MAGENTO 2 EXTENSIONS UPDATES

EXPORT CUSTOMERS 1.3.0, EXPORT ORDERS 1.4.0, EXPORT PRODUCTS 1.3.0

- **NEW** Now, this extension comes with modifiers. Using them, you can apply optional elements that can modify the meaning of other elements in the fields.

FAQ AND PRODUCT QUESTIONS 2.8.0

- **NEW** We covered this extension with MFTF tests.

FULL PAGE CACHE WARMER 2.3.3

- We added a new setting – **Auto-generate Queue after Cache Flush**. It allows you to generate a warm-up queue in the background via cron.

GIFT CARD 2.4.1

- We enhanced compatibility with the **Request a Quote** extension.
- We refactored the compatibility mechanism with the **Export Customers, Export Orders, and Export Products** extensions.

IMPROVED LAYERED NAVIGATION 2.16.1

- **NEW** We reworked the category UI. We improved filter states, visuals, swatches, price slider styles, checkboxes, and radio-button filters.
- **NEW** Now, you can enable SEO-friendly URLs in bulk.
- We improved the compatibility with the **Jet Theme**.
- We reworked the Fly-out view for the categories filter.
- We optimized brand settings to make them more convenient.
- We enhanced the **More from this Brand** block performance as well as the overall extension performance.
- The **Dropdown** display mode for filters is deprecated and will be removed in future versions.
- We transferred Group Attributes functionality to the independent module Amasty Group Options.
- We added cascade delete for the alias values.
- We adjusted the Brand logo rendering for out-of-stock products and brand pages.
- We improved price filter behavior with decimal values.

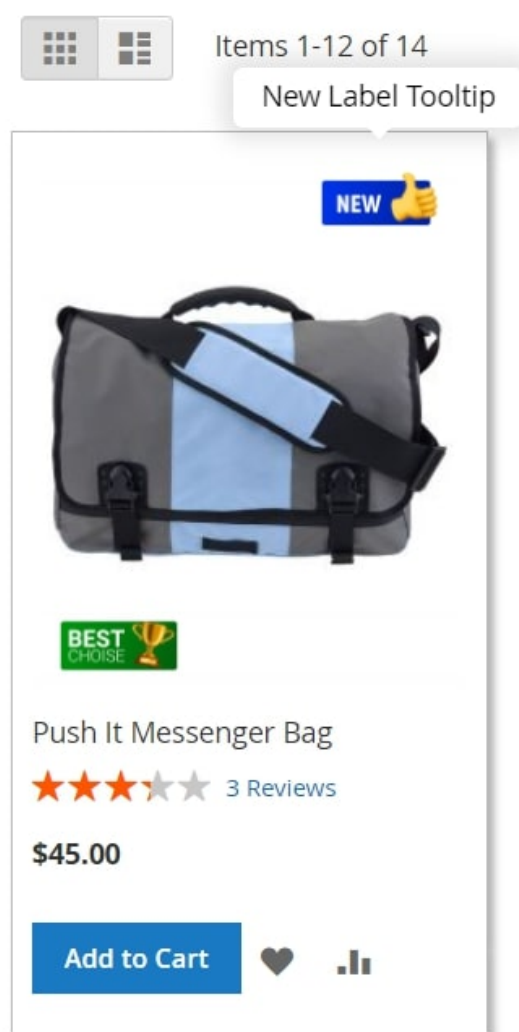

JET THEME 1.8.0

- **NEW** We've added the Sticky Header feature.
- **NEW** Now, you can customize the footer.

- **NEW** This version goes with a customizable background color for the social network link icons.
- **NEW** We've added the AJAX technology to Multiple Wish List functionality on Magento Commerce. So now, your website won't reload whenever a user includes a product in the wishlist.
- **NEW** Now, you can add a destination link to the image slider.
- We enhanced the work of the mini cart.
- Now the reviews block can be displayed for the cross-sell products on the shopping cart page.
- We've enhanced the display of our Jet theme on the Quick Order, Request a Quote Print, and My Order pages for Magento B2B.
- Now, Jet Theme is compatible with Magento B2B functionality.
- We've enhanced the work of the modal windows.

PRODUCT LABELS 2.0.0

- **NEW** We moved the label editor interface from deprecated Grid Block to Magento UI components. With the editor UI update, custom conditions have been transferred to the conditions tree except for price conditions. You can set price ranges using the default price attribute via the conditions tree.
- **NEW** Now, you can display label tooltips and make your product labels even more informative:

- **NEW** We introduced the **Product Preview** option so you can check which products the label will apply:

Product Conditions

Product Conditions If ALL of these conditions are TRUE :

Is New is Yes
