

MAGENTO EXTENSIONS UPDATES – JULY 2020

Posted by Alina Bragina | Jul 31, 2020 | Extensions Updates | 10

July 28, Magento released a new 2.4.0 version.

Today, Adobe has released the latest version of Magento Commerce and Magento Open Source to provide merchants with capabilities that will help them capture new opportunities in the current commerce landscape and prepare for the future.

Brief summary. Introducing new features in 2.4.0 version

Now **B2B** companies can set **custom approval rules** based on order value, number of SKUs, or shipping costs. These rules can be assigned to different roles and approvers.

The new “**seller-assisted shopping**” allows your sales reps to log into websites as a customer right from the backend. Creating orders for customers, guiding them on their customer journey, and identifying the weak spots of your systems are just a few pros you’ll get.

BOPIS (buy online, pick up in store), 30 times **faster media gallery**, improvements for **PWA** development, **security**, and **performance** enhancements all come with the 2.4 version.

This month we’ve ensured compatibility of our extensions with the new Magento 2.4.0 version. Also, we’re preparing for the release of our 1st Magento theme – **Jet Theme**, which is now available for pre-ordering, and, therefore, ensured its compatibility with our top-selling extensions.

Find your Amasty’s extensions in the list below and see what new features we’ve added.

How to get the updates?

MAGENTO 2 EXTENSIONS UPDATES

ADVANCED SEARCH 1.14.8

- We added compatibility with Magento 2.4.0 and **Amasty's Jet Theme**.

AJAX SHOPPING CART 1.9.3

- We added compatibility with Magento 2.4.0, **Amasty's Jet Theme**, and improved its work with our **Multiple Wishlist** extension.

AUTOMATIC RELATED PRODUCTS 2.9.5

- We enhanced the speed of GraphQL queries.

B2B COMPANY ACCOUNT 1.1.1

- **NEW** we added an option to limit orders viewing and placement by company users with the help of appropriate role permissions.

- **NEW** now you can choose what payment methods will be available for users of each specific company during checkout.
- We added an option for not to set the same Customer Group to all company members. It can be used if Customer Groups are assigned to customers automatically by VAT ID.

BLOG PRO 2.5.5

- We enhanced compatibility with **Jet Theme** and Varnish.
- We also introduced several enhancements for AMP versions of blog pages: for the validation of comments form, the display of comments and tag widgets, the currency switcher.

CALIFORNIA CONSUMER PRIVACY ACT 1.2.2

- The registration of Californian customers by the option “Enable Privacy Settings Tab for Californians Only” is now defined by buyers’ default billing address.
- Now you can enable the Privacy Settings tab with the “Don’t sell my personal information” setting for Californian registered customers only. The customer address is used to define the registration.

CALL FOR PRICE 1.5.17

- We improved compatibility with **Amasty’s Quick Order** and **Elastic Search**.
- Now when hiding the “Add to Cart” button you make it not only on the storefront but also restrict adding to cart from Wishlist page, Quick Order page, etc.
