

# Hide Price for Magento 2 – New Amasty Extension

[Alina Bragina](#) Jul 14, 2017

We are keen to introduce you our new Magento 2 extension – [Hide Price](#).

**Apply the hide-price feature for a specific product or the whole category. Make product prices and the ‘Add to Cart’ button invisible for particular customer groups. Create unique button texts and messages while following a maximally flexible pricing policy.**

# NEW MAGENTO 2 EXTENSIONS

## HIDE PRICE

Useful for: **USER EXPERIENCE**

### Features:

- Hide prices on product and category pages
- Disable adding to cart, wishlist and comparison
- Replace 'Add to Cart' with a custom button
- Display prices to particular customer groups
- Redirect customers to any store page

*Sales growth and customer loyalty are dependent on pricing policy you follow. The Hide Price extension is all you need in case you want to manage well-tailored price display on product and category pages without any fuss. With the use of the customized approach, you'll encourage your visitors to disclose their contact info or perform the action you need.*

## **MAGENTO 2 HIDE PRICE FEATURES:**

- **Hide prices on specific product pages or categories** right from the backend
- Make **prices invisible for individual clients or customer groups**
- **Remove the 'Add to Cart' button**
- Create a **unique text instead of the 'Add to Cart' button**
- Run a **handy pop-up with 'get a quote' form rather than 'Add to Cart'**, which is to help you make up a rich customer database through contacting each visitor directly
- **Add a custom link to the button** to redirect your visitors to place

you need

- **Reduce an average email response time** with the new requests notifications sent to your admins
- **Have a way with your customers** through the effective 'Get a Quote' processing

## WHY TO HIDE THE PRICE?

- Use for real time price changes
- Provide discounts for particular customers
- Hide prices from competitors
- Gather customers' emails

### FEATURES:

- Hide a price and add a custom message
- Replace 'Add to Cart' with a custom button
- Disable 'Add to Wishlist' & 'Add to Compare'
- Redirect visitors to any store page
- Smart 'Get a Quote' form for customer requests
- Admin E-mail notification about the price queries
- Auto reply to customer messages
- Customer requests grid and a quick reply form
- Hide for any customer group, e.g. not-logged-in
- Hide for specific products/categories/store views
