CUSTOMERS**

Merge & Disable Customers

Amasty
steps to success

We are happy to present you our new Magento 1 extension – [Merge and Disable Customers](#).

Make your administrators' work easier by keeping customer order-related data in one place. Merge duplicated profiles together to store all the information in the main account. Clear out your Customer grid disabling unnecessary profiles without data losses.

NEW MAGENTO 1 EXTENSIONS

MERGE AND DISABLE CUSTOMERS

Useful for: **CUSTOMER MANAGEMENT**

Features:

- Merge multiple customer accounts
- Transfer orders and order-related data
- Accurately shift delivery addresses
- Transfer reviews, ratings and wishlists

It's not uncommon for users to create several accounts due to credentials loss or inattention. Thus, instead of having one profile for the client you have several duplicated more. This can cause confusion both for customer care and marketing specialists of your store. However, this extension has been developed to solve the problem.

MAGENTO 1 MERGE AND DISABLE CUSTOMERS MAIN FEATURES:

- **Merge customers profiles together in a couple of clicks:** tick the needed profiles on a customer grid, choose a corresponding action in the drop-down menu and select the main account;
- **Shift all the information** from the duplicate profiles **to the main account:** orders/ order-related data; delivery addresses; reviews, ratings, wishlists;
- **Deactivate irrelevant profiles automatically** to fend customers off from making purchases with it;
- **Disable any of profiles manually** to take customer profiles over

total control;

- **Show information about the main account in all the merged profiles** to simplify your admin's work;
- **Activate any of the disabled accounts** if needed.

The screenshot displays the Magento 1 Admin interface for a customer profile. The top navigation bar shows 'Sales' and 'Customers' tabs, with 'Customers' selected. A 'Get help for this page' link is visible in the top right. The left sidebar contains a 'Customer Information' section with a list of options: Customer View, Account Information, Addresses, Orders, Billing Agreements, Recurring Profiles (beta), Shopping Cart, and Wishlist. The main content area is titled 'Jane Doe' and includes a toolbar with buttons for Back, Reset, Create Order, Delete Customer, Save Customer, and Save and Continue Edit. Below the toolbar is the 'Account Information' section, which contains the following fields:

- Associate to Website *: Main Website
- Created From: Admin
- Group *: General
- Disable Automatic Group Change Based on VAT ID
- Prefix:
- First Name *: Jane
- Middle Name/Initial:
- Last Name *: Doe
- Suffix:
- Email *: janedoe@example.com
- Date Of Birth:
- Tax/VAT Number:
- Is active: No (dropdown menu is open, showing Yes and No options)
- Gender: No
- Main Account: John Doe johndoe@example.com

A green callout box points to the 'Is active' dropdown menu with the text: 'Enable/disable customer accounts manually. Show the main account for merged profiles.'

Below the 'Account Information' section is the 'Password Management' section, which is currently empty.
