

# Magento 2 Custom Stock Status – new Amasty extension

[Ksenia Dobрева](#) Nov 16, 2015

Please meet the new Magento 2 extension from Amasty – [Custom Stock Status](#).

**Use Custom Stock Statuses to provide precise information about the stock availability of particular products. Easily attract customers' attention with catchy statuses to make them buy more.**

# NEW MAGENTO 2 EXTENSIONS

## CUSTOM STOCK STATUS

Useful for: **PRODUCT INFO**

Features:

- Create multiple custom stock statuses
- Add statuses to products automatically or manually
- Show out of stock options of configurable items
- Upload special icons for stock statuses
- Display quantity based stock statuses

*Extend Magento 2 default stock status functionality with the Custom Stock Status extension. Create a limitless number of custom stock statuses to assign them to products manually or automatically. Timely inform your customers once the product is in stock. Boost store sales rates.*

## MAGENTO 2 CUSTOM STOCK STATUS FEATURES:

- Create and display an **unlimited number of custom stock statuses** to tell your customer anything you want about your current stock info;
- **Display custom stock statuses** on:
  - product pages, including simple options of configurables, including out of stock options;
  - categories and search pages;
  - the shopping cart page;
- **Use variables**, such as: date, quantity;
- **Mass edit custom stock statuses** using 'Update Attributes' option;
- **Quantity based** custom stock statuses: Use rules to display statuses

depending on how many items are left in stock. For example, you can use 'Running soon' status for 100 items left for popular products and the same for less than 20 items of products that can't boast of high demand. Create a sense of urgency to influence shopping decisions;

- **Replace statuses** of configurable products with the statuses of the selected simple options;
- **Upload icons** to display with your custom stock statuses.

## ADVANCED OPTIONS

Use HTML tags for your custom stock statuses;

Add 'on hover' text for you statuses for some detailed explanation;

Make use of backorders support.

The screenshot shows a product page for 'Cassius Sparring Tank'. The navigation bar includes 'What's New', 'Women', 'Men', 'Gear', 'Training', and 'Sale'. The breadcrumb trail is 'Home > Men > Tops > Cassius Sparring Tank'. A male model is shown wearing a blue tank top. The product title is 'Cassius Sparring Tank'. Below the title, it says 'Be the first to review this product'. The price is '\$15.00' with a crossed-out price of 'was \$18.00'. The stock status is 'IN STOCK' with SKU# MT12. The size selection dropdown is open, showing options: 'Choose an Option...', 'XS', 'S', 'M (Coming soon)', 'L', and 'XL'. The quantity is set to 1. A green callout box points to the 'M (Coming soon)' option with the text: 'Custom stock statuses for simple options of configurable products.' An 'Add to Cart' button is visible at the bottom.
