

## MAGENTO EXTENSIONS UPDATES – JANUARY 2020

Posted by Alina Bragina | Jan 31, 2020 | Magento 2, Most-read articles, Updates | 8

This January has rewarded us with **Magento 2.3.4** release. Given this, we've focused our resources on making sure all our extensions that might have been affected by the Magento updates, are compatible with the new version.

With the approach of the **M1EOL date**, we give higher priority to the enhancement of Magento 2 extensions and are always ready to help you out with **migration and customizations**. That's why this time, we've introduced improvements only for one Magento 1 extension – **One Step Checkout 3.2.14**.

Let's dig deeper and see the rest!

Hi Henk, thanks for switching to this page and leaving your feedback. You see, your case is unique, most of our clients welcome the notifications, as it's very convenient. However, there's also a way out for you too. You can simply disable your admin notifications. Follow the simple steps below:  
**(a)** if you run M1, navigate to the admin **panel> System> Advanced> Advanced tab> Disable Modules Output> Magento\_AdminNotification>** set to **Disable> Save Config** and clear the cache or **(b)** go to **M2 admin> Stores> Configuration> Advanced> Magento\_AdminNotification>** set to **Disable>Save Config** and clear the cache.  
If there's anything else we can do for you, just let me know!
