Guide for AJAX Shopping Cart

With Ajax Shopping Cart module, you get:

- User-friendly shopping process
- AJAX-based modern technology
- Support of configurable products and custom options
- Attractive and flexible cart overview window
- Items quantity editing in popup

General Settings

To configure the module please go to **admin panel** → **System** → **Configuration** → **Ajax Cart**.

General Settings		
Enable Ajax Shopping Cart	<input type="text" value="Yes"/>	[WEBSITE]
DOM-Selector for 'Add to Cart' Button	<input type="text" value="button.btn-cart, a.button"/>	[STORE VIEW]
Dialog Close Delay (in seconds)	<input type="text" value="10"/> <small>▲ If set to 0, confirmation dialog will not hide automatically.</small>	[STORE VIEW]
Use Ajax Shopping Cart on Product View Pages	<input type="text" value="Yes"/>	[STORE VIEW]
Continue Button Action on Product View Pages	<input type="text" value="Stay on Product View Page"/> <input type="text" value="Stay on Product View Page"/> <input type="text" value="Go to Category Page"/>	[STORE VIEW]

Enable Ajax Shopping Cart - Activate the module.

DOM-Selector for 'Add to Cart' Button - Specify DOM-selectors for a proper *Add to Cart* display.

button.btn-cart, a.button are set by default. In case you have different CSS selectors, please make the following steps:

1. Hover the cursor over the needed element and right click mouse.
2. Select *Inspect (Chrome)* or *Inspect Element (Firefox)* from the dropdown.
3. Look for the selectors, that match a name of element you are looking for. (In *Firefox*) Right click the highlighted code and choose *Copy CSS selector*.

Dialog Close Delay (in seconds) - In this field you can set the timer for *Continue* button.

Use Ajax Shopping Cart on Product View Pages - You can choose whether to use AJAX cart on product view page.

Continue Button Action on Product View Pages - You can select whether *Continue* button on product view page should link to the category page or remain on the product page.

Custom Options Display Mode	<input type="text" value="Only Required Options"/> <ul style="list-style-type: none"> Only Required Options <li style="background-color: #4a7ebb; color: white;">Only Required Options All Custom Options 	[STORE VIEW]
Display floating cart window	<input type="text" value="Yes"/> <p>▲ When hovering "My Cart" link. Disabled for RWD Theme</p>	[STORE VIEW]
Enable Adding Product to Comparison List with Ajax	<input type="text" value="No"/>	[STORE VIEW]
Enable Adding Product to Wishlist with Ajax	<input type="text" value="No"/>	[STORE VIEW]

Custom Options Display Mode - Customers can select configurable products and custom options right on the category page. If you use many custom options and would like to display only required ones on category pages, please choose *Only Required Options*.

Display floating cart window - Enable the floating cart window on your store. It's displayed when a customer hovers mouse over *My Cart* link in the header.

Enable Adding Product to Wishlist (Comparison List) with Ajax - Enable adding products to Wishlist or Comparison List using Ajax.

Display Settings

Enable flying image effect - When set to *Yes*, the image of the product added to cart *flies* to the *My Cart* link in the top menu.

Dialog Box Align - You can choose where to display the cart dialog box (e.g. in the center of screen, in the top right corner, etc).

Display Settings

Enable flying image effect	<input type="text" value="Yes"/>	[STORE VIEW]
	▲ When set to 'Yes', the image of the product added to cart 'flies' to the 'My Cart' link in the top menu. Looks nice.	
Dialog Box Align	<input type="text" value="Center"/>	[STORE VIEW]
	<input type="text" value="Center"/>	[STORE VIEW]
	Top	[STORE VIEW]
	Top Left	[STORE VIEW]
	Top Right	[STORE VIEW]
	Left	[STORE VIEW]
	Right	[STORE VIEW]

Select the product info which will be displayed in the block.

It is possible to select what product information you would like to display in the cart dialog window. Show the *number of products* in cart, *current cart subtotal* and the name of the product which is being added to cart:

1 - Display Total Count of Products in Cart

2 - Display Product Image in Dialog

3 - Display Total Amount in Cart

4 - Display Go To Checkout Button

5 - Allow to change product quantity in confirmation dialog

Display Total Count of Products in Cart	Yes	[STORE VIEW]
Display Product Image in Dialog	Yes	[STORE VIEW]
Display Total Amount in Cart	Yes	[STORE VIEW]
Display 'Go To Checkout' Button	No	[STORE VIEW]
Allow to change product quantity in confirmation dialog	Yes	[STORE VIEW]

Configurable Products
