Also, don't forget to check our promo program before purchase and save money on new extensions.

*Our monthly program will be updated in August. Stay on top of it!

Article summary [\[show\]](#)

MAGENTO 2 EXTENSIONS UPDATES

ADVANCED SEARCH 1.17.6

- We improved the compatibility of autocomplete popups with Varnish Cache.
- Now, if you use the **Preorder** button, it replaces the **Add to Cart** button in the autocomplete popup.

AUTOMATIC CATEGORIES 1.5.3

- Now, the extension can process requests to large catalogs faster.
- We enhanced the processing of conditions to speed up the indexation.
- In the new version of the extension, saved changes of a product launch are a partial reindex instead of a full one.
- Now, the extension considers the positions of products in categories upon initial install.

AUTOMATIC RELATED PRODUCTS 2.11.2

- We improved the compatibility of the bundle pack feature with PHP 7.2 and lower versions.

GUEST BLOGGER

USE OUR
**CUSTOM
DEVELOPMENT
SERVICES**

[SEE DETAILS](#)

- We enhanced the logic of discount applying in case items were added from the **Bundle Pack** block. Now, the discount is calculated for directly added bundle pack only, so you can avoid random matches of a similar bundle pack in the cart.
- In the new version, the **Bundle Pack Sales** grid has the **Bundle Price** column with the sum before cart discounts and tax calculation.
- Now, the bundle packs are available for multi shipping.
- We optimized the bought together request to improve its performance.
- We added compatibility with **Alt Tags** of the **SEO Toolkit** solution.

BANNER SLIDER 1.2.1

- We adjusted banner date settings.
- We improved slider compatibility with the **Lazy Load** extension. Now, it defers the slider images load as expected.

BLOG PRO 2.8.2

- We improved compatibility with other Amasty extensions that are using the Slick jQuery library.

CUSTOM REPORTS BUILDER 1.1.0

- **NEW** We added a search field to report constructor:

Available options

To activate the widget, drag (or double-click) the column you need to the edit field on the right

Catalog Product ▾ View All (+67)

Product ID	• count	int
Creation Time	• max	timestamp
Product Name	• group_concat	varchar
Price	• sum	decimal

- **NEW** Now, you can set custom titles to columns to avoid confusion on the edit and view pages.
- **NEW** Now, you can choose an aggregation type for a connected column.
- **NEW** Magento Commerce users can create reports with the RMA entity.
- Now, all the entities are available for adding at once without complicated relations building.
- In the new version, the graph is loaded with AJAX to speed up the report view page loading.
- Now, the info about an entity is available on hover over the header for a better understanding of a column identity.
- You can add a column to the report by double-clicking.

EXPORT ORDERS 1.8.1

- **NEW** Now, you can export gift messages.

EXTENDED ORDER GRID 1.3.1

- **NEW** We added new columns with the info about rate, the total quantity of ordered items, and total excluding tax:

ID	Purchase Date	Shipping Address	Customer Email	Order Tax	Subtotal (Base)	Product Details	Shipping	Total Qty Ordered	Rate	G.T. - Tax
<input type="checkbox"/> 000000007	Jul 5, 2021 9:52:07 AM	sdg.sdg,Connecticut,326	demo@a.com	\$0.00	\$32.00	SKU 24-MB04	Carrier: Do not need a tracking info	1.0000	1.0000	\$37.00
<input type="checkbox"/> 000000006	Dec 19, 2019 5:27:11 AM	6146 Honey Bluff Parkway,Calder,Michigan,49628-7978	roni_cost@examp1e.com	\$3.71	\$45.00	SKU 24-WB04	Carrier: Do not need a tracking info	1.0000	1.0000	\$50.00

FAQ AND PRODUCT QUESTIONS 2.9.2

- **NEW** Now, you can enable FAQ question and category URLs suffix and remove trailing slash from FAQ question and category URLs.
- We added a new setting to the FAQ category page, so now you can display different category names on category pages.

GDPR 2.6.5

- We improved compatibility with the **One Step Checkout**.
- We enhanced the GraphQL extension and covered the missing settings and mutation.

IMPORT ORDERS 1.4.1

- **NEW** Now, you can import gift messages.

IMPROVED LAYERED NAVIGATION 2.17.0

- **NEW** Now, the **Brand Attribute** setting has a store view scope. Thus, you can use different attributes as a brand for different stores within one Magento installation, if needed.
- **NEW** We updated the design of the Brands part of the extension.
- **NEW** Now, you can hide a particular brand from the **All Brands** page.

- We improved the compatibility with the **Mega Menu** extension. Now, brand links in the top menu are displayed properly.

IMPROVED SORTING 2.9.0

- We refactored the installation process and converted the module's install/upgrade scripts to the declarative schema.
- We've optimized the indexing for reviews-related sortings to ensure relevant products' positions after saving a review.

LANDING PAGES 1.8.8

- Now, you can create separate pages with pre-order items from the **Pre Order** extension by using the appropriate condition.

MEGA MENU 2.0.4

- **NEW** Now, the sticky menu option is available for mobile devices.
- The new version of the extension doesn't impact the Cumulative Layout Shift score, which measures a user experience event.

PRE ORDER 2.0.1

- **NEW** We completely refactored and optimized the extension's code, added indexation to improve the performance.
- **NEW** Now, you can use the preorder condition in the catalog and cart price rules.
- We adjusted the preorder button animation on listings.
- Now, the module is read compatible with GraphQL.
- You can display the preorder button in the **Advanced Search** autocomplete popup.

- Now, the **Add to Cart** button can be replaced with the **Preorder** button in the Magento Product List widget.

PRODUCT FEED 2.6.12

- We added the **Select All/Deselect All** link to the second step of the **Google Feed** wizard. Thus, you can include or exclude all the categories from your product feed.

PRODUCT TABS 1.2.0

- **NEW** Now, you can set the tab anchor and send the direct links to the custom tabs.

PWA FOR CUSTOM FORM (ADD-ON) 1.1.3

- Now, you can use custom forms on pages that are created with the help of Magento Page Builder.

SEO SUITE ULTIMATE EXTENSION BY MAGEWORX 2.34.2

- **NEW** We've added the explanation hints to the settings in the backend. Also, we improved the functionality of the cross-links, which are added to the description via the Page Builder. The new version has better compatibility with the Mageworx Layered Navigation module, as well.

SIZE CHART 1.2.0

- **NEW** Now, you can set the tab anchor and send the direct links to the custom tabs.

SHOP BY BRAND 2.12.0

- **NEW** Now, the **Brand Attribute** setting has a store view scope. Thus, you can use different attributes as a brand for different stores within one Magento installation, if needed.

- **NEW** We updated the design of the Brands part of the extension.
- **NEW** Now, you can hide a particular brand from the **All Brands** page.
- We improved the compatibility with the **Mega Menu** extension. Now, brand links in the top menu are displayed properly.

VISUAL MERCHANDISER 1.5.3

- Now, the extension can process requests to large catalogs faster.
- We enhanced the processing of conditions to speed up the indexation.
- In the new version of the extension, saved changes of a product launch are a partial reindex instead of a full one.
- Now, the extension considers the positions of products in categories upon initial install.
