

Meet Magento Poland 2014 – see you there!

[Ksenia Dobрева](#) Sep 15, 2014

Magento community has now over 3000 active members and growing. November 24th to 25th are the days Meet Magento Poland 2014 takes place, and Amasty team is excited about this event, after all, Poland is our close neighbour!

Although the conference's agenda is still underway (and we're sure it will be impressive, as the 2012 and 2013 conferences' agenda was full of nice presentations from e-commerce specialists and Magento developers), Meet Magento Poland has already attracted a great deal of sponsors and partners, including PayPal, Atwix, and Inchoo. This year the event is organized by [Snowdog](#), a Magento Silver Solution Partner.

Amasty is proud to be a media partner of the event. To see more details about the conference, please visit [Meet Magento Poland 2014](#) official website. Also, you are welcome to subscribe to event [Facebook](#) page and [Twitter](#) stream not to miss any news.

What is more, we are happy to announce that **Amasty Chief Technology Officer Andrei Vashkevich** is speaking at the event. He will be talking on **steps to non-spam email in Magento**.

As always, we are happy to communicate, so if you'll be there, please come find Andrei and say hello, he's looking forward to talk all things Magento.

Meanwhile, you can entertain yourself watching videos from Meet Magento Poland 2013 – they are nicely collected in a playlist:

Kuba Zwoliński & Thomas Fleck - Keynote presentation

See you in Poland!
