

# Amasty Extensions Updates – October 2017

[Alexandra Zhos](#) Oct 31, 2017

We are happy to present you all the updates that we've made in October. This month we've created a lot of new options and settings for various Magento 1 and Magento 2 extensions. Check the list below and see how your plugins were updated!

## Magento 1

### [Auto Add Promo Items 2.6.0](#)

- New attributes were added: the 'Stock Qty' and the 'Product Weight' can be used as product conditions now.
- Compatibility with Amasty Special Promotions and One Step Checkout extensions was improved.
- The tax\VAT calculation was improved.
- A number of minor fixes were made.

## **Follow Up Email 1.8.0**

- A new setting was made – ‘Birthday Offset’. Now it’s possible to send greeting emails before the actual birthday date.
- A new feature was added: a coupon expiration date can be added into the email now.
- The cross-selling products display in emails was improved.
- Minor display fixes were made.

## **Special Promotions Pro 1.13.0**

- A new condition was added – Items Subselection. Now you can create promotions based on products that were ordered previously.
- New attributes were added: the ‘Stock Qty’ and the ‘Product Weight’ can be used as product conditions now.
- Minor fixes were made.

## **Loyalty Program 1.13.0**

- A new condition was added – Items Subselection. Now you can create promotions based on products that were ordered previously.
