

# Join the next #magestackday in January, 2016

[Ksenia Dobрева](#) Nov 23, 2015

Did you participate in the [MageStackDay last year](#)? Either way, you should do the next one!

## What is MageStackDay?

MageStackDay is an online hackathon dedicated to answering, closing and cleaning up questions on [magento.stackexchange.com](http://magento.stackexchange.com), especially regarding Magento 2. The goal of the event to get the answered questions rate up by at least a few percent. The long term goal is keeping the forum healthy and maintained.

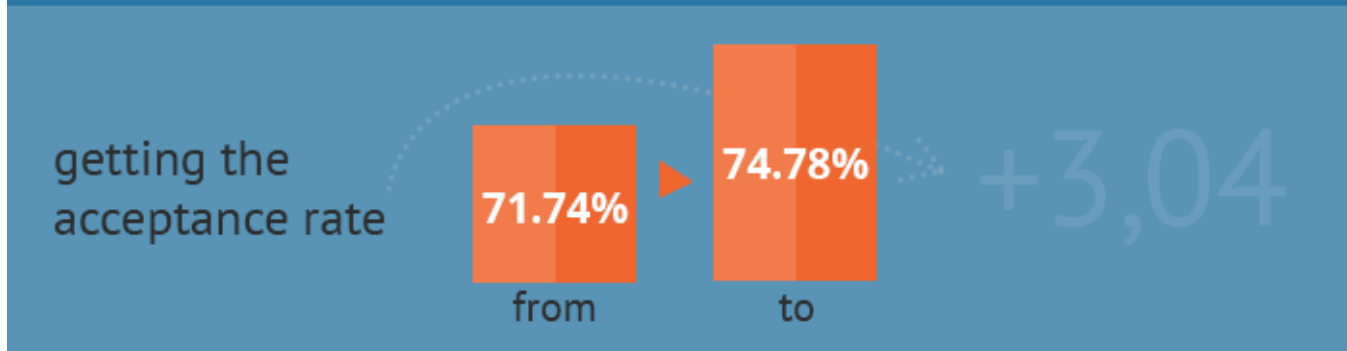

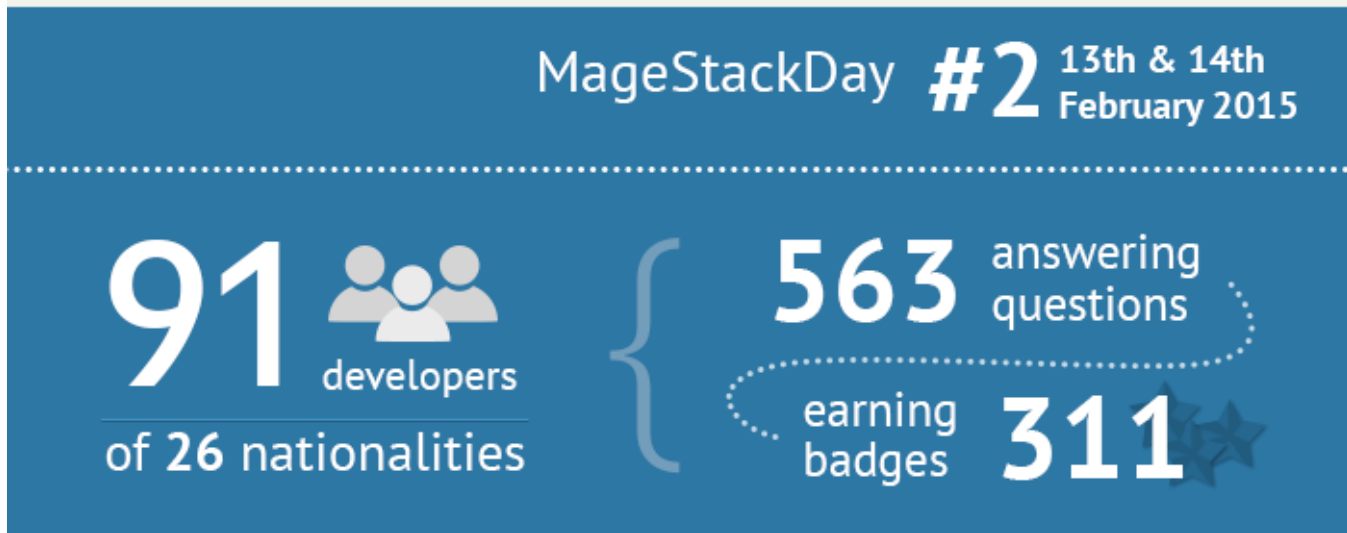

*Community achievements so far*

MageStackDay #2 13th & 14th February 2015

1 new gist with a collection of stackexchange-queries

2 Z-Ray licenses, sponsored by 

1 new website running on Hypernode, hosting sponsored by Byte 

MageStackDay **#4** scheduled for 15th and 16th of January

## WHY PARTICIPATE?

**HELP OTHER COMMUNITY MEMBERS**  
because one day they'll help you!

Share your knowledge and **LEARN MORE ABOUT MAGENTO**

**GET TO KNOW MAGENTO COMMUNITY**  
and have lots of fun!

If you're a Magento developer, I bet Magento StackExchange is one of your main resources while researching coding related questions. This pure distilled knowledge needs your help to remain so. That's why the active members of the Magento community have organized regular massive questions answering.

And yes, it will be MageStackDay №4. Because ~~skipping versions is a trend~~ the third event was planned to happen in October 2015, but didn't occur due to several reasons.

## What to do on #MageStackDay?

- Vote on good answers
- Answer questions you would like and you are able to answer
- Set up your favourite tags to navigate quickly through the questions. Accept good answers (if your question is answered and satisfies/helped you)
- Flag inappropriate answers/comments
- Close questions which do not meet the platform rules and leave a comment for the author, explaining why (for moderators)
- Have fun!

Get more information about participants organization and communication on [MageStackDay official website](#), and don't forget to subscribe to the newsletter!

**Join the Magento community and Amasty at #MageStackDay on 15th and 16th of January, 2016.**
