

## MAGENTO EXTENSIONS UPDATES – APRIL 2019

Posted by Alina Bragina | Apr 30, 2019 | Updates | 2 📌

Hey there!

As usual, we hasten to share the latest updates we've made this April with you.

13 of our **Magento 2 extensions** gained up to 7 new features. Thus, **Google Page Speed Optimizer** now goes with a long-awaited WebP image format, advanced JS builder, image resizing, configurable compression level and advanced settings for Lazy Load.

Don't miss all the excitement – scroll down!

[How to get the updates?](#)

## MAGENTO 2

### MAGENTO 2 REQUEST A QUOTE 1.3.0 📣 +7 NEW

- Now admin users can **create quotes in the backend** and send custom quotes to shoppers so that they further convert them into orders and pay for offers via the standard checkout.
- We added a new option that allows you to insert a **bundle product** into the quotation.
- Now your admins can **move approved quotes directly to the checkout** from the customer account.

- Now you can ask **guest users to log in for adding products** to quotes:

The screenshot shows the LUMA website interface. At the top, there's a search bar and a shopping cart icon. Below is a navigation menu with categories like 'What's New', 'Women', 'Men', 'Gear', 'Training', and 'Sale'. The 'Men' category is selected. The breadcrumb trail reads: Home > Men > Tops > Hoodies & Sweatshirts > Ajax Full-Zip Sweatshirt. The main product image shows a man wearing a green and white striped hoodie. To the right, the product title is 'Ajax Full-Zip Sweatshirt', followed by 'Be the first to review this product', the price '\$69.00', and 'IN STOCK' with 'SKU#: MH12'. Below the price, there are size selection buttons (XS, S, M, L, XL) and color selection options (Blue, Green, Red). A quantity selector is set to '1'. At the bottom, there are two buttons: 'Add to Cart' and 'Login for quote'.

- Also, you can set up a **quote expiration date**. Your admin user can configure global setting and choose a number of days prior to the expiry for each quote individually:

#### Expiration & Reminder

Quote Expiration   
[store view]

Set default period in days for quote to be valid once approved. For zero and higher this value can be set for each quote individually. Keep empty to disable this feature.

Send Reminder Email after   
Day(s)  
[store view]

Set default period in days to send reminder once quote approved. For zero and higher this value can be set for each quote individually. Keep empty to disable reminder.

- Now you can send shoppers **automatic reminding emails** that tell them when their quote proposal is about to expire.
- Now you can **manage all existing cron tasks on a Cron Tasks List grid** in the backend. There you can run cron tasks and generate their schedule by clicking the Run Cron button. Also, delete tasks in bulk, apply filtering and sorting options when it is needed.

UPDATE

### MAGENTO 2 GOOGLE PAGE SPEED OPTIMIZER 1.2.1 📣 +5 NEW

- We added a new **Advanced JavaScript Bundling feature**. How does it work? Now you can create an advanced bundle of JS that will significantly reduce the page size in kilobytes and increase the page load speed. Thus, you'll

improve Google rank for both mobile and desktop versions of your website.

- We introduced a new **WebP image format**. What's this? Now your extension can create a copy of an image in WebP format. Browsers that support WebP will receive images directly in this format.
- One more useful feature – an **image resize option**. Now your extension can create several copies of an image in different sizes. Smaller sized images will be used for mobile devices increasing page load speed and Google rank.
- Now you can choose the **compression level for the JPEG optimization** and pick folders with images for their optimization.
- We also added a number of **advanced settings for the Lazy Load** feature. So, now you can set optimization for different page types individually:

