

Amasty extensions updates – October 2015

[Ksenia Dobрева](#) Oct 31, 2015

Marching to October updates! Here's what we've done to make our Magento extensions better.

Please find information about SUPEE-6788 updates [here](#).

[Improved Layered Navigation 2.9.0](#)

- Ability to show featured options first for long lists of options (useful for top brands, etc)

Display Properties	
Show in the Block	Sidebar
Display Type	Images Only
Show Search Box	No
Number of unfolded options	0
	<small>▲ Applicable for 'Labels Only', 'Images only' and 'Labels and Images' display types. Zero means all options are unfolded</small>
Sort Options By	Position
When folded, display featured options first	Yes
Hide quantities	No
Collapsed	No
	<small>▲ Will be collapsed until customer select any filter option</small>
Tooltip	

- Not Yet Rated option for rating filter

RATING FILTER

- ★★★★★ & up (1)
- ★★★★☆ & up (2)
- Not Yet Rated (9)**

SLEEVE LENGTH

STAR RATING FILTER

Enable customers to easily sort products by star ratings.

200Cm

PARK AVENUE PLEAT FRONT TROUSERS \$245.00

ELIZABETH KNIT TOP \$210.00

- Ability to exclude some attributes from URL and move them to the GET part of the query

Search Engines Optimization

Robots NoFollow Tag No

Robots NoIndex Tag No

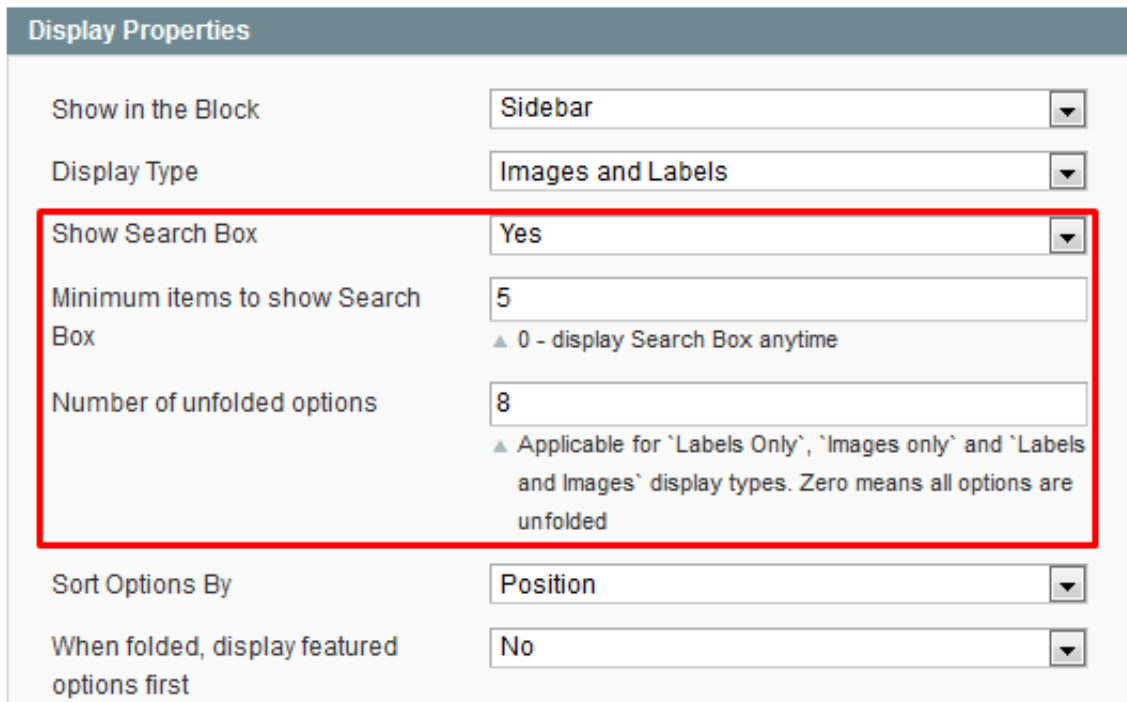

Rel NoFollow No

▲ For the links in the left navigation

Keep as GET parameter in URL Yes

▲ SEO URL mode will not affect this filter if set "Yes"

