

Magento 2 Shipping Restrictions – new Amasty extension

[Ksenia Dobрева](#) May 4, 2016

Please meet the new extension for Magento 2 – [Shipping Restrictions](#) from Amasty.

Restrict shipping methods using various product, cart and customer parameters. Make your shipping process both legal and cost-effective.

NEW MAGENTO 2 EXTENSIONS

SHIPPING RESTRICTIONS

USEFUL FOR: SHIPPING

FEATURES:

- Block certain methods of the shipping carrier
- Create restrictions based on customer's shipping data
- Restrict shipping by various product attributes and order info
- Use customer groups and store views as a restriction base
- Disable or allow shipping with coupon

Almost every e-commerce store needs full control over shipping options because of local and international laws, business needs or financial reasons. We created a tool to fine-tune your shipping options according to any needs.

Magento 2 Shipping Restrictions features

- **Block certain shipping methods** of the carrier if you need to
- **Create any kind of rules** based on product attributes, customer's data, order information and lots of other parameters. Such flexibility ensures you'll get the desired result
- To avoid creating rules for each country, the extension lets you **create custom regions** for your convenience
- All the features needed to ensure **cost effectiveness and legal accuracy**. If shipping methods in combination with certain goods make you lose money or aren't possible because of the law or carrier/supplier restrictions, just block them instantly
- Other features, such as **showing error messages** and **dealing**

with backorders
