

# Magento 2 Landing Pages – new Amasty extension

[Alina Bragina](#) Oct 7, 2016

We are happy to present you our new Magento 2 extension – [Landing Pages](#).

**Increase your conversion rates with the extension. Create unique Magento 2 landing pages according to your needs: show selected products, place texts and make the page SEO friendly fast and easy.**

# NEW MAGENTO 2 EXTENSIONS

## LANDING PAGES

Useful for: SEO

Features:

- Improve your store SEO with unique URLs and metadata
- Use flexible conditions to specify the list of products for each landing page
- Display custom CMS blocks at the top and in the bottom the page
- Add landing pages to the sitemap to improve their visibility for search engines
- Create as many landing pages as you need

*Use landing pages as universal instruments for bringing even more targeted traffic from search engines. Create landing pages for converting customers from Google, ads, social media, for special offers or new collections.*

## MAGENTO 2 LANDING PAGES MAIN FEATURES:

- **Create an unlimited number of customizable landing pages.** Have them conveniently stored and managed on the pages grid;
- **Make your landing pages SEO-friendly:** avoid duplicate content with the canonical URLs functionality, create unique URLs and metadata;
- **Include your landing pages in the sitemap** to improve their availability for search engines;
- **Create and show custom CMS blocks** at the top or in the bottom of the page, and use more features to customize the landing pages to your liking.

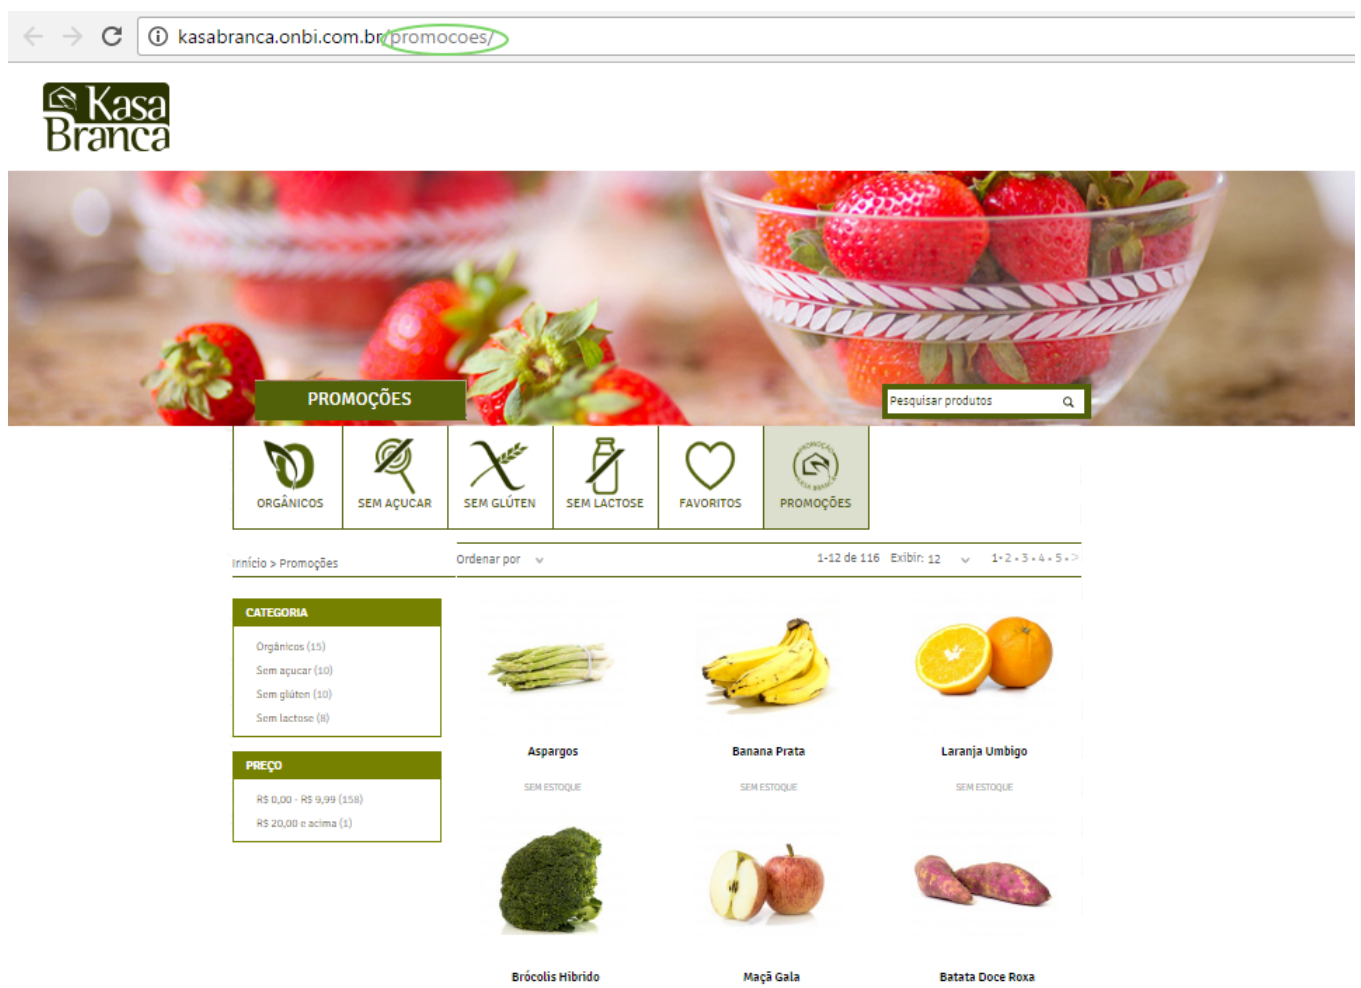

## ADVANCED ADMIN OPTIONS

Generate product subselections based product conditions: category, SKU, etc.;

Use the quick preview option on the Pages grid to make sure the landing page is configured correctly;

Adjust the highly customizable design to your needs to stand out in the market;

Export/import the landing pages in .csv file, which can be modified and imported back to the store.

Target visitors to the page you need:
