

# Magento 2 Payment Restrictions – new Amasty extension

[Ksenia Dobрева](#) Mar 21, 2016

Please meet the new Amasty extension for Magento 2 – [Payment Restrictions](#).

**Effectively manage payments in your store. Restrict payment methods by shipping address, customer groups, store view or product attributes.**

# NEW MAGENTO 2 EXTENSIONS

## PAYMENT RESTRICTIONS

USEFUL FOR: PAYMENT MANAGEMENT

### FEATURES:

- Improve productivity of your payment process
- Use shipping info to restrict payment methods
- Create restrictions based on product info
- Disable certain methods based on customer data
- Multiply business opportunities and decrease risks

Organize your Magento 2 store payment options! The extension lets you create numerous rules and manage access to payment methods according to your preferences.

With Magento 2 Payment Restrictions you'll be able to:

- **give more options** to trusted clients or **restrict payment methods** for safety and convenience
- **avoid showing all the possible payment options** when it's not necessary. For example, turn off cash payment for foreign clients
- **fine tune your payment restriction rules** using product attributes, shipping parameters, day and time, customer groups and other option