Lazy Load Settings [store view]  ▼

⊖ Lazy Load

⊖ General

⊖ Home Page

⊖ Category Pages

⊖ Product Pages

⊖ CMS Pages

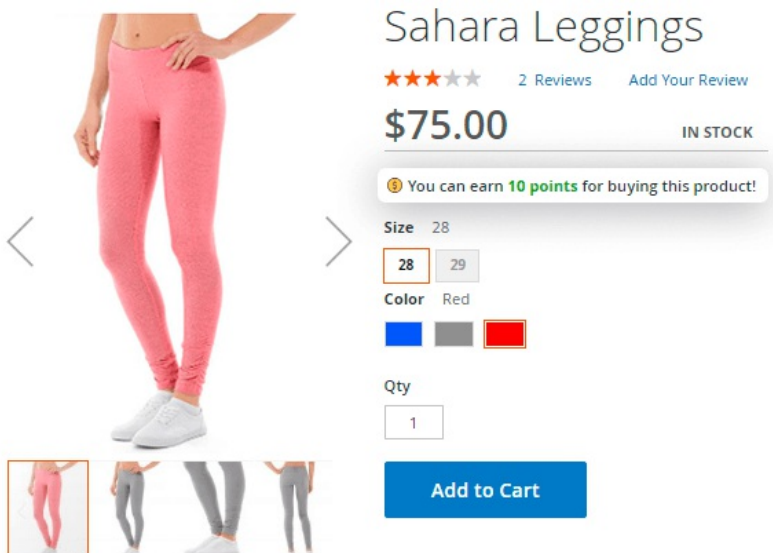

- A number of minor improvements were made.

## MAGENTO 2 REWARD POINTS 1.12.0 📣 +5 NEW

- We introduced a new option that allows you to **add a description block** to the reward points program in a Customer Account.
- Now you can **highlight reward points for guests** on your storefront:

The image shows a product page for 'Sahara Leggings'. On the left, there is a large image of a woman wearing pink leggings and white sneakers. Below this are four smaller thumbnail images showing different views of the leggings. To the right of the main image, the product name 'Sahara Leggings' is displayed in a large font. Below the name is a star rating of 4.5 (represented by four full stars and one half star) and the text '2 Reviews Add Your Review'. The price '\$75.00' is shown in a large font, with 'IN STOCK' to its right. A notification banner below the price says 'You can earn 10 points for buying this product!'. Below the price, there are dropdown menus for 'Size' (set to 28) and 'Color' (set to Red). The 'Color' dropdown shows three options: Blue, Grey, and Red. Below the size and color dropdowns is a 'Qty' dropdown set to 1. At the bottom right, there is a blue 'Add to Cart' button.

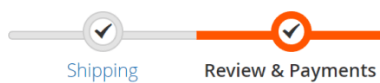

- We added a new option so that you can display **actual customer reward points balance**.
- Now you can **add reward points while creating an order** from the admin panel.
- Now you can **return reward points to a customer automatically** after an order refund or cancelation.
- We simplified the configuration settings and added an enable/disable option to the extension.

UPDATE

## MAGENTO 2 STRIPE PAYMENT 2.0.0 📌 +4 NEW

- Now the extension **supports Apple Pay and Google Pay**.
- Besides, it's become even more convenient for your users, as they can **save their cards** once and use them for all future purchases.
- We also added a new setting that allows you to **make 3D Secure verification obligatory** for all cards that support it.
- And also, we **added a Stripe badge** next to the method title to increase trust and make your customers feel more secure:

Payment Method:

Credit Card via Stripe

My billing and shipping address are the same

Veronica Costello  
6146 Honey Bluff Parkway  
Calder, Michigan 49628-7978  
United States  
(555) 229-3326

Credit Card Number \*

🇺🇸 5370 1234 2345 3456

stripe

Add Stripe badge next to the method title to increase trust and make your customers feel more secure

04 / 41 111

Place Order

Check / Money order

- Besides, we added a loading spinner to prevent customers from clicking the Place Order button multiple times and preserve their nerves.

## MAGENTO 2 ADVANCED PRODUCT REVIEWS 1.6.2 📌 +3 NEW

- We added a deep **integration with Magento Page Builder** extension. It's implemented into the submodule that can be installed via composer once Page Builder extension is used. It allows you to insert reviews widget into any

place of a page using the vanilla drag-and-drop tool of Magento Page Builder.

- Now you can apply a handy **slider option** for the reviews widget.
- Besides, you can **manage all existing cron tasks on a Cron Tasks List grid** in the backend. There you can run cron tasks and generate their schedule by clicking the Run Cron button. Also, delete tasks in bulk, apply filtering and sorting options when it is needed.
- Also, we improved compatibility with Magento 2.1.