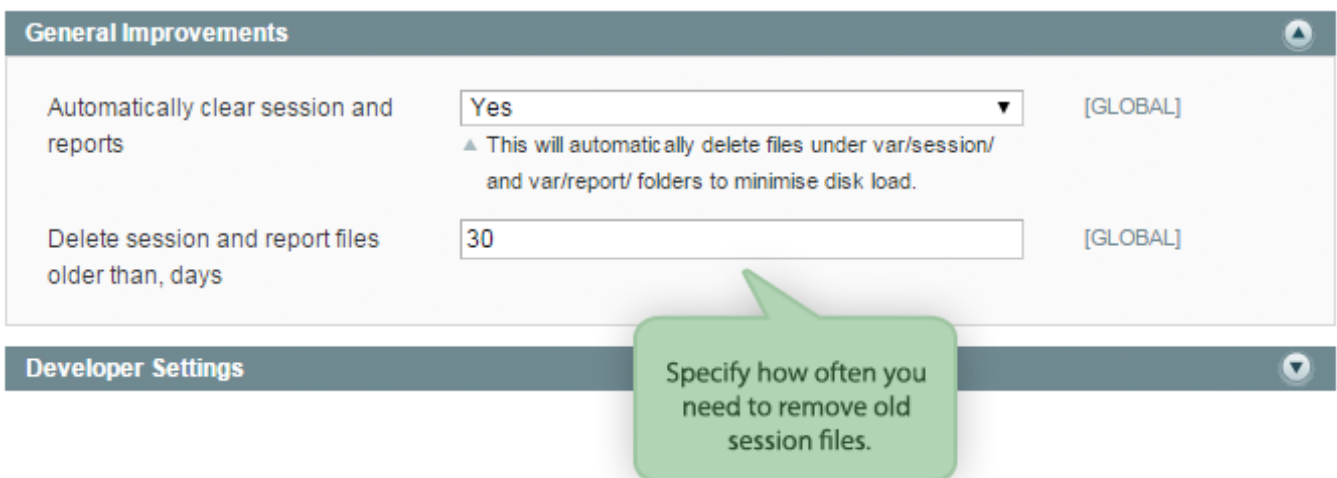

- Option to show search box when the list length is greater of some value

Display Properties	
Show in the Block	Sidebar
Display Type	Images and Labels
Show Search Box	Yes
Minimum items to show Search Box	5 ▲ 0 - display Search Box anytime
Number of unfolded options	8 ▲ Applicable for `Labels Only`, `Images only` and `Labels and Images` display types. Zero means all options are unfolded
Sort Options By	Position
When folded, display featured options first	No

Full Page Cache 1.5.0

- Cleanup old session files and report files. If left unchecked, Magento session files can grow out of control and have a negative impact on your store performance. Now you can automatically delete outdated session and report files using FPC extension. Additionally, you can determine how often (in days) you need to remove old session files.

General Improvements	
Automatically clear session and reports	Yes [GLOBAL] ▲ This will automatically delete files under var/session/ and var/report/ folders to minimise disk load.
Delete session and report files older than, days	30 [GLOBAL]

Specify how often you need to remove old session files.

