PRODUCT ATTACHMENTS

Useful for:

PRODUCT PAGE IMPROVEMENT

Features:

- Upload files with drag and drop option
- Add an unlimited number of attachments
- Use various file types
- Keep track of file downloads
- Display nice-looking attachment icons

Very often merchants need to enhance their product pages with downloadable files, such as technical descriptions, certificates and licenses, user guides and manuals, etc. To help you do that for your Magento 2 store, we created a tool which adds file attachments to your product pages. Plus lots of convenient accompanying features are added!

MAGENTO 2 PRODUCT ATTACHMENTS FEATURES:

- Now you can **upload files of numerous file types** and display them on your product pages;
- **Convenient uploading and file management** is at your service: upload files from the product grid, manage their visibility, bulk upload or copy files, customize file names, sort files order, and more;
- Use a possibility to **mass import attachments with 'URL' type**;
- Use predefined **file icons** or upload your own ones to show the file type to your customers;
- Make use of **files download reports**: keep track of how your files

are downloaded by users.
