

Amasty Extensions Updates: March 2014

[Vera Rabkina](#) Mar 26, 2014

The first month of spring brought to us plenty of great updates, abound with new features, which make [Amasty extensions](#) even better. Like snowdrops after a long winter, they popped up to improve your Magento stores and bring more happiness and joy from using them for both customers and owners. Amasty Team is happy to share with you a review of March updates of Magento extensions.

By the way, this month was pretty fruitful not only for updates, but also for Amasty new Magento extensions. In March our Company released 3 new extensions tailored to the needs of any prosperous Magento store or a store that is only starting its way to success. To be more specific, we have introduced [RMA extension](#) for processing return requests, [Google Rich Snippets](#) for a more detailed display in search results, and [SMTP Email Settings](#) for better email marketing management. But let's get back to our updates.

Check out Magento extensions infographic and find the **links** to the extensions **below**.

Amasty Extensions Updates: March 2014
