

Amasty extensions updates – March 2017

[Alexandra Zhos](#) Mar 30, 2017

As usually, we are glad to introduce you our March updates.

By popular demand, we made some must-have options for admin users and customers on Improved Layered Navigation, Multiple coupons, Sales Reps and Dealers and other Magento 1 modules. As for Magento 2 plugins, pay attention to Improved Layered Navigation (yes, we can't stop updating our star-module), Order Attributes and Color Swatches. Also, we worked hard this month on compatibility improvement between plugins.

Magento 1

[Improved Layered Navigation 3.1.1](#)

- Attributes mapping was added. This feature allows grouping attributes in one and simplifies filtering for customers. For example, you can group color values like 'ivory', 'royal blue' and 'blue' in one

'blue' attribute, so that customers will filter by 'blue' and see products with these 3 values.

Filter Properties

- General
- Options
- Mapping**

[Add Grouped Option](#)

| Value ID | Title | URL alias | Child Options | Delete | Edit |
|----------|------------|-----------|---|------------------------|----------------------|
| 279 | Blue | | Ivory x Royal Blue x Blue x | Delete | Edit |
| 280 | Black/Grey | | Grey x Silver x Charcoal x All Black Products x | Delete | Edit |

[Help Us Keep Magento Healthy - Report All Bugs](#)

Interface Locale:

Magento ver. 1.9.0.1

- A compatibility with Amasty Shop by Brand extension was added.
- Minor fixes and improvements were made.

[Multiple Coupons 1.4.0](#)

- A new feature was added: choose coupon codes that can be used together.

The screenshot shows the 'Multiple Coupons' configuration page in the Magento Admin interface. On the left, there is a sidebar with 'Current Configuration Scope: Default Config' and a navigation menu for 'AMASTY EXTENSIONS' with 'Multiple Coupons' selected. The main content area is titled 'Multiple Coupons' and contains several configuration fields:

- Unique codes:** An empty text input field with a '[STORE VIEW]' link and a tooltip: '▲ If some other codes from the list is applied, all other coupons will be removed'.
- Allowed Codes:** A text input field containing '111, 222, 5ABCD, BIG2' with a '[STORE VIEW]' link and a tooltip: '▲ Coupons indicated in this field can be used with any other coupons.' This field is highlighted with a red border.
- Allow several coupons from the same rule:** A dropdown menu set to 'No' with a '[STORE VIEW]' link.
- Maximum number of coupons for order:** A text input field containing '0' with a '[STORE VIEW]' link and a tooltip: '▲ 0 - no limit'.

At the top right of the configuration area is a 'Save Config' button. At the bottom of the page, there is a footer with a link 'Help Us Keep Magento Healthy - Report All Bugs', 'Interface Locale: English (United States) / English', and 'Magento ver. 1'.

- Some issues with coupon codes and shipping estimates were fixed.

Sales Reps And Dealers 1.4.12

- A possibility for a customer to select a dealer on the checkout page was made. The option can be enabled or disabled.

YOUR DEALER INFO

- A few minor improvements were made.

[Product Parts Finder 2.2.13](#)

- A new option was implemented: if only one product is found after filtering, a user is redirected directly to a product page. You can enable, disable or control this option with admin settings.

[Advanced Permissions 1.1.7](#)

- Some improvements were made for orders restriction by category or product.
- Restricted scopes were removed from the store switcher on the reports page.

[XML Google® Sitemap 1.1.10](#)

- Dots (.) were removed from URLs without a suffix (for example, .html).

Color Swatches Pro 3.14.0

- A possibility to update SKU when you change some options on the product page was added.

Auto Add Promo Items 2 2.4.1

- Some settings' fields were renamed for a clear understanding of the rules. I.e. the setting “Discount Amount” was renamed to “Number of gift items”.

Magento 2

Magento 2 Improved Layered Navigation 1.14.7

- Now the module allows limiting the price slider range for UI experience improvement.
- An ability to add rel=”nofollow” attribute to the filter links was added to reduce search bots burden.
- The brand filter was removed from the brand page for SEO improvement.

Magento 2 Order Attributes 2.0.0

- A new ability to create dependent attributes was made: display certain attributes only when a particular value of other attribute was selected.
- A compatibility with the Amasty Customer Attributes and Amasty Order Grid extensions was fixed.
- An improvement for email templates was made.

Magento 2 Color Swatches 1.1.2

- Compatibility with One Step Checkout extension was improved.
- An improvement for reloading block of attributes was made.

Minor updates and improvements

How to get the updates?

You can easily download the updated extensions [in your account](#). If you have any questions regarding module updates, please submit a [ticket here](#), and we'll quickly help you out.
