

New Magento 2 extensions: Landing Pages, Pre Order, and more

[Ksenia Dobreva](#) Oct 7, 2016

NEW AMASTY EXTENSIONS

Please meet the new Amasty extensions for Magento 2! We created four new tools which will make your Magento 2 store more convenient and effective. To see all the Magento 2 extensions available at our store, [click this link](#).

[Magento 2 Landing Pages](#)

NEW MAGENTO 2 EXTENSIONS

LANDING PAGES

USEFUL FOR: SEO

FEATURES:

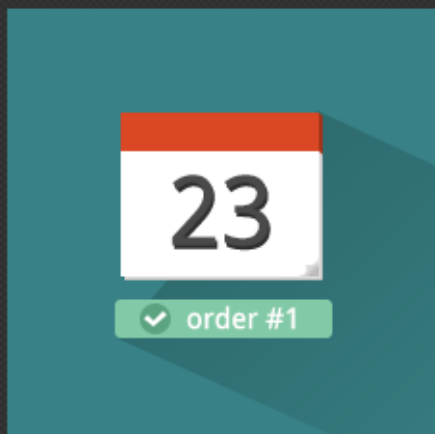

- Improve your store SEO with unique URLs and metadata
- Use flexible conditions to specify the list of products for each landing page
- Create as many landing pages as you need

Landing pages are universal instruments for bringing even more targeted traffic from search engines. Create landing pages for converting customers from Google, ads, social media, for special offers or new collections. This extension lets you create Magento 2 landing pages according to your needs: show selected products, place texts and make the page SEO friendly fast and easy.

[Magento 2 Pre Order](#)

NEW MAGENTO 2 EXTENSIONS

PRE ORDER

USEFUL FOR: ORDER MANAGEMENT

FEATURES:

- Allow shoppers to pre-order upcoming or out of stock items
- Get a powerful marketing research tool to analyze customers' demands
- Improve your store order management
- Create custom pre-order buttons and notes

This extension gives you full functionality for pre orders and backorders at your Magento store. Collect orders for out of stock items, check customer demand and avoid losing sales if you accidentally run out of stock for some products. A must have tool for better stock management is here!

[Magento 2 Duplicate Categories](#)

NEW MAGENTO 2 EXTENSIONS

DUPLICATE CATEGORIES

USEFUL FOR: CATALOG MANAGEMENT

FEATURES:

- Duplicate categories and subcategories fast
- Copy category assignments for products
- Modify content for duplicate categories
- Save hours on product management

It's a simple but very effective Magento 2 tool. Now you can duplicate Magento categories and subcategories with all the settings and product assignments with a few clicks. No need to manually create them again and again! This extension will literally save you hours of catalog management.
