

# Amasty extensions updates – May 2017

[Alexandra Zhos](#) Jun 12, 2017

Hi there! This article is especially tempting for Amasty extensions' lovers: as you know, we've made [updates lifetime free!](#) Look through the changes below and feel free to download the latest versions of your extensions right now.

## Magento 1

### [Out Of Stock Notifications 1.6.0](#)

- Ability for guest visitors to unsubscribe from all notifications was added.
- A list of subscriptions can be exported into a CSV file now.
- Ability to disable subscription for particular customer groups was added.

### [Color Swatches Pro 3.15.5](#)

- A setting to enable/disable a lightbox and a zoom was added.
- Custom options compatibility fixes were made.
- Minor issues were fixed.

### **Efficient Order Export 2.8.7**

- Now the extension allows exporting orders with a particular SKU.
- Reindexing was improved.
- Minor bugfixes were made.

### **Product Feed 3.4.6**

- Now you can set zero in 'Price Decimals' field.
- Now if there is no data for an attribute, "Before" and "After" values are ignored in CSV.
- Some minor issues were fixed.

### **HTML Sitemap 1.0.10**

- Now the module allows controlling the robots meta option for the Sitemap page.
- The interface of the 'Configuration' page on the admin panel was improved.
- All module inscriptions, phrases and other pieces of text (e.g. titles, notifications, etc.) were added to CSV file. You can use it as a template for a fast translation.

### **Delivery Date 1.4.2**

- Ability to show/hide fields based on selected countries was added.
- Ability to save "Include into" and "Display on" fields without selecting any options was added.

### **Loyalty Program 1.11.3**

- A notification feature was added for the rules grid: now you'll be informed if a product (SKU) has “Out of stock” status or/and Qty=0. It also notifies you when a rule is created or edited.

### **Errors Log 2.0.12**

- Ability to select a sender of a notification email was implemented.

### **XML Google® Sitemap 1.2.0**

- A setting to output all product images in the sitemap was added.

### **Custom Forms 1.1.5**

- Now the extension allows controlling form's focus. You can enable or disable this option.

### **Special Promotions Pro 1.11.0**

- A new condition “Subtotal Without Special Price” was added.

### **Abandoned Cart Emails 1.13.0**

- Schedule editing and coupon behavior were fixed.
- Code readability improvements were implemented.
- Minor display issues were fixed.

### **One Step Checkout 3.1.2**

- Compatibility with Amasty Order Attributes extension was added.
- A few issues with payment methods were fixed.
- Other minor issues were fixed.

### **Special Promotions 1.11.6**

- Banners logic was simplified.

### **Auto Add Promo Items 2 2.4.3**

- Banners logic was simplified.
- Minor fixes were added.

### **Ajax Scroll 1.0.14**

- Better compatibility with mobile devices was added.

## **Magento 2**

### **Magento 2 Improved Sorting 2.0.0**

- New indexing algorithm was added according to Magento devdocs guides.
- Ability to set custom names for the sorting methods was implemented.
- The sorting method by ‘Reviews Count’ was revised.
- Performance and security enhancements were made.
- Backend interface changes and improvements were made. Now all sorting options are in one place:

---

**Most viewed**Label Most Viewed Period (days) 

Leave empty for life-time statistics.

Custom Most Viewed Attribute 

Use to artificially move some products up in the real most viewed list. Leave empty to show real data.

---

**Biggest Saving**Label Use Percentage for Biggest Saving Sorting 

---

**Now in Wishlists**Label Added to wishlist Period (days) 

Leave empty for life-time statistics.

---

**Top Rated**Label 

---

**Reviews Count**Label 

## **Magento 2 Multi Select Layered Navigation**

- Ability to configure an ‘All Brands’ link position in the top menu was added.
- Top filters were added to the search page.
- Several issues with filtering were fixed.
- A number of other fixes were added.

## **Magento 2 Product Feed 1.2.0**

- A new option was added: now you can control whether the shortest or longest category path will be used in the output URL.
- ‘Product Enabled’ and ‘Stock Availability’ conditions are now available by default.
- A number of minor fixes were added.

## **Magento 2 Customer Attributes 2.1.0**

- New ability was added: now you can use `customer.getData('attribute_name')` variable in order-related emails.
- Minor bug fixes & stability improvements were added.

## **Magento 2 GeoIP Redirect 1.0.4**

- A number of issues and errors regarding redirection were fixed.

## **Magento 2 Order Attributes 2.1.5**

- A unique index for the 'Order ID' field was made for better extension performance.
