[Ksenia Dobрева](#) Apr 28, 2016

Please meet the new Amasty extension for Magento 2 – [Extended Product Grid with Editor](#).

Enrich standard product grid functionality with a bunch of new handy options. Add any specific column you need and easily modify product information right on the grid. Create grid templates with custom column sets to make product data processing as quick as possible.

EXTENDED PRODUCT GRID WITH EDITOR

Useful for:

PRODUCT MANAGEMENT

Features:

- Expand your grid with additional product attributes
- Edit product data right on the grid with AJAX
- Create custom product grid templates
- Filter products by categories
- Automatically change product availability based on quantity

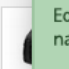

As many other Amasty tools, this Magento 2 extension was designed to simplify and optimize your work. This module extends Magento 2 product [grid functionality](#) by showing you the information you want and letting you edit the products right from the grid.

MAGENTO 2 EXTENDED PRODUCT GRID WITH EDITOR FEATURES:

- Make use of **grid view templates**;
- **Hide default columns** if you don't need them right now;
- Enjoy the new columns showing **when the product was created and modified** the last time;
- See **related products, cross-sells and upsells** on the product grid;
- **Enable categories column** and **sort** products by category, plus you can easily see products that aren't assigned to any category. You can also apply the [Magento 2 filter by category](#) functionality;
- **See and edit the majority of product attributes** right from the

grid, **one by one or in bulk**. **Data validation** will save you from typical mistakes such as leaving the fields empty or entering the wrong type of data (say, letters instead of numbers). Plus, the extension lets you conveniently **edit product quantity**;

- **Quick frontend links** are useful to see the changes on frontend fast and easy.
