

Magento 2 Cross Linking – new Amasty extension

[Alina Bragina](#) Jan 9, 2018

We are happy to present you our new Magento 2 extension – [Cross Linking](#).

Drive more traffic to your website with the Magento 2 Cross Linking extension. Instantly spread link juice and make the process automatic to attain higher ranking and better customers' experience.

NEW MAGENTO 2 EXTENSIONS

CROSS LINKING

Useful for: SEO

Features:

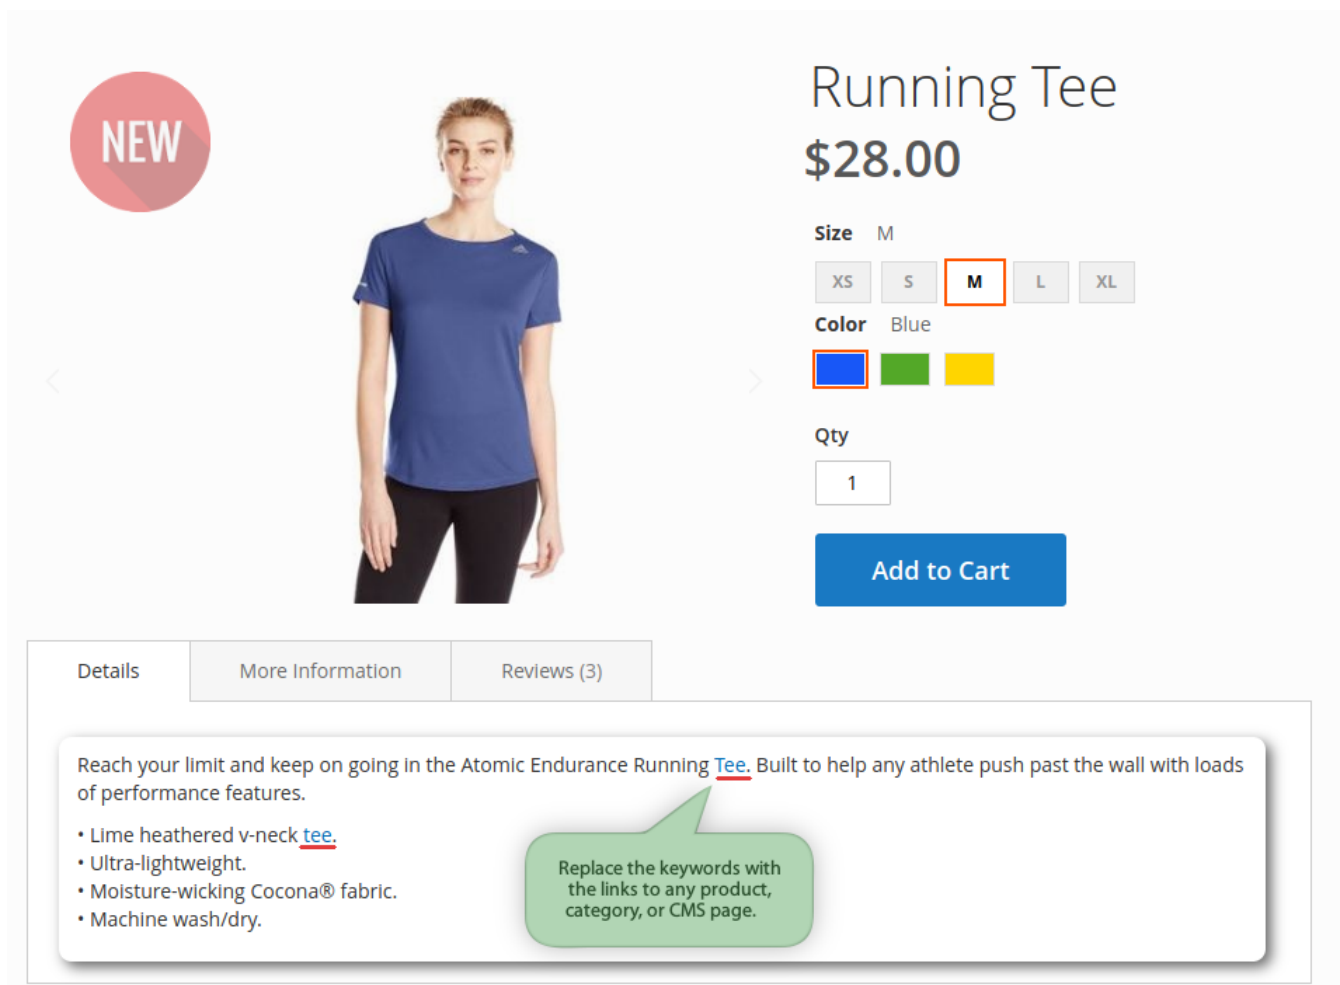

- Build internal and external links
- Link to any product, category, or CMS page
- Automatically generate links on any webstore page
- Replace keywords with links
- Limit the number of links per page

In case you run an online store with a large inventory, the new module will help you instantly use cross linking options on the frontend. You will manage to add new link rules on the backend and supply them with desired specifications to meet all the Google requirements. Making the process automatic you will forget about the times you spent days and nights on setting each of the links manually.

MAGENTO 2 CROSS LINKING FEATURES:

- **Make keywords clickable** on the frontend by adding relevant links to product, category or CMS pages;
- **Use flexible keywords with variables** to generate links automatically for all the compound words. Point out the “title” and “target” attributes;
- **Work with the Cross Link Management grid** to keep and control all the link settings in one place. Adjust the cross linking default settings to your needs, e.g.: limit the number of links per page to fit in with Google requirements;

- **Add as many new link rules as you need.** Specify the store view, title, target, priority, replacement limit and other showings;
- **Build links to different categories,** define a reference resource to direct customers to a needed category;
- Use the **quick search by product SKU, ID or name** to easily add a cross link to a needed product;
- **Create external links to custom URLs.**

The screenshot shows a product page for a 'Running Tee' priced at \$28.00. A 'NEW' badge is visible in the top left. The product image shows a woman wearing a blue t-shirt. To the right of the image, there are options for Size (XS, S, M, L, XL) and Color (Blue, Green, Yellow). The quantity is set to 1, and there is an 'Add to Cart' button. Below the product image, there are tabs for 'Details', 'More Information', and 'Reviews (3)'. The 'Details' tab is active, showing a description: 'Reach your limit and keep on going in the Atomic Endurance Running [Tee](#). Built to help any athlete push past the wall with loads of performance features.' Below the description is a list of features: 'Lime heathered v-neck [tee](#)', 'Ultra-lightweight', 'Moisture-wicking Cocona® fabric.', and 'Machine wash/dry.' A green callout box points to the underlined word 'tee' in the description, containing the text: 'Replace the keywords with the links to any product, category, or CMS page.'
