

MAGENTO EXTENSIONS UPDATES – SEPTEMBER 2020

Posted by Alina Bragina | Sep 30, 2020 | Extensions Updates | 10

This month we've focused on checking your extensions for compatibility with our new **Jet theme** and developing new features for your Magento extensions. We've also added a new **Amasty Theme category** where you'll find a complete list of extensions that support the Jet theme.

Let's dive in and see what we've prepared for you!

MAGENTO 2 EXTENSIONS UPDATES

ADVANCED REPORTS 1.7.0

- **NEW** We introduced a new design for a mobile view and corrected the display of elements for better mobile user experience.
- We enhanced compatibility with Magento 2.4

ADVANCED SEARCH 1.15.0

- **NEW** We created a search widget that allows you to place additional search fields at any place on store pages.

AUTOMATIC RELATED PRODUCTS 2.9.8

- To make the list of related products mirror your request, we added an option to consider non-anchor categories under the 'same as' condition only.
- Also, we enhanced the extension display if used in combination with **Amasty Jet Theme**.

CROSS-SELL / UPSSELL PRODUCTS 2.9.8

- To make the list of related products mirror your request, we added an option to consider non-anchor categories under the 'same as' condition only.
- We also enhanced the extension display if used in combination with **Amasty Jet Theme**.

CUSTOMER GROUP CATALOG 1.6.3

- We improved the UI of a Customer Group Catalog Rule page to make your experience more convenient. Note that if you updated the interface, you'll need to configure the rules again.

CUSTOMERS ALSO BOUGHT 2.9.8

- To make the list of related products mirror your request, we added an option to consider non-anchor categories under the 'same as' condition only.
- We also enhanced the extension display if used in combination with **Amasty Jet Theme**.

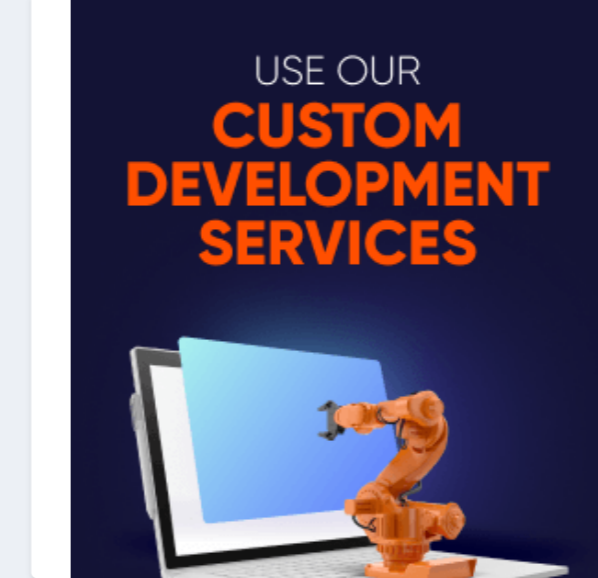

ELASTIC SEARCH 1.10.0

- **NEW** We created a search widget that allows you to place additional search fields at any place on store pages.

EXTRA FEE 1.6.0

- **NEW** Now the extension comes with enhanced tax management. This means you can configure tax calculation methods fully applicable for EU and US. VAT/Taxes can be either calculated and displayed as included or excluded in/from the fee price.
- **NEW** We added a new feature that allows users to get a full or partial refund of extra fees via storefront or admin panel.
- **NEW** Now you can specify a certain Extra Fee as mandatory for customers at the checkout. For this, log in to the admin panel and navigate to the extension's settings.
- **NEW** We added a new Extra Fee calculation option to let store owners decide what method is more applicable to their stores. Now fees can be either applied to the whole shopping cart, or to each product in the cart, or to each product that matches specific conditions being set via Conditions Tree.
- We got rid of deprecated parts of the code, therefore since now, the extension supports Magento 2.3.0+ only.

GOOGLE PAGE SPEED OPTIMIZER 1.8.3

- Now you can configure 'Is Featured' and 'Show in Brand Slider' settings separately for a brand attribute.

MEGA MENU 1.7.6

- Now users can scroll desktop hamburger menu content if it exceeds the height of the window.

META TAGS TEMPLATES 1.2.4

- We optimized the process of URLs generation for large catalogs.

QUICK ORDER 2.0.0

- **NEW** Now customers can browse your store, select products, configure their options, and add all chosen items together right from category pages.
- **NEW** We introduced an option to download the list of added items from the Quick Order grid.

REQUEST A QUOTE 2.3.0

- **NEW** Now quotes can be downloaded in PDF format both from the backend and frontend. In addition, you can automatically attach a PDF to the Approved Quote customer notification and configure the PDF content according to your needs on the store view level.
- Now you can set a higher product price than the original one while editing a quote from the admin panel.

SHOP BY BRAND 2.10.13

- Now you can configure 'Is Featured' and 'Show in Brand Slider' settings separately for a brand attribute.
