

Magento 2 Out of Stock Notification – new Amasty extension

[Ksenia Dobрева](#) Oct 27, 2015

We are happy to introduce you our new Magento 2 extension – [Out of Stock Notification](#).

Let customers subscribe to stock and price notifications to be timely informed about product changes. Keep track of all customer subscriptions to manage your stock accordingly and increase sales.

NEW MAGENTO 2 EXTENSIONS

OUT OF STOCK NOTIFICATION

Useful for: **CUSTOMERS' DATA**

Features:

- **Subscribe to stock notifications and price alerts**
- **Enable stock and price subscriptions for guest visitors**
- **Subscribe to out of stock options of configurable items**
- **Let customers easily manage their subscriptions**
- **Track all stock and price subscriptions in the admin panel**

Out of the box, Magento 2 offers price and stock notifications for registered customers, but these features are definitely not enough. That's why we extended the functionality and added new features useful for both merchants and shoppers. Giving more options for stock notifications makes shopping more convenient and drives sales. Seeing tendencies for stock subscriptions lets you analyze customers' demand and restock items people want to buy.

MAGENTO 2 OUT OF STOCK NOTIFICATION FEATURES:

- **Use the handy Alert Grid** to manage stock and price alerts and keep detailed information about all customers' subscriptions under control;
- **Check the 'Product Alerts' tab** on a relevant product page in the admin panel to stay informed about the number of subscriptions for price/ stock alerts of the product;
- Permit price/ stock subscriptions for a **particular customer group**: not logged in, general, wholesale and retailer;

- **Let customers manage** (add/ remove) their **subscriptions** on the account page;
- **Apply a one-time-notification option** to automatically unsubscribe customers once an alert is sent;
- Allow customers to **receive price/ stock alerts for different product types**: simple, configurable, grouped, bundle, virtual products;
- Enable notification **subscription for simple items of a bundle or configurable** product.
