

MAGENTO EXTENSIONS UPDATES – MAY 2021

Posted by Polina Kratovich | May 31, 2021 | Extensions Updates | 20

Summer is almost here, and that means it's time to recap what we've done in May. This month, we've released new features for our Jet Theme, Import Orders, Mega Menu, RMA, and other products. Moreover, we continued to work on the compatibility of our PWA add-ons with the latest Magento PWA Studio version.

Check out what new possibilities has YOUR Magento extension, and don't forget to check our promo program to save money on the purchase.

How to get the updates?

MAGENTO 2 EXTENSIONS UPDATES

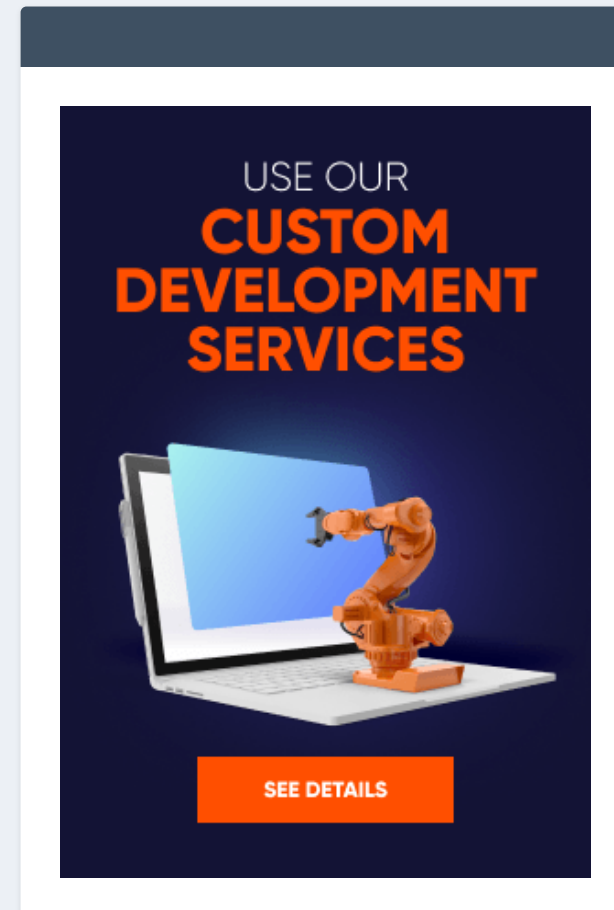

ADVANCED PRODUCT REVIEWS 1.14.10

- We improved compatibility with the **Social Login** extension. If you restrict not logged-in customers leave reviews, they will see the popup with social login options.

EXPORT CUSTOMERS 1.5.0

- **NEW** We added a new subentity that allows you to export information about newsletter subscribers.
- Now, you can send alerts to recipients if an error happens when exporting a specific profile.

EXPORT ORDERS 1.6.0

- **NEW** In the new version, you can duplicate profiles and create similar ones without additional steps.
- Now, you can send alerts to recipients if an error happens when exporting a specific profile.

EXPORT PRODUCTS 1.5.0

- Now, you can send alerts to recipients if an error happens when exporting a specific profile.

IMPORT AND EXPORT 1.1.0

- **NEW** Now, the solution includes the **Import Customers** extension.

IMPORT CUSTOMERS 1.1.0

- **NEW** Now, you can send alerts to recipients if an error happens when importing a specific profile.

IMPORT ORDERS 1.2.0

- **NEW** Now, you can set up import history auto-cleaning after the specified period:

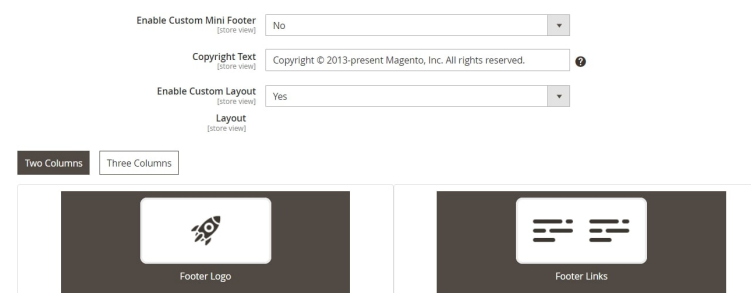

Import History Auto-Cleaning [global] ?

Auto-Cleaning Period (Days) [global] ?