- Enable debug mode via GET parameters. In case on your website IP detection is not working properly you can enable/disable debug mode on the store page via GET parameters.
- Possibility to view and clear the list of pages to index

Sales Reps and Dealers 1.4.2

- Ability to assign customers to a dealer via mass action on the Customers Grid
- The Dealer column added to the Customer Grid
- Default Dealer – all new orders will be assigned to this dealer except if a specific customer is already assigned to another dealer
- Ability to use `{{var dealer}}` variable in the order emails
- Ability to select website for Login as Customer feature, if `Share Customer Accounts` is Global
- Dealer column added to the Customers Grid (`Manage Customers` tab) on the `Edit User` page (Backend)
- Dealer name added to the `Personal Information` fieldset (`Customer View` tab) on the Edit Customer page (Backend)
- Ability to change dealer for customer on the `Account Information` tab of the Edit Customer page (Backend)
- Allow customers to select a dealer in the customer account (optional)
- Settings reorganization

Pre Order 1.3.3

- Support for related blocks on a product view page
- Speed improvement for customer account pages
- Improvements for multi store setup when order created from the backend
- Advanced: regexp for elements can now be changed via backend settings

Theme Integration Parameters		
Cart Button	<code>@(<button[^]*btn-cart.*?<span[^]*>)[^<]+(</spa</code>	[STORE VIEW] ▲ (left static) replacing text (right static)
Product List Cart Button	<code>@<button[^]*btn-cart[^]*>/product/(\\d+).*?</button</code>	▲ left part (product id) right part
Cart Product Name	<code>@<h2[^]*class="product-name".*?</h2>@s</code>	▲ Note will be added right after match

Regex for elements can now be changed via backend settings

Extended Product Grid with Editor 4.12.3

- Now allows to save columns order per template, not only per user
- New visual style for dropdown elements on the grid, with search by value feature

Free Gift 2.2.4

- Downloadable products support
- Show “Banners tab” for ‘Auto add with products’ and ‘Auto Add the same product’ actions only

Shipping & Payment By Customer Groups 1.1.2

- For customer with no customer group info the same logic as for the group NOT_LOGGED_IN is applied

Delivery Date 1.2.6

- Possibility to specify time offset relative to the current time for the same day delivery

Ajax Shopping Cart 2.3.6

- New visual options tab to customize the window look

Visual Options		
Background Color	<input type="text" value="DBDBDB"/>	[STORE VIEW]
Header Background Color	<input type="text" value="BFBFBF"/>	[STORE VIEW]
Button Text Color	<input type="text" value="FFFFFF"/>	[STORE VIEW]
Text Color	<input type="text" value="707070"/>	[STORE VIEW]
Left Button Color	<input type="text" value="7FC7EB"/>	[STORE VIEW]
Right Button Color	<input type="text" value="9A9A9A"/>	[STORE VIEW]

Configure confirmation window visual style in accordance with your Magento theme

- Wishlist and Add to Compare now work with AJAX

Product Feed 3.2.7

- New mass actions: duplicate and generate feeds
- Fetch products by categories including all subcategories
- Create a new feed choosing appropriate product field

Edit Feed `Shopping.com`

Options

<input type="text" value="shipping rate"/>	<input type="text"/>	Text		<input type="text"/>	As Is	<input type="text"/>	No	<input type="button" value="✕"/>

[Gift Card 1.1.1](#)

- Ability to apply gift cards to backend orders
- Setting “Product Types, Which Can Be Bought With Gift Card” was added
- Ability to create a gift card from backend is added

[Auto Shipping 1.1.2](#)

- Option to auto select the cheapest or the most expensive shipping method

[GeoIP Redirect 1.0.4](#)

- Setting to restrict redirects by IP address. Sometimes you may need to redirect your visitors to another website, but still to allow certain

users to access your webstore as it is. For example, some of your staff works remotely. In this case it is necessary to give the admin users a permission to access your webshop from their IPs.

Order Attributes 3.2.2

- Separate control of permissions for editing attributes within an order

Improved Sorting 1.3.3

- Ability to set default sorting for the search results page and for the advanced search results page

Customers Also Viewed 1.1.5

- Two new settings: `Query Limit` and `Period` in days to find matching products
- Exclude products added into Related products from the Upsells block

Order Flags 3.2.0

- Separate permission rule to allow assigning flags on the order grid

RMA 1.3.3

- Option to include extra fields (like bank account) in the RMA request

Order Memos and Attachments 2.4.4

- New mass action “Edit order notes and files”

