

New Magento 2 extensions: Extended Order Grid, Blog Pro, and more

[Polina Rodionova](#) Oct 25, 2016

NEW AMASTY EXTENSIONS

Amasty team is proud to announce the release of the four new extensions. These modules can help you to stay in touch with your blog readers, keep customers satisfied with perfect quality service and much more. [Click this link](#) to see all the Magento 2 extensions available at our store.

[Extended Order Grid for Magento 2](#)

NEW MAGENTO 2 EXTENSIONS

EXTENDED ORDER GRID

USEFUL FOR: ORDER MANAGEMENT

FEATURES:

- Filter orders by weight, subtotal, discount amount
- Search for orders by customer group, phone or email
- Show product thumbnails on the order grid
- Shipping and payment methods and other info

Get only relevant order information with the newest Extended Order Grid module for M2. You can easily fine-tune displayed product data or hide orders with specified statuses. Super easy navigation, simple order search process – all that makes Extended Order Grid a comfortable way of improving your order management functionality.

[Blog Pro for Magento 2](#)

NEW MAGENTO 2 EXTENSIONS

BLOG PRO

USEFUL FOR: CONTENT MARKETING

FEATURES:

- Use responsive layout design
- Customize blog posts display
- Manage comments effectively
- Allow users to share your content in social networks

Increase your content marketing efficiency using Blog Pro for Magento 2, and establish much stronger connection with the readers. How? By making your blog more user-friendly and allowing visitors to share content on social media. Arrange blocks for better convenience according to your everyday needs, and set up both desktop and mobile layouts. Also, don't forget about SEO – specify meta data and other settings to make your blog more search-friendly.

[Shipping & Payment By Customer Groups for Magento 2](#)

NEW MAGENTO 2 EXTENSIONS

SHIPPING & PAYMENT BY CUSTOMER GROUPS

USEFUL FOR: SHIPPING MANAGEMENT

FEATURES:

- Manage access to payment and shipping methods by groups
- Customers see only the methods assigned to their group
- Ability to provide privileges to certain customer groups
- Shipping quotes only based on available methods

This module helps you with managing a large number of different customer groups: now it is possible either to deny or to allow methods for the selected customer groups. Increase customer loyalty by giving better payment and shipping options to devoted customers and wholesalers. A simple and elegant solution for shipping and payment methods management!

[RMA for Magento 2](#)

NEW MAGENTO 2 EXTENSIONS

RMA

USEFUL FOR: ORDER MANAGEMENT

FEATURES:

- Enable RMA for all types of products
- Create unique statuses
- Allow guest RMA requests
- Set up RMA notifications

Everybody knows that good quality service keeps the customers satisfied, but when it comes to managing product returns and exchange, there is often a lot of confusion. But not anymore, because we have released RMA for Magento 2, which can help you take control over all aspects of RMA process. Intuitive interface and advanced admin options, such as avoiding duplicate requests, create communication between a customer and a merchant and lead to a better shopping experience.