- **NEW** In the new version, you can send alerts to recipients if an error happens when importing a specific profile.
- **NEW** Now, you can duplicate profiles and create similar ones without additional steps.
- We enhanced the work of the import log and improved the error messages, so they are more detailed and informative.

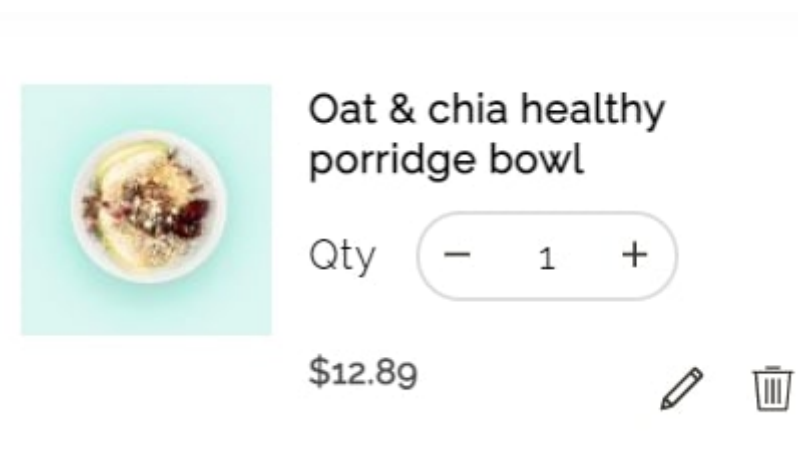

JET THEME 1.11.0

- **NEW** Now, the theme comes with a fully customizable footer, so you can use a builder in the admin area to configure the footer display:

Show Logo Block <small>[store view]</small>	Yes
Show Subscription Block <small>[store view]</small>	Yes
Show Subscription Block On Mobile <small>[store view]</small>	Yes
Show Social Network Links Block <small>[store view]</small>	Yes
Show Footer Links Block <small>[store view]</small>	Yes
Enable Custom CMS Block <small>[store view]</small>	No
Show Payment Methods Block <small>[store view]</small>	Yes
	<small>You may configure you Payment Methods Icons here</small>
Align Payment Methods Block <small>[store view]</small>	Center
	<small>The following setting will affect the display of the Payment Methods Block in the default footer</small>

- **NEW** We added the Payment Method Blocks to let you display the available payment options on your website.
- **NEW** Now, you can show several tabs with the specified products in one Tab Widget.
- **NEW** We added the Edit button for the items in the Mini-Cart:

- **NEW** Now, you can change styles on your website using Global Style Switcher.
- Our theme is compatible with Magento 2.4.2-p1, 2.3.7 versions.
- We enhanced the compatibility with **Improved Layered Navigation**, **Layered Navigation Lite**, and **One Step Checkout**.
- We reviewed the settings for Sticky Header and the core Magento styles.
- We enhanced the display of the Catalog New Products, Catalog Product List, Recently Viewed Products, and Recently Compared Products widgets on Jet Theme.
- We improved the display of the Magento B2B Company Profile page.
- We upgraded the performance of Google Invisible reCaptcha.

MEGA MENU 2.0.0

- **NEW** We renovated and refactored the code of the extension and converted it to UI components to make it faster. Also, we isolated a core part of the extension.

Important note: Please, pay attention that links to the Custom Items and Menu Builder pages are now located in the Mega Menu Lite tab.

- **NEW** We implemented UX modification to mobile templates that help you avoid the unexpected switch to a parent category.

PWA STUDIO 10.0.0 SUPPORT

We continue upgrading our PWA add-ons to make them compatible with the latest version of Magento PWA Studio.

Important note: Please pay attention that the lower versions of PWA Studio are no longer supported!

- **PWA for Automatic Related Products 1.1.2**
- **PWA for Product Labels 1.1.2**
- **PWA for Shop by Brand 1.0.3**

RMA 2.5.0

- **NEW** We added API methods that allow admin to sync RMA requests with other ERP and CRM systems.
- Now your customers can check a returns page without additional steps by clicking My Returns at the header block.
- We enhanced the work of the settings for displaying return information for downloadable and virtual products.
- We made an automatic login for registered customers from the email about the RMA request.

SOCIAL LOGIN 1.8.3

- We improved compatibility with the **Advanced Product Reviews** extension. If you restrict not logged-in customers leave reviews, they will see the popup with social login options.
