

# Amasty extensions updates – March 2016

[Ksenia Dobрева](#) Apr 1, 2016

Please meet the updates and new features we've recently released for Amasty extensions.

## [Magento 2 Filter Products By Attribute](#)

- Price slider display option for numeric attributes

Use slider display mode for various numeric attributes like price, weight, memory size, megabyte, etc. to make store usage more convenient for the customers. Besides, the sliders take a lot less space in the navigation block, so the navigation will be more compact.
