Sep 21st was a very important day not only for Amasty team, but also for 130+ more Magento community members from Belarus, Russia, Ukraine, and other countries. We were so happy to gather even more people than last time, and for those who wasn’t with us at Meet Magento Belarus 2015, here’s a quick recap.

**Article summary** [hide]

Pictures

My #mm15by is over. Guests, location, atmosphere, Sneak Peek participation were fantastic. Thank you #amasty #mm15by & especially my team.

— Vlad Marin (@magemode) 11:12 PM - Sep 21, 2015

Videos

All Meet Magento Belarus presentations were video recorded. We need some time to process them and will upload them in a couple of weeks.

Special thanks

Saying big thanks to sponsors that contributed to this event!
**Webcom Media** is a leader of the Belarusian SEM market. Webcom Media provides complex search marketing services for business. The main areas of expertise are search engine marketing and PPC. More than 1500 companies experienced Webcom Media professional approach.

**Advanced Logic** is a company specialized in developing high quality multi-channel eCommerce solutions with Magento CE and EE. Other than being Magento Solution Partner with Magento Certified Developers,
Advanced Logic is proud to be one of most reputed Amasty Partners and, in this role, actively collaborates with them on, often very complex, customizations of its modules.

**PhpStorm** is a PHP IDE that actually ‘gets’ your code, supports PHP 5.3/5.4/5.5/5.6 and features on the fly error prevention, best autocompletion & code refactoring, zero configuration debugging, the best HTML, CSS, and JavaScript editor.

Give your customers – and yourself – peace of mind with this payment processing module that guarantees compliance with PCI security mandates, significantly reduces the risk of data breaches and ensures you won’t be hit with a fine of up to $500,000 for non-compliance. Use **X-Payments** with your X-Cart 4, X-Cart 5 or Magento shopping cart to safely and conveniently store your customers’ credit card information for processing of new orders, reorders and recurring payments.
