

Amasty Extensions Updates – September 2017

[Alexandra Zhos](#) Oct 3, 2017

We are happy to announce all changes that we've made for the last month.

As you know, [Magento 2.2 has been released at the end of September](#). As official Magento partners, we had the ability to start preparations earlier so that now most of our 70+ Magento 2 extensions are compatible with the new platform release. Some of them you can find in the list below. Anyway, we still work on our products to ensure that everything performs right.

For those who use Magento 1, there are also a bunch of new features for several extensions, so we sure, you'll enjoy them.

Magento 1

[Order Status 1.4.0](#)

- A new feature was made: now you can hide order statuses on the frontend.

Sales **System** [Get help for this page](#)

Current Configuration Scope: Default Config

Configuration

AMASTY EXTENSIONS

Order Status

Order Status [Save Config](#)

General Settings

Hide order state on the Frontend [STORE VIEW]
▲ If set to 'No', custom order status will be shown as 'State: Custom Status'

Hide order state [STORE VIEW]
▲ If set to 'No', custom order status will be shown as 'State: Custom Status'

If it is needed, you can hide the order statuses from the customers.
