

# Magento Edit Lock – new Amasty extension

[Ksenia Dobрева](#) Dec 15, 2015

Please meet the new tool for your Magento store – [Edit Lock](#) extension.

**Lock your backend tabs and pages to prevent them from being edited by multiple admin users simultaneously in order not to lose important store data. Effectively manage the work of admin users and increase their productivity.**

## Why do you need this extension?

If your store is managed by several employees, you probably faced the issue of editing the same page by two or more people simultaneously. When several people are editing the same page, the changed data could be easily lost as each manager saves his own version. To prevent data and time loss and to eliminate coordination efforts, we created a tool for locking pages when they are edited.

# NEW AMASTY EXTENSIONS

## EDIT LOCK

### USEFUL FOR: ADMINISTRATION

#### FEATURES:

- LOCK CERTAIN BACKEND PAGES FOR SPECIFIC ADMIN USERS
- CLEARLY SHOW WHICH TABS AND PAGES ARE BEING EDITED
- SPECIFY CUSTOM TIME FOR LOCK DURATION
- ENABLE ADMIN USERS TO OPEN AND VIEW LOCKED PAGES

## Main features

### Lock certain pages from editing

When you're editing a page, lock it down so no one can edit and save it while you're working. Other users will be able to see the page and to navigate through tabs, but they won't be able to edit and save.

The following pages are available for locking:

- Products
- Customers
- Product Attributes
- Shopping cart price rules
- CMS pages
- CMS blocks

### See who's editing right now

See which pages are being edited right now. The extension also shows admin user names who are editing the pages.
