

Magento 2 Mass Product Actions – new Amasty extension

[Ksenia Dobрева](#) Mar 28, 2016

Meet the new Magento extension – [Mass Product Actions](#).

Change prices in bulk using different parameters; work with attribute sets and categories; relate products and define Magento 2 cross-sell and up-sell parameters in a blink of an eye.

NEW MAGENTO 2 EXTENSIONS

MASS PRODUCT ACTIONS

Useful for: **STORE MANAGEMENT**

Features:

- Apply mass price modification and customize price rounding
- Easily copy and spread attributes, custom options and images
- Perform fast delete of multiple products
- Easily relate products and create up-sells and cross-sells
- Adjust product grid and display only the necessary actions

Tired of editing your products and spending hours opening, changing and saving them one by one? Your time is precious, and to help you use it effectively, we created a tool for convenient mass actions on your product grid.

MAGENTO 2 MASS PRODUCT ACTIONS FEATURES:

- **modify prices**, price types, special prices and price roundings in a few clicks;
- easily **mass edit product information**:
 - configure product relations such as cross-sells, upsells and related products;
 - copy custom options, attribute values, images and other product settings;
 - assign, replace or remove categories right from the grid;
- **enable only those mass actions you'll need** on your grid, choose product linking algorithms and use even more settings for convenient operations.
