

# Magento 2 Color Swatches Pro – new Amasty extension

[Pavel Ponomarenko](#) Dec 5, 2016

We are happy to present you our new Magento 2 extension – [Color Swatches Pro](#).

**Provide customers with the most fulfilling shopping experience possible. Enrich the Magento 2 Color Swatches functionality with a bunch of new features.**

# NEW MAGENTO 2 EXTENSIONS

## COLOR SWATCHES PRO

Useful for: **PRODUCT PAGE IMPROVEMENTS**

Features:

- Display price of simple products
- Change product image on mouse hover
- AJAX product info reload for better perception
- Group related colors and show more items in search results
- Let customers share URLs with selected product configurations

*Flexible Magento 2 functionality now includes a possibility to use color swatches. Amasty has significantly improved the functionality with features that help customers be more engaged. When it comes to selecting options, customers want it handy and visual. An enhanced interface offered by the new extension will bring their shopping experience to a higher level.*

## MAGENTO 2 COLOR SWATCHES PRO MAIN FEATURES:

- **Improve your UX** by changing product image on mouseover and get rid of unnecessary clicking on swatches;
- **Show relevant simple product information** on the cart and checkout pages: color, size, price, Qty, product image;
- **Use smart page reload** to refresh information like a product image, price, description, SKU once a customer selects a new option;
- **Apply the drop-downs to show prices:** the actual simple product price or the price difference RED +15\$, BROWN +20\$, etc.;
- **Show simple products prices below the swatches** to make

them obvious for customers;

- **Integrate the module with our [Out of Stock Notifications](#)** to allow customers to learn when the needed product is back to stock.

## ADVANCED FEATURES

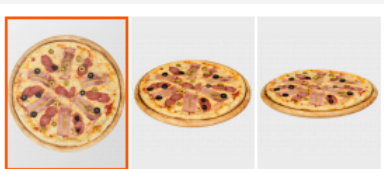

Use it together with our [One Step Checkout](#) to show the predefined product options on the checkout and cart pages;

Gather related colors in one group and let them find the desired product faster. *E.g.: combine sky blue, azure, light blue, indigo colors into one group;*

Let clients share a URL link to products with preselected options;

Regulate the number of swatches displayed under the main product image on category pages. *E.g.: customers will see More Colors Available if the number of visible swatches is limited;*
