# NEW MAGENTO 2 EXTENSIONS

## EXTRA FEE

Useful for: **CHECKOUT**

### Features:

- Create an unlimited number of extra fees
- Display fees on cart and checkout pages
- Generate extra fees based on payment and shipping methods
- Determine fees display with flexible conditions
- Use percent and fixed price fee types

*With the Extra Fee extension, you'll manage to offer more services for extra fees in your Magento 2 store. Display the list of all the additional services and relevant fees before a customer completes the purchase. Widen your service list, stand out against competitors and boost sales.*

## MAGENTO 2 EXTRA FEE FEATURES:

- Create a **limitless number of extra fees**;
- Insert fee blocks to **cart and checkout pages**;
- Apply **flexible conditions to extra fees display**. Generate payment fees based on numerous conditions and their combinations. Apply cart/product attributes to tune fees display. E.g.: charge certain taxes for definite products based on SKU condition;
- Select the **base for fees calculation**. Include/exclude shipping amount, discounts, taxes. Apply the feature to all fees by default or set custom calculation parameters for a definite rule;
- Choose the **extra fees price type**. Decide on either a fixed price or a percent fee type. E.g.: a flat amount tax like \$20 as well as a definite percent from the cart subtotal or an automatically calculated percent

for each fee option;

- Make use of three (3) **input types for fee options**: dropdown, radio buttons, checkboxes;
- Adjust fee options for **different store views**. Choose store views and customer groups for which to display the extra services with fees. Customize the fee options. E.g.: translate the fee blocks descriptions and options into the language of each particular store view;
- Add extra fees to **purchases created in the Admin Panel**. This will help you meet customers' needs. Add extra services even after a customer's order has been applied and recalculate the final cost.
