

Meet Magento Belarus partners update

[Ksenia Dobreva](#) Sep 29, 2014

Meet Magento Belarus 2014 is on its way! Two weeks are left before the best Magento and e-commerce professionals from Eastern Europe will gather in one place.

A while ago we introduced the [event partners](#), but since that time the list has updated, and here are our hats off to the guys that decided to support the evolving Magento community. Plus, we highly recommend these companies if you need a trusted developer or decent products for your business needs.

[NEKLO](#) – SILVER SPONSOR

The logo for NEKLO, consisting of the word "NEKLO" in a bold, blue, sans-serif font.

NEKLO is a fast growing product engineering company focused on helping software companies create innovative products for the next generation. Headquartered in San Bruno with Offices in Minsk (Belarus), Krasnodar (Russia), Warsaw (Poland) and Kiev (Ukraine) NEKLO has proven expertise and a deep domain understanding of technology to deliver software engineering services such as software product development (web/non web), product migration, software testing and custom application development maintenance to enterprises spread across the globe.

NEKLO has wide-range of experience in developing portable, robust, scalable and secure applications based on Java, J2EE, .NET, PHP and related technologies.

ADVANCED LOGIC – SILVER SPONSOR

Advanced Logic is a Full-Service eCommerce Agency that delivers highly specialized consultancy services intended for companies that want to exploit the potential of the online channel to extend and expand their business.

The Agency has specialized its expertise in implementing multi-channel eCommerce solutions with Magento, the today's most popular and appreciated online selling system recently acquired by the eBay Group. Advanced Logic is a Magento Solution Partner with Magento Certified Developers.

Other than being a Magento Solution Partner, Advanced Logic has established numerous Partnerships with the most known vendors of extensions and responsive themes for the Platform and with other key industry players.

With some of its Partners Advanced Logic has close business relationships to manage common clients and projects at European and international level.

OPSWAY – BRONZE SPONSOR

OpsWay is the team of skilled professionals who provide a wide range of support & maintenance services to your web project.

OpsWay takes care of your website while you are running your business. The company's available 24

hours a day, 7 days a week, 365 days a year. The team is distributed across the globe to cover all the time zones so that the clients do not have to worry about the time differences.

The company's core expertise is built around the Magento platform and many other open source frameworks like Drupal, OpenCart etc. Such things as Cloud Hosting, AutoScaling, Performance optimization are matters of their daily routine.

PHPSTORM – BRONZE SPONSOR

JetBrains, the developer of PhpStorm, makes professional software development a more productive and enjoyable experience.

JetBrains helps developers work faster by automating common, repetitive tasks to enable them to stay focused on code design and the big picture. The company provides tools to explore and familiarize with code bases faster. JetBrains' products make it easy for you to take care of quality during all stages of development and spend less time on maintenance tasks.

In the meantime, make sure you've [subscribed to our newsletter](#), as there will be more posts on [Meet Magento Belarus 2014](#) soon.

See you on the event!
