

# We invite developers to participate in Magento Contribution Day at Amasty!

[Alina Bragina](#) Nov 24, 2017

Hello there!

*Magento is famous for its community. It cannot be otherwise, and the free version is named Open Source for a reason. Not only the Magento development team invests massively in the platform, but also a global community of merchants, agencies, developers, system integrators and other people just interested in e-commerce future contributes to it. The fact that Magento is being maintained and developed by thousands of people around the world makes it unique in its kind.*

*Amasty is a Magento Premier Extensions Builder Partner and takes the lead in the market of extensions. We are proud to be an active member of the global platform community. Our team hosted two Meet Magento Belarus conferences in Minsk, and we regularly attend Magento conferences as participants, speakers, and sponsors.*

For this very reason, we're organizing Magento Contribution Day – a unique event for Magento 2 developers. Come to us on **December 13 – 14 to contribute to Magento 2 functionality and to work side by side with Magento 2 Core developers**, who are coming to Minsk, Belarus specifically for the purpose.

The event will be held at the Amasty office: Minsk, 104, Dzerzhinsky Ave, (Titan business center, block A, central tower), 19th floor. All the participants will be provided with a working area with Wi-Fi, coffee, tea, and snacks. The office is five minutes walk from Petrovshchina metro

station; free parking is available for visitors. Do not forget to take your laptop with you!

## Why go to the Magento Contribution Day?

- to communicate with colleagues – Magento 2 developers from Minsk, to share experience and gain new knowledge;
- to get acquainted with the Magento development team – the developers who work directly on the core of the platform;
- to get a unique collaboration experience of working over a solution used by a quarter of a million stores around the world;
- to have some fine time!

## How to get to the event?

We will be glad to see you on Magento Contribution Day! The only participation requirement is your experience and knowledge in Magento 2 development. This will allow you to make a personal input to the development of the platform core and make it better for e-commerce businesses and other Magento 2 developers as well.

To apply, please, [fill out the form](#), and we will contact you on Dec, 1st. Hurry! Seats are limited.
