[Alina Bragina](#) Dec 6, 2016

We are happy to present you our new extension – [Pre Order for Magento 2](#).

Better your stock management with the Pre Order extension. Avail of full functionality for pre-orders and backorders at your Magento 2 store. Timely collect orders for out of stock items and check customer demand.

NEW MAGENTO 2 EXTENSIONS

PRE ORDER

Useful for: **ORDER MANAGEMENT**

Features:

- Allow to pre-order upcoming or out of stock items
- Efficiently analyze your customers' needs
- Improve your store order management
- Use pre order function for simple, configurable, grouped or bundle products
- Create custom pre-order buttons and notes

Use the extension to learn selling points of the desired product before stocking it up. Stop losing profits with sales even if a product has suddenly gone out of stock. Let your customers be first on the line when buying a long-awaited upcoming product. Analyze buyers' demand and advance their engagement.

MAGENTO 2 PRE ORDER MAIN FEATURES:

- Replace the 'Add to Cart' button to **allow customers to pre-order or backorder** the out of stock or upcoming products;
- Display **pre-order notes as a custom stock status**, e.g.: 'available in a month/day', etc. Show warning messages on product pages;
- Apply the **pre-order option for 4 product types**: simple, configurable, grouped, and bundle products. Let customers pre-order a certain item of a configurable product;
- Show the **pre-ordered products with the conforming notes** on the shopping cart page;
- Set Magento 2 to **monitor backorders** in customer accounts;
- **Edit text in 'Pre-order' cart buttons and notes in bulk** using

the mass actions.

ADVANCED ADMIN OPTIONS

Use a handy filter to find pre-orders on the order grid;

Mark pre-ordered products on the order info page;

Create custom text for pre-order/ backorder buttons;

Apply {sku} and {delivery_date} variables to make your notes informative.

The screenshot shows a Magento 2 product category page for 'Bags'. The navigation bar includes 'What's New', 'Women', 'Men', 'Gear', 'Training', and 'Sale'. The breadcrumb trail is 'Home > Gear > Bags'. The page title is 'Bags'. There are 'Shopping Options' and a grid view icon. The page shows 14 items. A 'Sort By' dropdown is set to 'Position'. Three products are displayed: 'Joust Duffle Bag' (\$34.00, 2 reviews), 'Overnight Duffle' (\$45.00, 3 reviews, available in a month), and 'Driven Backpack' (\$36.00, 2 reviews, available for pre-order). A green callout box points to the 'Overnight Duffle' product, stating: 'Replace 'Add to Cart' button with 'Pre Order' on the category page.' The 'Overnight Duffle' product has a 'Pre-order' button, a heart icon, and a share icon.