UPDATE

READ ON

### MAGENTO 2 BLOG PRO 2.0.0 📣 +2 NEW

- We introduced a new user interface with **refined UX**.
- We added a new option that allows you to **create a multi-level category tree**, organize blog posts in subcategories.

👉 **Spoiler:** *Still more new features are there ahead!* [Subscribe to our newsletter](#).

UPDATE

READ ON

### MAGENTO 2 CASH ON DELIVERY 1.1.0 📣 +1 NEW

- Now you can set a **cash-on-delivery fee as a percentage of a cart subtotal** (excluding or including taxes).

### MAGENTO 2 IMPROVED SORTING 2.6.0 📣 +1 NEW

- Now you can **manage all existing cron tasks on a Cron Tasks List grid** in the backend. There you can run cron tasks and generate their schedule by clicking the Run Cron button. Also, delete tasks in bulk, apply filtering and sorting options when it is needed.
- We improved compatibility with MSI (Magento 2.3.0. feature).

👉 *Read the guide to tell the difference*

*between Magento MSI & our Advanced MSI.*

*Learn how to unleash MSI powers*

*in your Magento 2 store!*

### MAGENTO 2 ONE STEP CHECKOUT 2.6.0 📣 +1 NEW

- Now you can choose to display **customer addresses in the customer information block** of the checkout page (grid or drop-down list).
- We added a new option that allows you to display billing address form in the customer information block below a shipping address.
- We refined the logic of the Place Order button work. We made it less

confusing in case your customer enters a billing address that differs from the shipping address and then tries to place an order without pressing the Update button in the billing address form first.

### MAGENTO 2 PRODUCT PARTS FINDER 1.11.1 📣 +1 NEW

- Now you can **manage all existing cron tasks on a Cron Tasks List grid** in the backend. There you can run cron tasks and generate their schedule by clicking the Run Cron button. Also, delete tasks in bulk, apply filtering and sorting options when it is needed.
- We enhanced compatibility with [Magento\\_Elasticsearch6](#).

### MAGENTO 2 XML GOOGLE® SITEMAP 1.4.0 📣 +1 NEW

- Now you can **manage all existing cron tasks on a Cron Tasks List grid** in the backend. There you can run cron tasks and generate their schedule by clicking the Run Cron button. Also, delete tasks in bulk, apply filtering and sorting options when it is needed.

### MAGENTO 2 PRODUCT LABELS 1.10.6 📣 +1 NEW

- We added a new option so that you can **apply Product Labels on the Catalog Widget**.

### MAGENTO 2 SEO TOOLKIT 1.14.1 📣 +1 NEW

- Now you can **manage all existing cron tasks on a Cron Tasks List grid** in the backend. There you can run cron tasks and generate their schedule by clicking the Run Cron button. Also, delete tasks in bulk, apply filtering and sorting options when it is needed.
- Minor improvements were made.

### MAGENTO 2 FREE GIFT 2.4.2

- We made a wide range of improvements for this extension:
  - (a) we refactored promo banners for cart price rules: we enhanced compatibility with FPC and removed the validation condition based on a cart content;
  - (b) we added backorders support: now you can configure backorders for promo items.
  - (c) we enhanced the Based on Cart Amount setting: now cart amount is used based on cart price rules priorities.
- Also, we tested and confirmed the extension compatibility with Magento 2.3.1.

### MAGENTO 2 IMPROVED LAYERED NAVIGATION 2.11.5

- We made your extension compatible with Magento 2.3.1, [Elasticsearch 6](#), and the [Category Browsing Permissions](#) on Magento Commerce.
- Also, we improved its compatibility with custom themes for Magento 2.
- Besides, we took care of multi-select and top-filters operation on mobiles

making it better.

- A number of minor improvements were made.

### **MAGENTO 2 ADVANCED SEARCH 1.12.6**

- We enhanced the autocomplete pop-up indexation. Now it covers products indexation. This feature comes with Amasty **Elastic Search** extension only.
- We added compatibility with Magento 2.3.1.
- A number of minor improvements were made.

### **MAGENTO 2 AJAX SHOPPING CART 1.7.11**

- We added the extension compatibility with Magento 2.3.0 Commerce **Related Products Rules**.
- Also, enhanced compatibility with 3 Amasty extensions: **Automatic Related Products**, **Gift Card** and **Request a Quote**.
- Besides, we improved the integration with Magento Open Source 2.3.1.

