

Magento 2 One Step Checkout – new Amasty extension

[Alexandra Zhos](#) Mar 6, 2017

A new Amasty extension is here! Please, meet [One Step Checkout for Magento 2](#).

Place all checkout steps on one page to speed up the whole shopping process and significantly enhance customer satisfaction. Help visitors to complete address fields with Google Suggestions and let them easily edit product options right on the checkout.

Thousands of e-commerce merchants all over the world suffer from conversion rate dropping on a checkout page. According to the statistics, about 20% of abandoned carts are caused by a complicated checkout process.

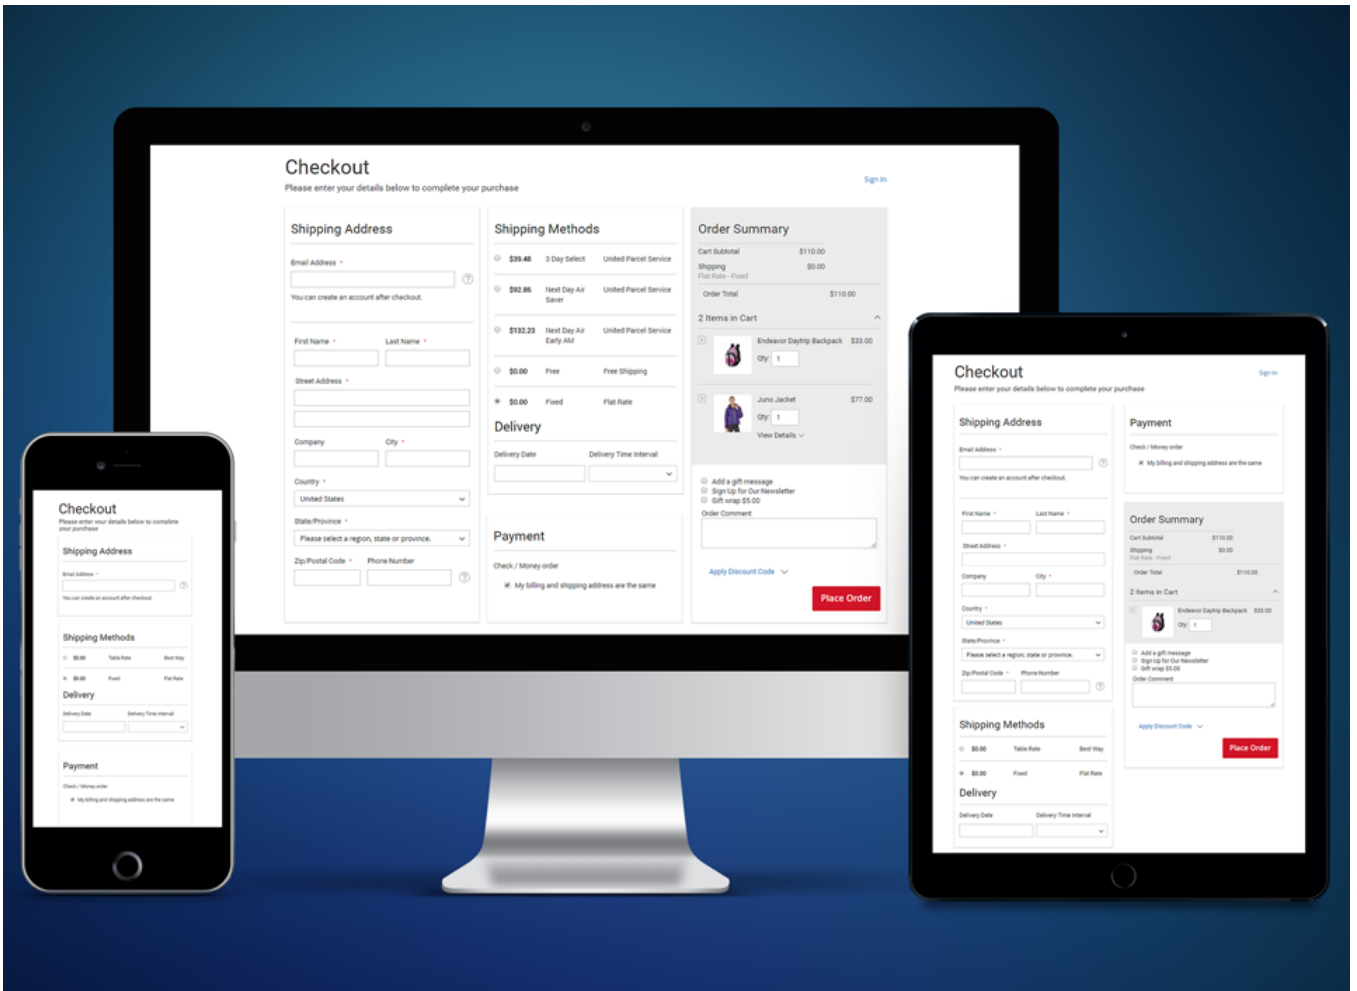

Nevertheless, you can easily raise conversion numbers by providing your customers with a complete and intelligible Magento 2 one-page checkout.

This extension is an extremely powerful tool for boosting your Magento 2 checkout. Lots of features are available for tweaking checkout to your needs!

MAIN MAGENTO 2 ONE STEP CHECKOUT FEATURES:

- **Customize checkout page** layout and design
- Display **delivery date and time** options
- Let your customers to **edit product options** on the checkout
- Use **automatic geolocation detection** and **Google Address suggestions**
- Enable **order comments** and **newsletter subscription**
- Display **gift wrap fee** and **gift message options** in the Order Summary block
- **Specify checkout fields** and set for them **default preselected values**

Are you using Magento 1 but don't want to lose those 20% of customers? Try out our [One Step Checkout](#) tool for your version.
