- Google Analytics parameters can now be applied to the banner links

The screenshot displays the Amasty Promotions configuration page. The top navigation bar includes: Dashboard, Sales, Catalog, Mobile, Customers, Promotions (highlighted), Newsletter, CMS, Reports, System, and a help icon with the text "Get help for this page".

On the left, a sidebar titled "Banners" contains a menu with the following items: General, Banner Content (with a save icon), Cart Conditions, and Google Analytics (with a save icon).

The main content area is titled "Google Analytics" and contains the following configuration fields:

- Campaign Source:** Input field contains "google".
▲ Required. Use `utm_source` to identify a search engine, newsletter name, or other source.
Example: utm_source=google
- Campaign Medium:** Input field contains "cpc".
▲ Required. Use `utm_medium` to identify a medium such as email or cost-per-click.
Example: utm_medium=cpc
- Campaign Term:** Input field contains "computer+parts".
▲ Used for paid search. Use `utm_term` to note the keywords for this ad.
Example: utm_term=running+shoes
- Campaign Content:** Input field contains "logolink".
▲ Used for A/B testing and content-targeted ads. Use `utm_content` to differentiate ads or links that point to the same URL.
Example: utm_content=logolink or utm_content=textlink
- Campaign Name:** Input field contains "september_sale".
▲ Used for keyword analysis. Use `utm_campaign` to identify a specific product promotion or strategic campaign.
Example: utm_campaign=spring_sale

A green callout box at the bottom right of the configuration area contains the text: "Use Google Analytics to get statistics and track the efficiency of your promo campaign."
