

MAGENTO EXTENSIONS UPDATES – OCTOBER 2020

Posted by Alina Bragina | Oct 30, 2020 | Extensions Updates | 12

We continue fine-tuning our extensions. This month, we did nice work on our GDPR extension, added Export Orders extension to the Dropshipping pack to automate sending important business data to your suppliers, and more. Go on with this complete list below to see what updates are already available.

And don't forget to check out our special offers before purchasing to save on the desired products right now.

Out of Stock Notification 1.13.0

Visual Merchandiser 1.5.2

Minor improvements for your Magento 2 extensions

How to get the updates?

MAGENTO 2 EXTENSIONS UPDATES

ADVANCED SEARCH 1.15.3

- We improved our search for non-Latin languages.

AFFILIATE 2.0.0

- **NEW** Now you can assign unique affiliate code to affiliate accounts. Previously, you could use auto-generated coupons only.
- Also, we removed the code dedicated to supporting legacy Magento versions and refactored the rest to ensure maximal performance and improved stability with the latest Magento versions.

SEE DETAILS

AUTOMATIC CATEGORIES 1.5.2

- **NEW** Now you can use categories as a condition for assigning products to the Automatic Category. Note that only categories with physically assigned products will function as conditions

Apply Conditions

After you click the 'Apply Conditions' button, the category will display only the products that are matching the conditions.

- To improve this extension performance with EAV attributes, we moved indexing to a separate submodule.

CUSTOM FORM 1.15.4

- **NEW** We added a new template for auto-reply emails to let you send submitted data to customers.

CUSTOM STOCK STATUS 2.0.2

- **NEW** To make this extension's configuration more flexible, we upgraded its code. Now created custom stock statuses are assigned to products that match specified conditions by rules and can be bound to specific customer groups. Note that having upgraded this extension, it will automatically create rules for previously configured statuses and ranges.

- **NEW** Now you can control the display of statuses in the attribute dropdown on a configurable product page.

DROPSHIPPING 1.4.2

- Now, this extension comes with our **Export Orders** included. The combo of these extensions will help you automate sending information about customers and purchased products to suppliers.

ELASTIC SEARCH 1.11.1

- **NEW** We added GraphQL read compatibility.

EXPORT ORDERS 1.0.2

- We improved the process of Export Orders installation to avoid unexpected behavior with the previous Efficient Order Export extension.

GDPR 2.5.0

- **NEW** We added a new option to the 'Orders and Returns' page to allow guest users to download their personal information given when placing an order.
- **NEW** We developed a new setting that allows you to enable a special section at customer accounts with Data Protection Officer information.
- **NEW** We added a new option to the Customer Account page that lets you anonymize and delete customer's data from the admin panel.
- **NEW** Now your customers can open a CMS page link added to the consent checkbox in a popup.
- **NEW** We developed a new option displaying the Privacy Policy popup when a new customer opens your website. Moreover, this option allows you to display a popup with a new version of Privacy Policy to those users who haven't accepted your policy yet.
- Now you can replace the highlighted text in the Privacy Policy section at the backend with the needed for your website.
- To let you manage the denied requests, we added a new Delete Request Denied status to the Actions Log.

INFINITE SCROLL 1.4.1

- **NEW** We covered this extension with Jasmine JS tests.
- **NEW** We added a new setting that lets you specify a footer selector.

INSTAGRAM FEED 2.1.3

- We added Name and SKU columns to the Post&Product Linking grid for your convenience.
- And we updated the Facebook Graph API version to v8.0

JET THEME 1.1.0

- **NEW** Now this theme comes with AJAX functionality. This means you can choose configurable options and edit items in the popup before adding a product to the Cart, Wish List, or Compare List.
- **NEW** We added the LESS file to let you make customizations.
- Also, we enhanced the display of the View Order, Print Order, Send Invitations, and Order By SKU pages for Magento B2B.
- Now you can edit products on the My Wish List page.
- We also added the Add to Cart button to the Compare Products Page.
- We added a preload for the fonts to enhance the theme performance.
- We added the Add To Cart button to the Category Page on the mobile view.
- Now you can add products from the Related, Upsell, Cross-Sell Products blocks to cart on the mobile view.
- We enhanced the work of the Color Schema setting.
- We added the View All button to the Recently Ordered block for mobile and desktop views.
- Also, now our Jet theme is compatible with Magento 2.4.1

LANDING PAGES 1.8.2

- To improve this extension performance with EAV attributes, we moved indexing to a separate submodule.

LGPD BRASIL 2.5.1

- **NEW** We added a new option to the 'Orders and Returns' page to allow guest users to download their personal information given when placing an order.
- **NEW** We developed a new setting that allows you to enable a special section at customer accounts with Data Protection Officer information.
- **NEW** We added a new option to the Customer Account page that lets you anonymize and delete customer's data from the admin panel.
- **NEW** Now your customers can open a CMS page link added to the consent checkbox in a popup.

- **NEW** We developed a new option displaying the Privacy Policy popup when a new customer opens your website. Moreover, this option allows you to display a popup with a new version of Privacy Policy to those users who haven't accepted your policy yet.
- Now you can replace the highlighted text in the Privacy Policy section at the backend with the needed for your website.
- To let you manage the denied requests, we added a new Delete Request Denied status to the Actions Log.

OUT OF STOCK NOTIFICATION 1.13.0

- Now customers can submit subscriptions to separate options of out-of-stock configurable products right on the page.

VISUAL MERCHANDISER 1.5.2

- **NEW** Now you can use categories as a condition for assigning products to the Automatic Category. Note that only categories with physically assigned products will function as conditions.
- To improve this extension performance with EAV attributes, we moved indexing to a separate submodule.