Store Credit 1.1.3

- Ability to use store credits when creating orders form backend panel

Payment Method	
<input type="checkbox"/>	Use Store Credit (\$650.00 available) No Payment Information Required

- Ability to refund the order to customer balance

Subtotal	\$390.00
Refund Shipping	<input type="text" value="24.48"/>
Adjustment Refund	<input type="text" value="0"/>
Adjustment Fee	<input type="text" value="0"/>
Tax	\$32.66
Grand Total	\$447.14

Append Comments

Email Copy of Credit Memo

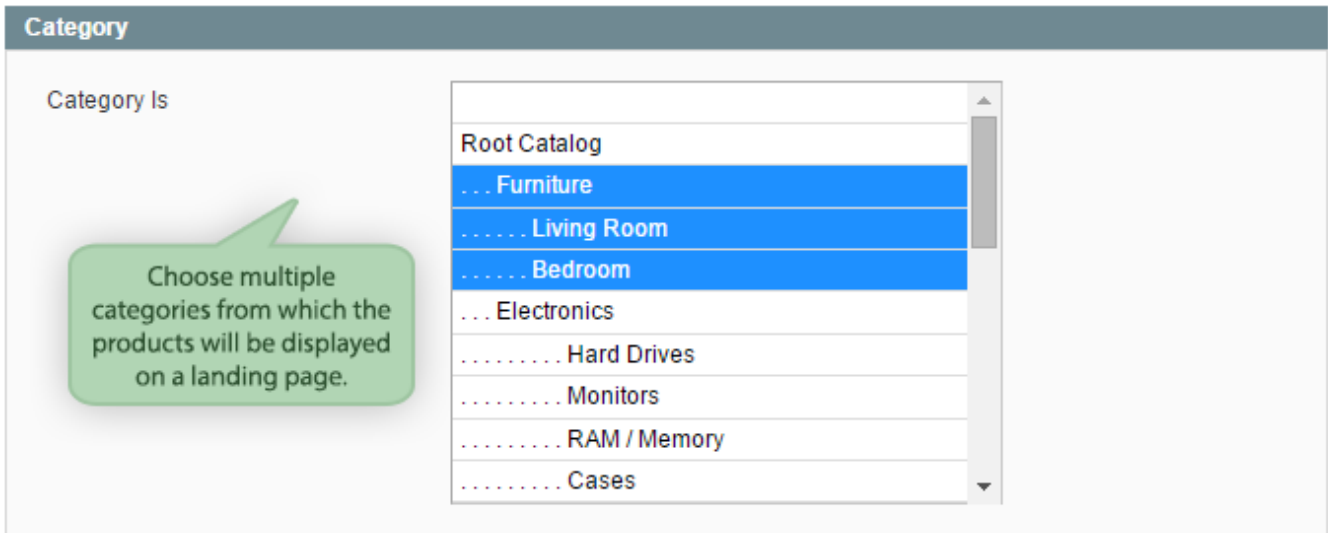

Refund to Store Credit

[Special Promotions Pro 1.7.2](#) + [Loyalty Program 1.7.2](#)

- Option to skip items with special price. Since such items are already discounted to the minimum, it is reasonable to make discount rules skip such items not to lose money.

[Landing Pages 1.8.0](#)

- Option to select multiple categories for a landing page. Now you can choose multiple categories from which the products will be displayed on a particular landing page

- Option to see and open the landing page final URL right from the admin grid

URL SITE	example.html	Disabled	Main Website Main Store English French German
Silver Cameras	silver-cameras	Enabled	Main Website Main Store English French German
new	new	Enabled	Main Website

Use quick links to frontend to check out landing pages right from the admin grid.

Product Parts Finder 2.2.1

- Auto load next drop-down if the current one has just a single value

WOMEN MEN ACCESSORIES HOME & DECOR SALE VIP

Price Color Occasion Shoe size

If the current drop-down has just a single value then next one will be loaded automatically.

[XML Google Sitemap 1.0.10](#)

- No disabled pages in the sitemap
