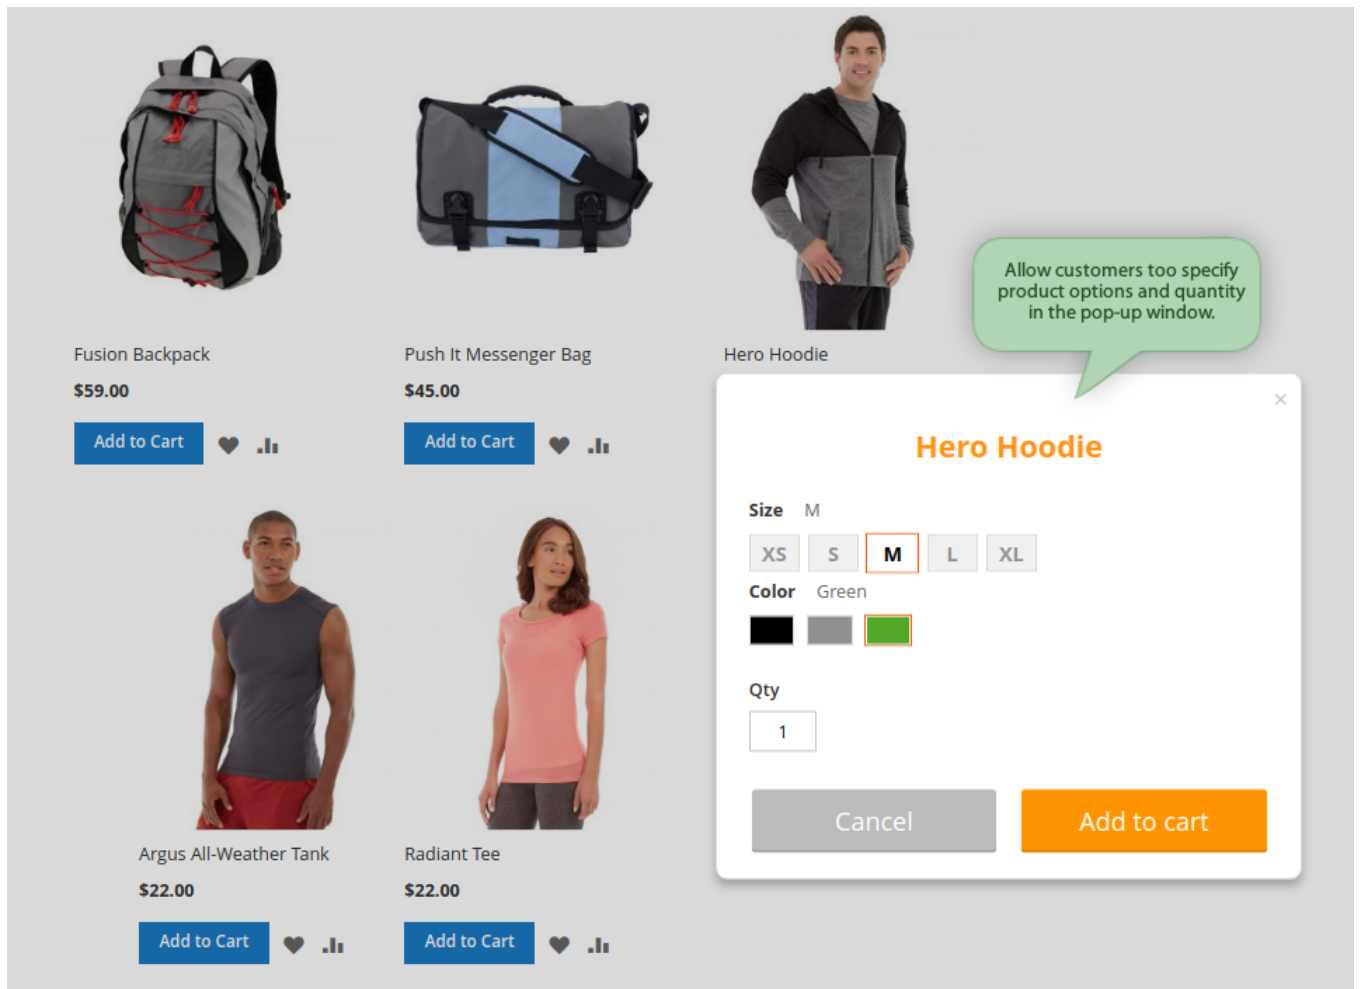

- Compatibility with the Amasty Efficient Order Export and Amasty Order Notes extensions were added.
- A list of minor improvements and fixes were made.

### **Magento 2 Meta Tags Templates 1.1.0**

- New {meta\_parent\_category} variable was added.
- The [ ] condition was made to work like an if condition, meaning in case the variable is empty then the text will not be printed.

### **Magento 2 AJAX Shopping Cart 1.4.0**

- New popup design was added.

- Now the product Qty added to the cart can be displayed on the product listing page.

### [Magento 2 SEO Toolkit 1.3.2](#)

- **NEW:** a new cross-linking functionality was added. It allows replacing the extended keywords with internal and external links to increase the store SEO value.

Generate internal and external links to spread link juice.