### **MAGENTO 2 AUTOMATIC RELATED PRODUCTS 2.5.2**

- We improved the Bought Together feature logic. Now the extension takes into account products that are purchased in one order only.
- We added compatibility with **GraphQL**. It allows exposing product data like SKU, name, link, image, price, etc. in order to build PWA/JS based frontend.

👉 **Teaser:** *This April we've asked our experienced Magento developer, Mihail Shagoiko, to tell us more about GraphQL, it's pros and cons. Wait in May!*

### **MAGENTO 2 GDPR 1.5.3**

- We improved the Geo IP Data module compatibility with Magento 2.1.x.
- We did our best to anticipate and prevent possible glitches on the checkout page and enhanced the Privacy Police checkbox validation process.
- A number of minor improvements were made.

### **MAGENTO 2 AFFILIATE 1.2.12**

- We added useful hints to commission configuration settings. We hope it will ease your admins' life.
- A number of minor improvements were made.

### **MAGENTO 2 CUSTOM FORM 1.10.0**

- We added an option that allows you to set the Date Format (dd/mm/yyyy or mm/dd/yyyy) in the backend.
- A number of minor improvements were made.

### **MAGENTO 2 MASS PRODUCT ACTIONS 1.1.8**

- We added an All Groups option to the Advanced Pricing Customer Group drop-down menu.

- Minor improvements were made.

#### **MAGENTO 2 PUSH NOTIFICATIONS 1.0.4**

- We enhanced Geo IP Data module compatibility with Magento 2.1.x.
- Minor improvements were made.

#### **MAGENTO 2 VISUAL MERCHANDISER 1.3.6**

- We enhanced compatibility with Magento 2.1.x.
- A number of minor improvements were made.

#### **MAGENTO 2 SHIPPING RULES 2.4.4**

- We added a Custom Options SKU condition for products and WebAPI.
- A number of minor improvements were made.

#### **MAGENTO 2 GIFT CARD 1.8.3**

- We added uninstall scripts and compatibility with Magento 2.3.1.
- Minor enhancements were made.

#### **MAGENTO 2 SHOP BY BRAND 2.7.5**

- We enhanced compatibility with custom themes.
- Now your extension is also compatible with our new [Mega Menu](#) extension.

#### **MAGENTO 2 GEOIP REDIRECT 1.1.2**

- We improved the Geo IP Data module compatibility with Magento 2.1.x.

#### **MAGENTO 2 FAQ AND PRODUCT QUESTIONS 2.4.3**

- Now the Product Questions Tab Position function is compatible with Magento 2.3.1.

#### **MAGENTO 2 LOGIN AS CUSTOMER 1.0.3**

- We added Magento EE Website Restriction Support.

#### **MAGENTO 2 THANK YOU PAGE 1.1.1**

- Now you can use coupon variable not only in Text but also in Title, Subtitle fields.

#### **MAGENTO 2 PROMO BANNERS 1.0.15**

- Now you have more options to choose for the placement of your banner.

#### **MAGENTO 2 SHIPPING TABLE RATES 1.4.15**

- We improved compatibility with 3-rd party extensions.

#### **MAGENTO 2 GENERATE AND IMPORT COUPONS 1.1.11**

- We improved the extension and added a message notification for your admin

users in case an import error occurs.

### MAGENTO 2 HIDE PRICE 1.5.6

- Now the module allows you to send admin notifications for several users simultaneously.

### MAGENTO 2 ORDER ATTRIBUTES 3.5.3

- Now the extension is compatible with our new [PDF Customizer](#).

### MAGENTO 2 ORDER STATUS 1.0.5

- We improved compatibility with our [Order Notes](#).

## MAGENTO

### GOOGLE INVISIBLE RECAPTCHA 2.3.0 📌 +2 NEW

- We added a **checkbox type captcha** intended for backend and frontend.
- We gave you more control over the functionality. Now you can turn on/off captcha for default forms via **multi-select control**.
- Also, we enhanced the captcha operation on the checkout page and added minor visual improvements to the backend menu.
