

# Magento 1 Order Approval – New Amasty Extension

[Alina Bragina](#) Jun 27, 2017

Cue the drumroll, please! Here is our new extension for Magento 1 – [Order Approval](#).

**ORDER APPROVAL FOR MAGENTO 1 IS PRESET TO DETECT DOUBTFUL ORDERS ALLOWING STORE ADMINS TO APPROVE/DISAPPROVE SUSPICIOUS ORDERS AND PROTECT THEIR BUSINESS. WITH THE ANTI-FRAUD SYSTEM YOUR WEB STORE WILL BE IMMUNE TO UTRUSTWORTHY PURCHASERS.**

## NEW MAGENTO EXTENSIONS

### ORDER APPROVAL

Useful for: **ORDER MANAGEMENT**

Features:

- Use flexible rules for suspicious orders detection
- Approve/disapprove orders in one click
- Show order approval message on the checkout
- Send email notifications to admins and customers

*Often more frequently than merchants would like, web stores come up with fraudulent attempts to place fake purchase orders for material benefit. Some of the key findings have demonstrated about 75% of companies were targets of payment fraud last year.*

*While 9 out of 10 finance professionals reckon on EMV cards, which are presupposed to alleviate the issue, the red-hot Magento 1 extension is designed to provide e-commerce with additional protection.*

## **MAIN MAGENTO 1 ORDER APPROVAL FEATURES:**

- Approve/disapprove orders **in one click**
- **Enhance** your web store **anti-fraud protection**
- **Notify admins and customers of suspicious orders** via email
- **Don't allow fraudsters** to pocket your profit
- Enable **additional verification process** for fishy-labeled orders
- **Examine 'suspicious customer's' data** and all the **products** added to the cart
- Define your customers' order status with **order approval message**

on the checkout

- Specify **flexible rules** applied to payment method, user's country, specific products, whole product category for **detecting suspicious orders**
