NEW MAGENTO 2 EXTENSIONS

FREE GIFT

Useful for: **PROMOTION**

Features:

- 4 additional auto add promo actions
- Informative banners on product pages
- Add only in stock products as promo items
- Works with coupon codes
- 4 product types support

Default Magento 2 installation has certain promotion features, but they are not enough for running sophisticated campaigns. With the Free Gift module, you get numerous options of turning free gifts into an indispensable marketing tool! Give customers another reason to make a purchase at your store. Surprise them with a gift! Also, use promotions to control your stock and stimulate purchases for items you want to get rid of.

MAGENTO 2 FREE GIFT MAIN FEATURES:

Attract new customers and increase the number of spontaneous purchases with the handy features.

Banners and Labels

Use banners and labels to show promo items right on a product page. Thus, you'll let customers see which products they can get for free and give them a confidence boost.

- **Display descriptive banners on top of a product page;**

- **Put banners above the ‘Add to Cart’ button;**
- Show the **thumbnails of the free items;**
- **Add noticeable labels to product pages**, e.g.: ‘Buy 2 get 1 free!’, etc.;
- Use **custom texts instead of banners.**

Promo Actions and Conditions

Apply 4 additional promo actions to place free items on carts automatically coming from rule conditions.

Offer free promo product(-s) corresponding to rule conditions, e.g.: ‘Buy a backpack and get a jump rope for free’ or ‘Buy 2 t-shirts and get an umbrella for free’;

Generate a limitless number of promos based on products subselection, shopping cart attributes, conditions, product attributes combination;

Provide **free promo product(-s) for the whole cart;**

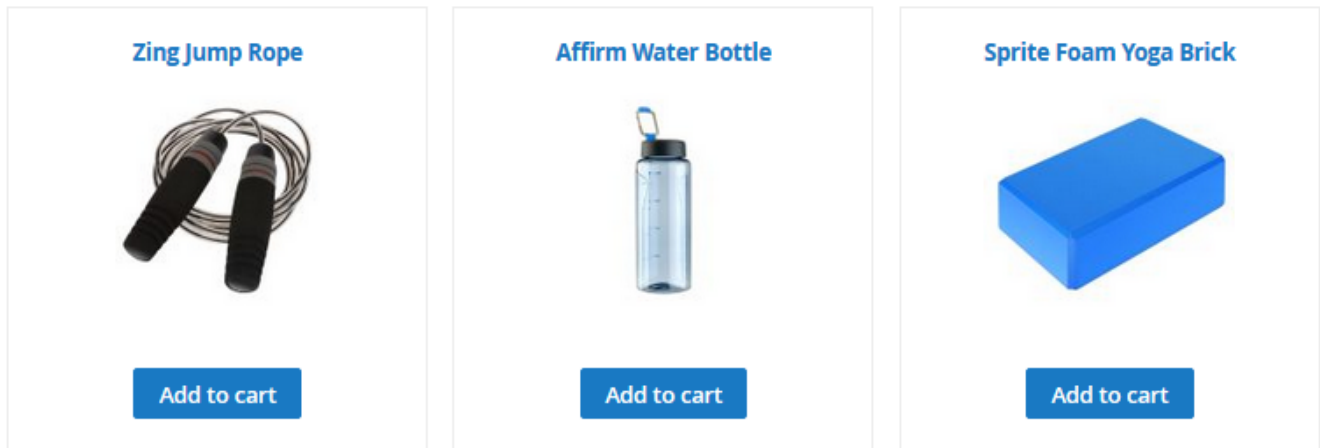

Place **free gifts to a cart when a specified sum of money is spent** by a customer;

Add **the same products that are added to a cart as free gifts** or create promotions like ‘Buy a foam roller, get one free’, ‘Buy 3 items, get 1 free’.

Upgrade User Experience

Offer customers tempting deals like several gift products within one campaign, automatically add free gifts to carts and let customers choose one of the promo products to increase their interest and boost sales.

Free Items

- Apply a handy popup to **show promo items on the shopping cart page** and let customers choose the gift they like more;
- **Remind customers about promo items** on the checkout page;
- **Use configurable products as gifts** and give buyers a possibility to specify the product options, e.g.: color, size, etc.;
- **Display gifts in the cart with a custom text label** to highlight the product is free.
